FORM V.

Abstract of the Payment of Wages Act, 1936, and the Rules made thereunder.

Whom the Act affects.

1. The Act applies to the payment of wages to persons in this factory receiving less than Rs. 200 a month.

2. No employed person can give up by contract, or agreement, his rights under the Act.

Definition of wages.

3. "Wages" means all remuneration payable to an employed person on the fulfilment of his contract of employment.

It includes bonus and any sum payable for want of a proper notice of discharge.

It excludes:

(*a*) the value of house-accommodation, supply of light, water, medical attendance, or other amenity or of any service excluded by the Governor-General in Council or the Local Government;

(*b*) the employer's contribution to a pension or provident fund;

(*c*) travelling allowance or concession or other special expenses entailed by the employment;

(*d*) any gratuity payable on discharge.

Responsibility for and method of payment.

4. The manager of the factory is responsible for the payment under the Act of wages to persons employed under him, and any contractor employing persons is responsible for payment to the persons he employs.

5. Wage-periods shall be fixed for the payment of wages at intervals not exceeding one month.

6. Wages shall be paid on a working day within seven days of the end of the wage period (or within ten days if 1,000 or more persons are employed).

The wages of a person discharged shall be paid not later than the second working day after his discharge.

7. Payments in kind are prohibited.

Fines and deductions.

8. No deductions shall be made from wages except those authorised under the Act (*see* paragraphs 9—15 below).

9. (1) Fines can be imposed only for such acts and omissions as the employer may, with the previous approval of the Chief Inspector of Factories, specify by a notice displayed at or near the main entrance of the factory and after giving the employed person an opportunity for explanation.

(2) Fines—

(*a*) shall not exceed half-an-anna in the rupee;

(*b*) shall not be recovered by instalments, or later than sixty days of the date of imposition;

(*c*) shall be recorded in a register and applied to such purposes beneficial to the employed persons as are approved by the Chief Inspector of Factories;

(*d*) shall not be imposed on a child.

10. (*a*) Deductions for absence from duty can be made only on account of the absence of the employed person at times when he should be working, and such deductions must not exceed an amount which is in the same proportion to his wages for the wage period, as the time he was absent in that period is to the total time he should have been at work.

(*b*) If ten or more employed persons, acting in concert, absent themselves without reasonable cause and without due notice, the deduction for absence can include wages for eight days in lieu of notice, but:—

(1) no deduction for breaking a contract can be made from a person under 15 or a woman,

(2) there must be a provision in writing which form part of the contract of employment, requiring that a specific period of notice of intention to cease work not exceeding fifteen days or the period of notice which the employer has to give to discharge a worker, must be given to the employer and that wages may be deducted in lieu of such notice.

(3) The above provision must be displayed at or near the main entrance of the factory.

(4) No deduction of this nature can be made until a notice that this deduction is to be made has been posted at or near the main entrance of the factory.

(5) No deduction must exceed the wages of the employed person for the period by which the notice he gives of leaving employment, is less than the notice he should give under his contract.

11. Deductions can be made for damage to or loss of goods expressly entrusted to an employed person or for loss of money for which he is required to account, where such damage or loss is due to his neglect or default.

Such deduction cannot exceed the amount of the damage or loss caused and can be made only after giving the employed person an opportunity for explanation.

12. Deductions can be made, equivalent to the value thereof, for house accommodation, amenities, or services (other than tools and raw material) supplied by the employer, provided these are accepted by the employed person as a part of the terms of his employment and have in the case of amenities and services been authorised by order of Government.

13. (*a*) Deductions can be made for the recovery of advances, or for adjustment of overpayment of wages.

(*b*) Advances made before the employment began can only be recovered from the first payment of wages for a complete wage-period but no recovery can be made of advances given for travelling expenses before employment began.

(*c*) Advances of unearned wages can be made at the paymaster's discretion during employment but must not exceed the amount of two months' wages without the permission of an Inspector.

These advances can be recovered by instalments, spread over not more than twelve months and the instalments must not exceed $\frac{1}{3}$rd, or if the wages are not more than Rs. 20, $\frac{1}{4}$th of the wages for any wage-period.

14. Deductions can be made for subscription to and for repayment of advances from any recognised provident fund.

15. Deductions can be made for payments to co-operative societies approved by the Local Government or to the postal insurance, subject to any conditions imposed by the Local Government.

Inspections.

16. An Inspector can enter on any premises, and can exercise powers of inspection (including examination of documents and taking of evidence) as he may deem necessary for carrying out the purposes of the Act.

Complaints of deductions or delays.

17. (1) Where irregular deductions are made from wages, or delays in payment take place, an employed person can make an application in the prescribed form within six months to the Authority appointed by the Local Government for the purpose. An application delayed beyond this period may be rejected unless sufficient cause for the delay is shown.

(2) Any legal practitioner, official of a registered trade union, Inspector under the Act, or other person acting with the permission of the Authority, can make the complaint on behalf of an employed person.

(3) A single application may be presented by, or on behalf of, any number of persons belonging to the same factory the payment of whose wages has been delayed.

Action by the Authority.

18. The Authority may award compensation to the employed person in addition to ordering the payment of delayed wages or the refund of illegal deductions.

If a malicious or vexatious complaint is made, the Authority may impose a penalty not exceeding Rs. 50 on the applicant and order that it be paid to the employer.

Appeal against the Authority.

19. An appeal in the prescribed form against a direction made by the Authority may be preferred, within thirty days (in Calcutta to the Court of Small Causes) to the District Court:—

(*a*) by the paymaster if the total amount directed to be paid exceeds Rs. 300;

(*b*) by an employed person, if the total amount of wages withheld from him or his co-workers, exceeds Rs. 50;

(*c*) by a person directed to pay a penalty for a malicious or vexatious application.

Punishments for breaches of the Act.

20. Any one delaying the payment of wages beyond the due date, or making any unauthorised deduction from wages is liable to a fine up to Rs. 500, but only if prosecuted with the sanction of the Authority or the Appellate Court.

21. The paymaster who,—

(1) does not fix a wage-period, or
(2) makes payment in kind, or
(3) fails to display at or near the main entrance of the factory this Abstract in English and in the language of the majority of the employed persons, or
(4) breaks certain rules made under the Act,

is liable to a fine not exceeding Rs. 200.

The Commissioner, if he finds no objection, shall ask the Collector to issue a license in form No. 28C, to the applicant or applicants. The license shall be renewed annually by the Collector subject to the approval of the Commissioner.

5. Prior to the commencement of work in the warehouse the licensee or the licensees (hereinafter referred to as the licensee) shall deposit Rs. 250 (two hundred and fifty rupees) as cash security for the due observance of the conditions of the license and shall also execute a bond in the prescribed form pledging the warehouse premises and also the plants, utensils, apparatus and the stock of finished preparations that the bonded premises may contain at any time for due discharge of all payments which may become due to the Government. In lieu of executing such a bond the licensee may deposit Government promissory notes of such value as the Commissioner may direct.

6. Unless the Commissioner directs otherwise, the Excise establishment attached to the warehouse shall consist of one Inspector and two peons. The licensee shall pay at the end of each calendar month the actual cost of the peons as well as such portion of the actual cost of the officer-in-charge as the Commissioner may deem commensurate with the officer's attendance. If it be not possible to detail an officer from the ordinary Excise establishment of the district for the supervision of the warehouse, the officer who may be placed in charge thereof shall, unless he is also the officer-in-charge of another warehouse, be deemed to be a whole-time officer and the entire actual cost shall be borne by the licensee, actual cost shall imply pay as well as leave and pension contribution.

7. (1) The licensee shall provide for the peons rent-free quarters in close proximity to the warehouse premises and also such quarters, to the satisfaction of the Commissioner, for a whole-time officer. In lieu of rent-free quarters for the whole-time officer-in-charge, the licensee may pay such house allowance at the end of each calendar month as may be directed by the Commissioner. If an officer is appointed exclusively for the supervision of more than one private warehouse, house allowance in such proportions as may be fixed by the Commissioner shall be realised from the different licensees.

(2) Office furniture required by the officer-in-charge shall be supplied and maintained in proper condition by the licensee at his own cost.

8. The warehouse building shall have brick walls and a roof of fire resisting material. It shall consist of a fermentation room, a still room, a large room where receivers may be installed in a separate enclosure and bottling carried on, and at least one store room for finished preparations. All the rooms, especially the fermentation room, shall be well ventilated and all the windows securely barred and wirenetted the net having a mesh not more than one inch. If a fire-heated still is intended to be used, the still room shall be situated at a safe distance from the bottling and store room, and also sufficiently protected to eliminate all possibilities of an outbreak of fire. The licensee, if he

so desire, may be permitted to store raw materials in a separate room in the warehouse. Every room shall bear on the outside a board on which shall be legibly painted in oil colour the name of the room. The receiving room, bottling room and store room for finished preparations shall have but one entrance each and shall be separately locked by the officer-in-charge and the licensee. During the hours between sunset and sunrise, the still room, when the still therein remain charged with wash, shall also be similarly locked.

9. The fermenting vessels shall be serially numbered but need not be guaged. A fire-heated still shall have a closed furnace with a chimney to carry off the smoke. The man-hole of the still intended to be used shall have a suitable contrivance so that it may be secured either with a lock or with wire and lead seals after running in work. The receivers shall be non-portable, serially numbered and gauged vessels made of approved materials and provided with suitable arrangements for taking dips and locking the man-holes and discharge cocks. Distillates must be conveyed direct from the still to a receiver through a closed pipe which shall be sealed and provided with cocks to the satisfaction of the Commissioner.

10. The warehouse shall be built strictly in accordance with the plan approved by the Commissioner. No additions and alterations to the bonded premises and to the permanent fixtures therein shall be made without his previous sanction; provided that any addition and alteration urgently required may be sanctioned by the Collector subject to the final approval of the Commissioner. The licensee shall carry out any addition or alteration which the latter may consider desirable at any time. A fresh plan of the warehouse in triplicate shall be submitted by him to the Collector whenever any addition or alteration is made.

11. A sufficient number of chemical fire extinguishers and fire-buckets shall be maintained by the licensee in the warehouse. Smoking and use of naked lights within the warehouse is prohibited. A notice to this effect should be conspiciously displayed in the warehouse building.

12. Where there is no whole-time officer, the licensee shall give in writing at least 24 hours' notice of his intention to keep the warehouse open for work, stating clearly therein the operations to be carried out. Such a notice shall be given also to a whole-time officer for work to be done on an approved holiday. He shall not keep the warehouse open for more than 8 hours on any working day, or between sunset and sunrise. For work done on an approved holiday on a requisition of the licensee, he shall pay such overtime fees for the officer as the Commissioner may prescribe.

13. The quantities of molasses and water placed in each fermenting vessel, the bulk of the fermented wash therein and the original and final gravities of the wash shall be ascertained by the officer-in-charge. For the first two items he may rely on the figures furnished by the licensee who shall keep correct accounts of materials and of wash, manufactured and distilled. No fermented wash shall be taken out of the warehouse and none brought within from outside.

14. The Commissioner may, if he deems it necessary, fix normal spirit strength and allowable margins for the preparations.

15. (1) Distillation shall be so conducted that distillates from a complete number of fermenting vessels may be collected in a receiver

at a strength of about 42 per cent. proof. After the distillation is over the licensee shall be permitted to take a duty free sample not exceeding 22 ounces from a receiver for analysis and declaration of spirit strength of the distillate. If the strength is found to be over 42 per cent. proof, the distillate shall be reduced and a fresh sample similar to the first one again be tested by the licensee before declaring the final strength. If, however, the strength of the first distillation is found to be below 42 per cent. it shall not be increased except with the previous sanction of the Collector of the district. When the requisite strength has been reached, the officer-in-charge shall send at the cost of the licensee a quart bottle of duty free sample of the product to the Head Chemist, Excise Laboratory, Calcutta, for a report on the correct strength and obscuration, and also for a declaration as to whether the product is free from deleterious matters and, therefore, fit for consumption. He shall then take charge of the receiver and issue at the strength declared by the licensee. The strength must however be corrected and necessary adjustments in the precribed registers shall be made if the actual strength as found by the Head Chemist differs from it by more than 3·0 proof degree or exceeds 42 per cent. proof.

(2) No issues shall be given prior to the receipt of the Head Chemist's report, or if the actual strength as declared by him exceeds 42 per cent. proof.

(3) The residue remaining in the still after distillation shall be destroyed by running into a drain. The officer-in-charge must personally see that the fire in the furnace is put out completely at the end of each day's distillation.

16. Only colouring matter previously approved by the Head Chemist and in such proportions as may be declared by him to be suitable shall be used. Colouring shall be done in presence of the officer-in-charge prior to drawing of a sample from a receiver for analysis and declaration of strength by the licensee. Flavouring substances other than those included in the recipe must not be used.

17. (1) Except in the case of trade samples intended for free distribution, the preparation shall be put up only in reputed quart and pint bottles and nibs containing not less than 22 ounces per quart and 11 ounces per pint and 6 ounces per nib. Each bottle shall be sealed and capsuled by the licensee in such a manner as the Commissioner may consider adequate for an easy detection of any attempt to tamper with the contents. The licensee shall also affix on each bottle a label previously approved by the Commissioner on which shall be legibly printed not only the name of the preparation and the name and address of the manufacturer, the percentage of proof spirit contained in the preparation in English and Bengali, but also the dosage and the words "for medicinal use only." The batch number shall be noted in a corner of the label. The preparation shall be removed to the store room immediately after bottling, labelling, sealing and capsuling and kept there well arranged.

(2) If for any reason re-bottling is found indispensible, it shall be permitted by the officer-in-charge. The new spirit strength shall be determined by him in such a case with the hydrometer making necessary correction for the obscuration already declared by the Head Chemist. In case reduction of the spirit strength is necessary prior to re-bottling, this may be done in an ordinary vessel noting carefully the exact quantity of the water added.

(3) Whenever bottling or re-bottling is carried on it shall be the duty of the officer-in-charge to check at random the contents of at least 5 per cent. of the bottles.

(4) The Collector may approve, reject or withdraw any label from use, whenever he considers that any such label does not conform with the provisions of the Indian Merchandise Marks Act, 1889 (IV of 1889), of any rules or orders made thereunder, or is in any way so coloured, drawn or worded as to mislead the public regarding the nature of the liquor contained in the bottle.

18. (1) Issue of the preparation shall be given by the officer-in-charge on receipt of a requisition in the prescribed form from the licensee. Only batches declared by the Head Chemist to be fit for consumption shall be issued and a new batch shall not be issued so long as there is an older batch of requisite quality in stock.

(2) For sale in Bengal duty shall be realised at the rate of Rs. 21-14 per proof gallon, and for export to other provinces at the rates prevailing therein. The preparations shall be exported from the warehouse, and duty on the exports paid strictly in accordance with the instructions issued from time to time by the Commissioner of Excise. Under-bond issues shall not be given except for export.

(3) No spirituous preparation shall be removed from the warehouse except under cover of a pass granted by the officer-in-charge.

19. For payment of duty on issues for sale in Bengal the licensee may open a personal ledger account.

20. The preparations shall not be sold by the licensee except to holders of the license in form No. 19A, to authorised importers.

21. (1) Wash found unfit for distillation shall be destroyed by the licensee in the presence of the officer-in-charge who shall note the fact in the proper register.

(2) If a batch of finished preparation is suspected to have deteriorated in quality further issues from it shall be forthwith suspended and a sample sent to the Head Chemist at the cost of the licensee for an examination. Any batch found by him unfit for consumption or not of the requisite quality shall be destroyed by the Superintendent of Excise and Salt of the district who shall note the fact in the registers concerned. Duty on the quantity destroyed shall be remitted.

22. The officer-in-charge shall maintain registers in form numbers 1, 78, 79, 81 and 200. He shall submit weekly returns in form No. 78 and monthly returns in form Nos. 78 and 89. The licensee shall keep accounts in form Nos. II, III, 78 and 89, but the first two accounts shall be checked and signed daily by the officer-in-charge who shall also be responsible for their safe custody. At the end of each calendar month the licensee shall submit to the Collector through the Officer-in-carge a statement in the prescribed form showing the working of the warehouse during the month. A copy of the statement shall be forwarded by the Collector to the Commissioner.

23. The licensee shall be bound by the provisions of the Bengal Excise Act, 1909, and the orders passed and other rules made thereunder.

STATEMENT OF OBJECTS AND REASONS.

The Indian Motor Vehicles Act, 1914, was framed to suit conditions prevailing at a very early stage in the development of motor transport in India. The rapid growth of that form of transport in twenty-two years makes it necessary to empower local authorities to exercise a closer control than the present Act permits in the interests alike of the development of a co-ordinated policy of roads and railways, and of the safety and convenience of the public.

The question of the co-ordination of road and railway, the elimination of wasteful and uneconomic competition between the two forms of transport and the methods by which these objects can be secured consistently with the public interest, has engaged the attention of the Government of India for some years past. In 1932-33, Messrs. Mitchell and Kirkness carried out, at the instance of the Government of India, an enquiry into these problems and their report, which was published in January 1933, emphasised the importance of early action. The Road-Rail Conference convened by the Government of India in April 1933 passed a resolution, *inter alia*, recommending control of public service and goods motor transport in the interests of public safety and convenience, and restriction of vehicles to prevent wasteful competition. Thereafter, in January 1935, the Transport Advisory Council, at its first meeting, made definite recommendations to the same effect. Amendments to the Act were drafted to give effect to the recommendations as far as possible and Local Governments were consulted. The latter were, on the whole, in favour of legislation but there were differences on points of detail. It is generally recognised that it will be necessary, before long, to undertake a general revision of the Act, but the Government of India consider that it is essential in the meantime to give powers to Local Governments to regulate transport motor vehicles, as well as trailers and other attachments, and to enforce where necessary regional and route control as recommended by the Transport Advisory Council. The Government of the United Provinces have already enacted a similar measure. The Bill now presented is the outcome of the discussions referred to and represents the final recommendations of the Transport Advisory Council at its last meeting in July 1936.

NOTES ON CLAUSES.

Clause 1 (1).—In order to avoid possible complications on the coming into force of the Government of India Act, 1935, it is proposed that the amendments take effect forthwith. Clause 7 ensures that there will be no embarrassment to Local Governments.

Clause 1 (2).—Since the local legislature of the United Provinces have recently passed an Act much on the lines of the Bill, it is proposed to exclude that Province from the immediate scope of the Bill, but provide that the Local Government may, by notification in the Local Gazette, extend the amended Act to the United Provinces.

Clause 2 (a).—The widening of the definition of "motor vehicle" is intended to bring trailers and other attachments as such within the scope of the provisions of Part III of the 1914 Act. Suitable exemptions can be allowed under section 13 if Local Governments consider it unnecessary to require the registration of light trailers or other attachments.

Clause 2 (b).—The term "transport motor vehicle" has been used in preference to the more familiar "public service motor vehicle" or "public motor vehicle" as less likely to cause confusion with the British Acts and existing provincial rules. The term has been very widely defined so as to include not only vehicles *used* for the carriage for hire or reward of passenger or goods or both but vehicles *adapted for such use*. This must be borne in mind in considering the suitability of the provisions which follow.

Clause 3.—Proposed new section 10A.—(1) This sub-clause as drafted gives Local Governments very wide discretion as to the authorities to be appointed, the powers to be exercised by those authorities, and the classes of public transport motor vehicles to be controlled. In the opinion of the Government of India it is desirable to empower Local Governments to constitute, in each province, a provincial authority with power to supervise and co-ordinate, and "area" authorities exercising jurisdiction within specified areas.

(2) This sub-clause introduces no new principle, as motor vehicles which are let or plied for hire are already subject to special regulation. The word "countersigned" has been preferred to "endorsed," in view of the special meaning attached to endorsements in section 18.

Proposed new section 10B.—(*a*) This confers power to limit the number of public transport motor vehicles of any specified class to be used in any area or on any specified route. The absence of this power is one of the main defects in the Act as it now stands.

(*b*) "Road Service Permits" may be granted for an area or a route and not only for individual vehicles but for "services" or "fleets," *e.g.*, an owner employing ten vehicles of which not more than 8 are in use at any one time would be able to obtain a permit covering the simultaneous use of eight vehicles of a stated capacity.

(*c*) It will be seen that power is given to fix the limits of the rates to be charged for goods. It is obviously desirable that the transport authority or other prescribed authority should have such power.

(*d*) The power to cancel or suspend is dealt with in clause 6.

Clause 4.—(*a*) Provision for inspection is clearly needed. Vehicles found on inspection to be unfit for use can be dealt with under rules made under section 11(*2*) (*i*).

(*b*) In view of new sections 10B and 11A, section 11 (*2*) (*e*) is no longer required and it is proposed to repeal it subject to the safeguard provided in clause 7.

(*c*) Unauthorised bus stands have been found to be a source of confusion and have interfered with proper traffic regulation.

(*e*) It is considered that existing clauses (*c*), (*h*) and (*i*) of section 11 (*2*) are possibly insufficient to enable Local Governments to make rules regulating the classes of motor vehicles which may be used in specified areas or on specified routes, or where necessary prohibiting altogether the use of specified classes of motor vehicle.

(*f*) The first Transport Advisory Council which met in January 1935, recommended that provision should be made for insurance against passenger and third party risks, and the importance of having such a provision has been brought to notice in connection with several road accidents in recent months.

Clause 5.—The new section 11A confers rule making powers on Local Governments with special reference to transport motor vehicles, transport authorities and road service permits which will enable them to carry out the recommendations of the Transport Advisory Council.

Clause 6.—Local Governments are given full discretionary powers to cancel or suspend road service permits and to make disqualifications; transport authorities are given power to cancel or suspend road service permits issued by them, and other prescribed authorities the power to suspend road service permits.

Clause 7 is intended to remove any doubts that might exist as to the rules now in force.

(7) In territorial constituencies other than European and Anglo-Indian constituencies and in factory, colliery and tea garden labour constituencies, and at a primary election to choose an electoral college in the Railway Trade Union constituency where it has been decided that the method of voting by ballot boxes shall be followed, the nomination paper shall also be accompanied by another declaration that the candidate has selected a symbol from the list specified in Schedule II to these rules; no candidate in such constituencies shall be deemed to be duly nominated unless such declaration is delivered along with the nomination paper.

(8) Any nomination paper which is not received before three o'clock in the afternoon on the date fixed under clause (*a*) of sub-rule (2) shall be rejected.

(9) On the presentation of a nomination paper, the Returning Officer may require the person presenting the same to produce copies of the electoral rolls or a copy of the list of members forming the electoral college in the Railway Trade Union constituency in which the names of the candidate and his proposer and seconder are included or of the necessary entries in such rolls or list and shall satisfy himself that the names and numbers on the electoral roll or the list of members forming the electoral college of the candidate and his proposer and seconder as entered in the nomination paper are the same as those entered in the electoral roll or such list. Where necessary he shall direct that the former be amended so as to be in accordance with the latter.

It shall be also competent for the Returning Officer to alter or amend any entry in the nomination paper presented to him with a view to ensuring accurate and adequate publication under sub-rule (10) of names of candidates and of persons who have subscribed the nomination paper as proposer and seconder.

(10) The Returning Officer or other person authorised shall, on receiving a nomination paper under sub-rule (4), inform the person or persons delivering the same of the date, time and place fixed for the scrutiny of nominations and shall enter in the nomination paper its serial number, and shall sign thereon a certificate stating the date on which and the hour at which the nomination paper has been delivered to him: and shall, as soon as may be thereafter, cause to be affixed in some conspicuous place in his office a notice of the nomination containing descriptions, similar to those contained in the nomination paper, both of the candidate and of the persons who have subscribed the nomination paper as proposer and seconder.

Provided that if a candidate in a trade union, factory, colliery or tea garden labour constituency is a genuine manual worker he shall be required to deposit a sum of fifty rupees only and to enclose with the nomination paper the Government treasury receipt (chalan) for the said amount under this sub-rule.

(2) If a candidate by whom or on whose behalf the deposit referred to in sub-rule (1) has been made withdraws his candidature in the manner and within the time specified in sub-rule (11) of rule 4, or if the nomination of any such candidate is refused, the deposit shall be returned to the person by whom it was made; and, if any candidate dies before the commencement of the poll, any such deposit, if made by him, shall be returned to his legal representative or, if not made by the candidate, shall be returned to the person by whom it was made.

(3) If a candidate by whom or on whose behalf the deposit referred to in sub-rule (1) has been made is not elected and the number of votes polled by him does not exceed one-eighth of the total number of votes polled or, in the case of a constituency returning more than two members, one-eighth of the total number of votes polled divided by the total number of members to be elected, the deposit shall be forfeited to the Government:

Provided that in a general constituency in which a seat is reserved for a member of the Scheduled Castes:—

(*i*) the deposit of a candidate belonging to the Scheduled Castes, who is elected at the primary election but is not elected at the final election, shall not be forfeited; and

(*ii*) the deposit of any other candidate shall not be forfeited unless he fails to obtain one-eighth of the total number of votes polled by all candidates other than the candidates belonging to the Scheduled Castes.

(4) For the purpose of sub-rule (3), the number of votes polled shall be deemed to be the number of ballot papers, other than rejected ballot papers, counted

(5) The deposit made by or on behalf of a candidate, whether such candidate is elected or not, shall, if it is not forfeited under sub-rule (3), be returned to such candidate or to the person who has made the deposit on his behalf, as the case may be, after the publication of the result of the election in the Gazette:

Provided that, if a candidate is duly nominated at a general election in more than one constituency, not more than one of the deposits made by him or on his behalf shall be returned, and the remainder shall be forfeited to the Government.

Scrutiny of nominations.

6. (1) On the date fixed for the scrutiny of nominations under sub-rule (2) of rule 4, the candidates, their election agents, one proposer and one seconder of each candidate, and one other person duly authorised in writing by each candidate, but no other person, may attend at such time and place as the Returning Officer may appoint, and the Returning Officer shall give them all reasonable facilities for examining the nomination papers of all candidates which have been delivered within the time and in the manner laid down in rule 4.

(2) (*a*) The Returning Officer shall then examine the nomination papers and shall decide all objections which may be made to any nomination, and may, either on such objection or on his own motion, after such summary inquiry, if any, as he thinks necessary, refuse any nomination on any of the following grounds:—

(*i*) that the candidate is not qualified to be chosen to fill the seat under the Act or under an Act of the Provincial Legislature or under any Order or rule made under the Act; or

(*ii*) that the candidate is disqualified for being chosen to fill the seat under section 69 or any other provision of the Act or under an Act of the Provincial Legislature or under any Order or rule made under the Act; or

(*iii*) that a proposer or seconder is disqualified from subscribing a nomination paper under sub-rule (5) of rule 4; or

(*iv*) that there has been any failure to comply with any of the provisions of rule 4 or rule 5; or

(*v*) that the candidate is not identical with the person whose number or name on the electoral roll or in the list of members forming the electoral college in the Railway Trade Union constituency is given in the nomination paper as the number or name of such candidate; or

(*vi*) that any proposer or seconder is not identical with the person whose number or name on the electoral roll is given in the nomination paper as the number or name of such proposer or seconder; or

(*vii*) that the signature of the candidate or any proposer or seconder is not genuine or has been obtained by fraud.

(*b*) For the purposes of this rule:—

(*i*) the production of any certified copy of an entry made in the electoral roll of any constituency or in the list of members forming the electoral college in the Railway Trade Union constituency shall be conclusive evidence

of the right of any elector named in that entry to stand for election or to subscribe a nomination paper, as the case may be, unless it is proved that the candidate is disqualified under the Act or any Order or rule made thereunder or an Act of the Provincial Legislature or that the proposer or seconder, as the case may be, is disqualified under sub-rule (5) of rule 4;

(*ii*) the certificate accompanying the nomination paper of a candidate who is a member, honorary member or official of a recognised trade union in accordance with the provisions of sub-rule (4) of rule 4 and the production of a certified copy of an entry made in the list of recognised trade unions prepared and published under Part III of the Bengal Legislative Assembly Electoral (Preparation, Revision and Publication of Electoral Rolls) Rules, 1936, shall be conclusive evidence of the right of such candidate to stand for election in a trade union, factory or colliery labour constituency unless it is proved that the candidate is disqualified under the Act or any Order or rule made thereunder or an Act of the Provincial Legislature; and

(*iii*) where a person has subscribed whether as proposer or seconder a larger number of nomination papers than there are vacancies to be filled, those of the papers so subscribed which have been first received, up to the number of vacancies to be filled, shall be deemed to be valid.

(*c*) Nothing contained in sub-clause (*iii*), sub-clause (*iv*), sub-clause (*v*), sub-clause (*vi*) or sub-clause (*vii*) of clause (*a*) shall be deemed to authorise the refusal of the nomination of any candidate on the ground of any irregularity in respect of a nomination paper, if the candidate has been duly nominated by means of another nomination paper in respect of which no irregularity has been committed.

(*d*) The Returning Officer shall not refuse any nomination paper on the ground of a slight technical defect such as the wrong spelling of a name.

(3) (*a*) The Returning Officer shall endorse on each nomination paper his decision accepting or rejecting the same and, if the nomination paper is rejected, shall record in writing a brief statement of his reasons for such rejection.

(*b*) The scrutiny shall be completed on the day fixed in this behalf under clause (*b*) of sub-rule (2) of rule 4 and no adjournment of the proceedings shall be allowed.

(4) (*a*) On completion of the scrutiny of nominations and after expiry of the period within which candidatures may be withdrawn under sub-rule (11) of rule 4, the Returning Officer shall proceed as follows:—

(*i*) In the case of elections in territorial constituencies other than European and Anglo-Indian constituencies and in factory, colliery and tea garden labour constituencies, and in the case of a primary election to choose an electoral college in the Railway Trade Union constituency held under Part IV of these rules where it has

been decided that the method of voting by ballot boxes shall be followed, he shall forthwith examine the symbols selected by the candidates and if such symbols are found to conflict with each other, he shall allocate the symbols in conformity as far as possible with the wishes of the candidates and if necessary by lot, and his decision in this respect shall be final. Each candidate or his election agent shall at the same time be informed of the symbol assigned to such candidate and shall be given a specimen thereof. He shall then prepare a list of valid nominations indicating therein the symbol assigned to each candidate.

(*ii*) In the case of constituencies not provided for in sub-clause (*i*), he shall forthwith prepare a list of valid nominations.

(*b*) In every case the Returning Officer shall cause the list of valid nominations prepared by him under clause (*a*) to be affixed in some conspicuous place in his office.

Death of candidate before poll.

7. If a candidate who has been duly nominated under these rules dies after the date fixed for the scrutiny of nominations and before the commencement of the poll, the Returning Officer or other authorised person referred to in sub-rule (4) of rule 4 shall, upon being satsified of the fact of the death of the candidate, countermand the poll and report the fact to the Governor, and all proceedings with reference to the election shall be commenced anew in all respects as if for a new election:

Provided that no fresh nomination shall be necessary in the case of a candidate whose nomination had been valid at the time of the countermanding of the poll.

Procedure at election.

8. (1) If the number of candidates who are duly nominated and who have not withdrawn their candidature in the manner and within the time specified in sub-rule (11) of rule 4 exceeds that of the seats to be filled, the Returning Officer shall forthwith publish in the Gazette, and in such other manner as the Governor may direct, and in such places in the constituency as the Returning Officer may consider necessary, a list in form III annexed to these rules containing the names in alphabetical order and addresses of the candidates as given in the nomination papers and the symbol, if any, assigned to each candidate, and a poll shall be taken.

(2) If the number of such candidates is equal to the number of seats to be filled, the Returning Officer shall declare all such candidates to be duly elected to fill those seats.

(3) If the number of such candidates is less than the number of seats to be filled, the Returning Officer shall declare all such candidates, if any, to be elected to fill the seats, and the Governor exercising his individual judgment shall, by a notification in the Gazette, call upon the constituency to elect a person or persons, as the case may be, within such time as may be fixed by him in his discretion and specified in the notification:

Provided that where the constituency, having already been called upon under this sub-rule, has failed to elect a person or the requisite number of persons, as the case may be, to fill the vacancy

or vacancies, the Governor shall not be bound to call again upon the constituency to elect a person or persons until such time, if any, as he thinks fit.

(4) At elections in every constituency where a poll is taken votes shall be given by ballot in the manner provided in these rules and no votes shall be received by proxy.

(5) Votes shall be counted by, or under the supervision of, the Returning Officer, and each candidate, and either his election agent, or one representative of each candidate authorised in writing by the candidate shall have a right to be present at the time of counting.

(6) When the counting of the votes has been completed, the Returning Officer shall forthwith declare the candidate or candidates elected.

(7) The Returning Officer shall without delay report the result of the election to the Secretary to the Bengal Legislative Assembly or to such officer as the Governor may direct, and the declaration containing the name or names of the candidate or candidates elected shall be published in the Gazette.

(2) The Returning Officer may, either for the constituency as a whole or for a particular polling station of the constituency, for sufficient cause and with the previous consent of the Governor in his discretion, postpone the date fixed for the poll to a date to be fixed by the Governor in his discretion, or for sufficient cause and with the previous consent of the Governor extend the hour fixed under sub-rule (1) at which the poll shall close.

Appointments of presiding officers and polling officers for polling stations.

24. (1) The Returning Officer shall select for each constituency as many polling stations as he thinks necessary and shall publish, in such manner as the Governor may direct, a list showing the polling stations so selected, and the polling areas for which they have respectively been selected.

(2) The Returning Officer shall appoint a presiding officer for each polling station and such other person or persons (hereinafter referred to as polling officer or officers) to assist the presiding officer as he thinks necessary:

Provided that if a polling officer is absent from the polling station the presiding officer may appoint any person who is present at the polling station to be the polling officer during the absence of the former officer and inform the Returning Officer accordingly.

(3) A polling officer may, if so directed by the presiding officer, perform all or any of the duties assigned to a presiding officer under these rules.

(4) If the presiding officer, owing to illness or other unavoidable cause, is obliged to absent himself from the polling station, his duties shall be performed by such polling officer as has been previously authorised by the Returning Officer to perform such duties during any such absence.

Duties of presiding officers at polling stations.

25. (1) The presiding officer shall keep order at the polling station, shall see that the election is fairly conducted, shall regulate the number of electors to be admitted at one time, and shall exclude all other persons except—

(*a*) the polling officer or officers, the candidates, and one agent of each candidate (hereinafter referred to as the polling agent) appointed in writing by the candidate, and authorised in this behalf by the Returning Officer,

(*b*) the police officer or officers or other public servants on duty, and

(*c*) the persons referred to in rule 32.

(2) There shall be at least two police constables or chaukidars on duty either inside or outside the polling station, as the presiding officer shall direct, who shall under the orders of the presiding officer assist in expediting and regulating the passage of electors inside the polling station or maintain order either inside or outside the polling station:

Provided that no police officer or chaukidar shall be allowed to stay inside the polling station or part of a polling station which is set apart exclusively for the recording of the votes of women electors:

Provided further that if the presiding officer so directs there shall not be more than one police constable or chaukidar on duty under this sub-rule at any polling station, where the votes in respect of an Indian Christian, European or the Anglo-Indian constituency are recorded.

(3) The presiding officer shall close the polling station at the hour fixed for the close of the poll under sub-rule (1) or sub-rule (2) of rule 23, as the case may be, so as to prevent the admission thereto of any elector after that hour, provided that all electors present at the polling station before it is so closed shall be entitled to have their votes recorded.

(4) In emergencies such as a disturbance of the public peace or the intervention of floods the presiding officer for any polling station may, with the previous approval of the Returning Officer, close the poll at such station and announce an adjournment of the poll to a date to be notified later. The hour at which the poll shall commence and the hour at which the poll shall close on such date shall be fixed by the Governor. The date so appointed and the hours so fixed shall be notified in such manner as the Governor may direct.

Removal from the polling station for misconduct.

26. by any other person authorised in writing by the presiding officer or such polling officer to remove him; and the person so removed shall not, unless with the permission of the presiding officer or such polling officer, be allowed again to enter the polling station during the day:

Provided that this power shall not be exercised so as to prevent any elector who is otherwise entitled to vote at any polling station from having an opportunity of voting at such station.

Arrangements for secrecy of voting and recording of votes of *purdanashin* electors.

27. Each polling station shall be furnished with such number of compartments, in which electors can record their votes screened from observation, as the Returning Officer thinks necessary.

As far as possible, separate compartments and separate entrances and exits shall be provided for women electors. Suitable arrangements shall be made for recording the votes of *purdanashin* female electors, as far as is practicable.

The Returning Officer may, however, at his discretion, if a sufficient number of women suitable and willing to act as presiding and polling officers are available, provide a separate polling station for taking the votes of the women electors for any polling area, and at such polling stations the work of the presiding and polling officers shall be done by women and if necessary also by such male persons as the Returning Officer thinks fit. If it is not possible to provide such a separate polling station one woman attendant may be provided as far as practicable to help women electors in recording their votes.

For the purpose of identification the husband or other near relative of a woman elector may accompany her to the polling station. Such person shall not, however, be permitted to go inside the polling compartment.

Manner of providing ballot boxes and symbols of candidates at the polling stations.

28. (1) The Returning Officer shall provide at each polling station one ballot box for each of the candidates in each polling compartment thereof and the ballot boxes shall be so placed in the compartment that an elector can insert his ballot paper in any of the boxes without being observed by any other person.

(2) The symbol assigned to each such candidate shall be printed and pasted on the ballot boxes of the respective candidates. The ballot box of each candidate shall also be clearly marked with his name in English, Bengali and/or any other vernacular languages as may be decided by the Returning Officer.

(3) Outside and inside each such polling station there shall be displayed on boards, to be provided for the purpose by the Returning Officer, in bold and clear print the name of each candidate in English, Bengali and/or any other vernacular languages as may be decided by the Returning Officer, the name of the symbol with which his ballot box is marked and the symbol itself.

(4) The Returning Officer shall also provide at each polling station instruments for stamping the official mark on ballot papers, as many ballot papers as may be necessary, and copies of the electoral roll or of such part thereof as contains the names of the electors entitled to vote at such station.

(5) The official mark shall be kept secret, and a period of not less than seven years shall intervene between the use of the same official mark at elections for the same constituency.

Ballot boxes to be locked up and sealed before commencement of poll.

29. Every ballot box shall be so constructed that the ballot papers can be introduced therein, but cannot be withdrawn therefrom, without the box being unlocked. The presiding officer at any polling station, immediately before the commencement of the poll, shall show each ballot box to be used at the poll to such persons as may be present in such station so that they may see that it is empty, and he shall then lock it up, and place his seal upon it in such manner as to prevent its being opened without breaking such seal, and shall keep it so locked and sealed.

Section 14 of Act XXXIX of 1920 to be read and explained to persons present. XXXIX of 1920.

30. Before the polling station is open for the recording of votes, the presiding officer shall read to such persons as may be present the provisions of section 14 of the Indian Election Offences and Inquiries Act, 1920, and shall explain the substance thereof in the vernacular of the district.

Procedure before the recording of votes by ballot box system.

31. (1) The elector, on entering the polling station, shall first approach the person in charge of the electoral roll who shall ascertain the elector's name, address and such other particulars as appear on the roll, and having checked these with the roll, call out the number, name and description of the elector as printed. He shall then place against the number of the elector in the roll a short horizontal line to denote that the elector has received a ballot paper. No other mark shall be made on the roll.

(2) On the elector's name being called out the person in charge of the ballot paper shall enter the name of the polling station, the distinctive letter or number of the polling station, and the serial number of the elector, and in the case of a territorial constituency other than a European or the Anglo-Indian constituency, the name of the union board or chaukidari union in the case of a rural area, and the number of the ward and the name of the municipality in the case of an urban area, to which the elector belongs and which is included in the electoral areas of the constituency the electors in respect of which are entitled to vote at such polling station, and in the case of a factory, colliery or tea garden labour constituency the name of the factory, mine or tea garden, as the case may be, to which the elector belongs and which is included in the constituency on the counterfoil of the ballot paper. He shall then detach the ballot paper from the counterfoil and stamping it with the official mark deliver it to the elector.

(3) In deciding the right of a person to obtain a ballot paper under this rule the presiding officer at any polling station may interpret an entry in the electoral roll so as to overlook merely clerical or printing errors but shall record his reasons for doing so, and the interpretation he has adopted, on the counterfoil of the ballot paper issued to such person.

(4) At a primary election for the selection of candidates for seats reserved in general constituencies for members of the Scheduled Castes, and at a primary election to choose an electoral

college under paragraph 21 of Part IV of the Order, an elector shall be given only one ballot paper which he may place in the ballot box of the candidate for whom he desires to vote.

(5) At elections in general constituencies in which seats are reserved for members of the Scheduled Castes the elector shall be given as many ballot papers as there are members to be elected, and the polling officer shall explain to the elector that he can place all the ballot papers in the ballot box of one candidate or distribute them as he pleases and place them in different ballot boxes.

Persons to be present at the polling station to assist the polling officers in identifying electors.

32. At every polling station a Panchayet of the chaukidari union or the President or a member of the union board or an officer of the municipality included within the electoral areas of the constituency the electors in respect of which are entitled to vote at such polling station, or any other person whom the presiding officer considers suitable shall, as far as practicable, be present from the commencement of the poll and shall sit in close proximity to the polling officer in charge of the electoral roll and shall assist him in identifying the electors calling his attention to any case of impersonation or misrepresentation when the matter shall at once be referred to the presiding officer.

Manner of recording votes after receipt of ballot papers.

33. (1) The elector, on receiving the ballot paper, shall show the official mark thereon to the presiding officer or to the polling officer performing the duties of the presiding officer, and forthwith proceed into the polling compartment where he shall put his ballot paper or papers into the ballot box or boxes of the candidate or candidates for whom he desires to vote. Every elector shall vote without undue delay and shall quit the polling station as soon as he has put his ballot paper into the ballot box.

(2) The presiding officer may, at any time while a poll is proceeding, enter any polling compartment and may take such steps as may be necessary to ensure that the boxes remain ready for the reception of ballot papers, and that no elector delays unduly in any such compartment and that not more than one elector is in any such compartment at a time. The presiding officer may also see that no elector resorts to any malpractices within the polling compartment.

Recording of votes of illiterate and infirm electors.

34. If the elector, owing to illiteracy or infirmity, is unable to read the symbols on a ballot box, the presiding officer shall put the ballot paper into the ballot box according to the direction of the elector.

Elector to be questioned in case of doubts as to his identity.

35. At any time before a ballot paper is delivered to an elector, the presiding officer or polling officer may, of his own accord, if he has reason to doubt the identity of the elector or his right to vote at such station, and shall, if so required by a candidate or polling agent, put to the elector the following questions:—

(1) Are you the person enrolled as follows (reading the whole entry from the roll)? and,

(2) Have you already voted at the present election in this constituency?

(3) (And at a general election in a territorial constituency), have you already voted at this general election for the Legislative Assembly in any other territorial constituency?

(4) (And at a general election in a factory labour constituency), have you already voted at this general election for the Legislative Assembly in any other factory labour constituency or in any trade union or colliery labour constituency?

(5) (And at a general election in a colliery labour constituency), have you already voted at this general election for the Legislative Assembly in any other colliery labour constituency or in any trade union or factory labour constituency?

and the elector shall not be supplied with a ballot paper if he refuses to answer any one of the questions and unless he answers the first question in the affirmative, the second question in the negative, and, at a general election, the third, the fourth or the fifth question also in the negative.

Form of ballot paper and its contents.

36. (1) The ballot paper shall be in form XI annexed to these rules, and shall be printed in such language or languages as the Governor may direct.

(2) Every polling station shall have a distinctive letter or number allotted to it. The serial number and the name of the constituency shall be printed on every ballot paper and its counterfoil. There shall be also shown on the counterfoil of each ballot paper entries relating to the particulars mentioned in sub-rule (2) of rule 31 which shall be filled in by the person in charge of the ballot paper in accordance with the provisions of the said sub-rule.

Tendered votes.

37. If a person representing himself to be a particular elector named on the electoral roll applies for a ballot paper or papers, as the case may be, after another person has voted as such elector, the applicant shall, after duly answering such questions as the presiding officer may ask, be entitled to receive a ballot paper. Such ballot paper (hereinafter referred to as a "tendered ballot paper") shall be in form XII annexed to these rules, and, instead of being put into the ballot box, shall be given to the presiding officer who shall endorse it with the name of the candidate or candidates for whom such person desires to vote and the number of votes which such person desires to cast in favour of each such candidate and also with the name of the elector, his number on the electoral roll and the name of the electoral area or the factory, mine or tea garden to which the roll relates. It shall be set aside in a separate packet and it shall not be counted by the Returning Officer. The name of the constituency, the name of the elector and his serial number on the electoral roll and the name and the distinctive letter or the number of the polling station to which the roll relates shall be entered in a list in form XIII annexed to these rules which shall bear the heading "Tendered votes list." The person tendering such ballot paper shall sign his name and address thereon or affix his thumb impression against the entry in that list.

Challenged votes.

38. (5) Any person whose name is included in the electoral roll of the constituency and who is not subject to any disabilities for his name being so included under the Act or any Order or rule made thereunder or an Act of the Provincial Legislature, may subscribe, as proposer or seconder, as many nomination papers as there are vacancies to be filled but no more.

(6) Every nomination paper delivered under sub-rule (4) shall be accompanied by a declaration in writing subscribed by the candidate that the candidate has appointed or does thereby appoint as his election agent for the election either himself or some one other person who is not disqualified under the Act or any Order or rule made thereunder or an Act of the Provincial Legislature for the appointment and who shall be named in the declaration ; and no candidate shall be deemed to be duly nominated unless such declaration is delivered along with the nomination paper.

(7) Any nomination paper which is not received before three o'clock in the afternoon on the date fixed under clause (*a*) of sub-rule (2) shall be rejected.

(8) On the presentation of a nomination paper, the Returning Officer may require the person presenting the same to produce copies of the electoral rolls in which the names of the candidate and his proposer and seconder are included or of the necessary entries in such rolls and shall satisfy himself that the names and numbers on the electoral roll of the candidate and his proposer and seconder as entered in the nomination paper are the same as those entered in the electoral roll. Where necessary he shall direct that the former be amended so as to be in accordance with the latter.

It shall be also competent for the Returning Officer to alter or amend any entry in the nomination paper presented to him with a view to ensuring accurate and adequate publication under sub-rule (9) of names of candidates and of persons who have subscribed the nomination paper as proposer and seconder.

(9) The Returning Officer or other person authorised shall, on receiving a nomination paper under sub-rule (4), inform the person or persons delivering the same of the date, time and place fixed for the scrutiny of nominations, and shall enter in the nomination paper its serial number and shall sign thereon a certificate stating the date on which and the hour at which the nomination paper has been delivered to him : and shall, as soon as may be thereafter, cause to be affixed in some conspicuous place in his office a notice of the nomination containing descriptions, similar to those contained in the nomination paper, both of the candidate and of the persons who have subscribed the nomination paper as proposer and seconder.

(10) Any candidate may withdraw his candidature by notice in form II annexed to these rules subscribed by him and assented to by the proposer and seconder and delivered to the Returning Officer or other person authorised either by such candidate in person or by his proposer or seconder before three o'clock in the afternoon on the date fixed under clause (*c*) of sub-rule (2), and a candidate who has withdrawn his candidature shall not be allowed to cancel the withdrawal or to be renominated as a candidate for the same election :

Provided that if the last day for the delivery of notice of withdrawal of candidature under this sub-rule is a public holiday within the meaning of section 25 of the Negotiable Instruments Act, 1881, or has been notified by the Governor as a day to be observed as a holiday in Government offices, the notice of withdrawal of candidature shall be considered as having been delivered in due time if it is delivered on the next succeeding day which is neither such a public holiday nor a day so notified. (1) At the time of delivery of a nomination paper under sub-rule (4) of rule 4, each candidate shall enclose with the nomination paper a Government treasury receipt (chalan) showing that a deposit of five hundred rupees has been made by him in the treasury : and no candidate shall be deemed to be duly nominated unless such deposit has been made and treasury receipt has been enclosed with the nomination paper. Deposit on nomination.

(2) If a candidate by whom or on whose behalf the deposit referred to in sub-rule (1) has been made withdraws his candidature in the manner and within the time specified in sub-rule (10) of rule 4, or if the nomination of any such candidate is refused, the deposit shall be returned to the person by whom it was made ; and, if any candidate dies before the commencement of the poll, any such deposit, if made by him, shall be returned to his legal representative or, if not made by the candidate, shall be returned to the person by whom it was made.

(3) If a candidate by whom or on whose behalf the deposit referred to in sub-rule (1) has been made is not elected and the number of votes polled by him does not exceed one-eighth of the total number of votes polled or, in the case of a constituency returning more than two members, one-eighth of the total number of votes polled divided by the total number of members to be elected, the deposit shall be forfeited to the Government.

(4) For the purpose of sub-rule (3), the number of votes polled shall be deemed to be the number of ballot papers, other than rejected ballot papers, counted.

(5) The deposit made by or on behalf of a candidate, whether such candidate is elected or not, shall, if it is not forfeited under sub-rule (3), be returned to such candidate or to the person who has made the deposit on his behalf, as the case may be, after the publication of the result of the election in the Gazette :

Provided that, if a candidate is duly nominated at an election in more than one territorial constituency, or at an election in a territorial constituency and an election by the members of the Bengal Legislative Assembly to fill seats in the Bengal Legislative Council, not more than one of the deposits made by him or on his behalf shall be returned, and the remainder shall be forfeited to the Government.

Scrutiny of nominations.

6. (1) On the date fixed by the Governor for the scrutiny of nominations under sub-rule (2) of rule 4, the candidates, their election agents, one proposer and one seconder of each candidate, and one other person duly authorised in writing by each candidate, but no other person, may attend at such time and place as the Returning Officer may appoint, and the Returning Officer shall give them all reasonable facilities for examining the nomination papers of all candidates which have been delivered within the time and in the manner laid down in rule 4.

(2) (*a*) The Returning Officer shall then examine the nomination papers and shall decide all objections which may be made to any nomination, and may, either on such objection or on his own motion, after such summary inquiry, if any, as he thinks necessary, refuse any nomination on any of the following grounds :—

(*i*) that the candidate is not qualified to be chosen to fill the seat under the Act or under an Act of the Provincial Legislature or under any Order or rule made under the Act ; or

(*ii*) that the candidate is disqualified for being chosen to fill the seat under section 69 or any other provision of the Act or under an Act of the Provincial Legislature or under any Order or rule made under the Act ; or

(*iii*) that a proposer or seconder is disqualified from subscribing a nomination paper under sub-rule (5) of rule 4 ; or

(*iv*) that there has been any failure to comply with any of the provisions of rule 4 or rule 5 ; or

(*v*) that the candidate is not identical with the person whose number or name on the electoral roll is given in the nomination paper as the number or name of such candidate ; or

(*vi*) that any proposer or seconder is not identical with the person whose number or name on the electoral roll is given in the nomination paper as the number or name of such proposer or seconder ; or

(*vii*) that the signature of the candidate or any proposer or seconder is not genuine or has been obtained by fraud.

(*b*) For the purposes of this rule :—

(*i*) the production of any certified copy of an entry made in the electoral roll of any constituency shall be conclusive evidence of the right of any elector named in that entry to stand for election or to subscribe a nomination paper, as the case may be, unless it is proved that the candidate is disqualified under the Act or any Order or rule made thereunder or an Act of the Provincial Legislature or that the proposer or seconder, as the case may be, is disqualified under sub-rule (5) of rule 4 ;

(*ii*) where a person has subscribed whether as proposer or seconder a larger number of nomination papers than there are vacancies to be filled, those of the papers so subscribed which have been first received, up to the number of vacancies to be filled, shall be deemed to be valid.

(*c*) Nothing contained in sub-clause (*iii*), sub-clause (*iv*), sub-clause (*v*), sub-clause (*vi*) or sub-clause (*vii*) of clause (*a*) shall be deemed to authorise the refusal of the nomination of any candidate on the ground of any irregularity in respect of a nomination paper, if the candidate has been duly nominated by means of another nomination paper in respect of which no irregularity has been committed

(*d*) The Returning Officer shall not refuse any nomination paper on the ground of a slight technical defect such as the wrong spelling of a name

(3) (*a*) The Returning Officer shall endorse on each nomination paper his decision accepting or rejecting the same and, if the nomination paper is rejected, shall record in writing a brief statement of his reasons for such rejection.

(*b*) The scrutiny shall be completed on the day fixed in this behalf under clause (*b*) of sub-rule (2) of rule 4 and no adjournment of the proceedings shall be allowed.

(4) On completion of the scrutiny of nominations and after expiry of the period within which candidatures may be withdrawn, under sub-rule (10) of rule 4, the Returning Officer shall forthwith prepare a list of valid nominations and cause it to be affixed in some conspicuous place in his office.

Death of candidate before poll.

7. If a candidate who has been duly nominated under these rules dies after the date fixed for the scrutiny of nominations and before the commencement of the poll, the Returning Officer or other authorised person referred to in sub-rule (4) of rule 4 shall, upon

being satisfied of the fact of the death of the candidate, countermand the poll and report the fact to the Governor, and all proceedings with reference to the election shall be commenced anew in all respects as if for a new election :

Provided that no fresh nomination shall be necessary in the case of a candidate whose nomination had been valid at the time of the countermanding of the poll.

Procedure at election.

8. (1) If the number of candidates who are duly nominated and who have not withdrawn their candidature in the manner and within the time specified in sub-rule (10) of rule 4 exceeds that of the seats to be filled, the Returning Officer shall forthwith publish in the Gazette, and in such other manner as the Governor may direct, and in such places in the constituency as the Returning Officer may consider necessary, a list in form III annexed to these rules containing the names in alphabetical order and addresses of the candidates as given in the nomination papers, and a poll shall be taken.

(2) If the number of such candidates is equal to the number of seats to be filled, the Returning Officer shall declare all such candidates to be duly elected to fill those seats.

(3) If the number of such candidates is less than the number of seats to be filled, the Returning Officer shall declare all such candidates, if any, to be elected to fill the seats, and the Governor exercising his individual judgment shall, by a notification in the Gazette, call upon the constituency to elect a person or persons, as the case may be, within such time as may be fixed by him in his discretion and specified in the notification :

Provided that where the constituency, having already been called upon under this sub-rule, has failed to elect a person or the requisite number of persons, as the case may be, to fill the vacancy or vacancies, the Governor shall not be bound to call again upon the constituency to elect a person or persons until such time, if any, as he thinks fit.

(4) At elections in every territorial constituency where a poll is taken votes shall be given by ballot in the manner provided in these rules and no votes shall be received by proxy.

(5) Votes shall be counted by, or under the supervision of, the Returning Officer, and each candidate, and either his election agent, or one representative of each candidate authorised in writing by the candidate shall have a right to be present at the time of counting.

(6) When the counting of the votes has been completed, the Returning Officer shall forthwith declare the candidate or candidates elected.

(7) The Returning Officer shall without delay report the result of the election to the Secretary to the Bengal Legislative Council or to such officer as the Governor may direct, and the declaration containing the name or names of the candidate or candidates elected shall be published in the Gazette.

Part III. Voting.

Hours of commencement and close of the poll.

9. (1) The Governor shall fix the hour at which the poll shall commence and the hour at which it shall close on the date or dates fixed for the poll under clause (*d*) of sub-rule (2) of rule 4. The hours of polling shall ordinarily be uniform within each constituency but the Governor may in the case of any constituency specify different hours of polling

within different areas. The Governor exercising his individual judgment shall, by notification in the Gazette, publish the hours fixed for polling and the said hours shall be also published in such other manner as the Governor may direct.

(2) The Returning Officer may, either for the constituency as a whole or for a particular polling station of the constituency, for sufficient cause and with the previous consent of the Governor in his discretion, postpone the date fixed for the poll to a date to be fixed by the Governor in his discretion, or for sufficient cause and with the previous consent of the Governor extend the hour fixed under sub-rule (1) at which the poll shall close.

Appointments of presiding officers and polling officers for polling stations.

10. (1) The Returning Officer shall select for each constituency as many polling stations as he thinks necessary and shall publish, in such manner as the Governor may direct, a list showing the polling stations so selected, and the polling areas for which they have respectively been selected.

(2) The Returning Officer shall appoint a presiding officer for each polling station and such other person or persons (hereinafter referred to as polling officer or officers) to assist the presiding officer as he thinks necessary :

Provided that if a polling officer is absent from the polling station the presiding officer may appoint any person who is present at the polling station to be the polling officer during the absence of the former officer and inform the Returning Officer accordingly.

(3) A polling officer may, if so directed by the presiding officer, perform all or any of the duties assigned to a presiding officer under these rules.

(4) If the presiding officer, owing to illness or other unavoidable cause, is obliged to absent himself from the polling station, his duties shall be performed by such polling officer as has been previously authorised by the Returning Officer to perform such duties during any such absence.

Duties of presiding officers at polling stations.

11. (1) The presiding officer shall keep order at the polling station, shall see that the election is fairly conducted, shall regulate the number of electors to be admitted at one time, and shall exclude all other persons except—

(*a*) the polling officer or officers, the candidates, and one agent of each candidate (hereinafter referred to as the polling agent) appointed in writing by the candidate, and authorised in this behalf by the Returning Officer,

(*b*) the police officer or officers or other public servants on duty, and

(*c*) such other persons as the presiding officer may from time to time admit for the purpose of identifying electors.

(2) There shall be at least two police constables or chaukidars on duty either inside or outside the polling station, as the presiding officer shall direct, who shall under the orders of the presiding officer assist in expediting and regulating the passage of electors inside the polling station or maintain order either inside or outside the polling station :

Provided that no police officer or chaukidar shall be allowed to stay inside the polling station or part of a polling station which is set apart exclusively for the recording of the votes of women electors :

Provided further that if the presiding officer so directs there shall not be more than one police constable or chaukidar on duty under this

sub-rule at any polling station, where the votes in respect of the European constituency are recorded.

(3) The presiding officer shall close the polling station at the hour fixed for the close of the poll under sub-rule (1) or sub-rule (2) of rule 9, as the case may be, so as to prevent the admission thereto of any elector after that hour, provided that all electors present at the polling station before it is so closed shall be entitled to have their votes recorded.

(4) In emergencies such as a disturbance of the public peace or the intervention of floods the presiding officer for any polling station may, with the previous approval of the Returning Officer, close the poll at such station and announce an adjournment of the poll to a date to be notified later. The Returning Officer shall immediately report the circumstances to the Governor and the Governor shall in his discretion, as soon as may be, appoint a date on which the poll shall recommence at such polling station. The hour at which the poll shall commence and the hour at which the poll shall close on such date shall be fixed by the Governor. The date so appointed and the hours so fixed shall be notified in such manner as the Governor may direct.

Removal from the polling station for misconduct.

12. If any person misconducts himself at the polling station or fails to obey the lawful orders of the presiding officer or the polling officer performing the duties of the presiding officer, he may immediately, by order of the presiding officer, or such polling officer, be removed from the polling station by any police officer or by any other person authorised in writing by the presiding officer or such polling officer to remove him; and the person so removed shall not, unless with the permission of the presiding officer or such polling officer, be allowed again to enter the polling station during the day :

Provided that this power shall not be exercised so as to prevent any elector who is otherwise entitled to vote at any polling station from having an opportunity of voting at such station.

Arrangements for secrecy of voting and recording of votes of *purdanashin* electors.

13. Each polling station shall be furnished with such number of compartments, in which electors can record their votes screened from observation, as the Returning Officer thinks necessary.

As far as possible, separate compartments and separate entrances and exits shall be provided for women electors. Suitable arrangements shall be made for recording the votes of *purdanashin* female electors, as far as is practicable.

In constituencies other than the European constituency the Returning Officer may, however, at his discretion, if a sufficient number of women suitable and willing to act as presiding and polling officers are available, provide a separate polling station for taking the votes of the women electors for any polling area, and at such polling stations the work of the presiding and polling officers shall be done by women and if necessary also by such male persons as the Returning Officer thinks fit. If it is not possible to provide such a separate polling station one woman attendant may be provided as far as practicable to help women electors in recording their votes.

For the purpose of identification the husband or other near relative of a woman elector may accompany her to the polling station. Such person shall not, however, be permitted to go inside the polling compartment.

Articles to be provided at the polling station.

14. (*d*) a further date on which a poll shall, if necessary, be taken and votes shall be counted ;

and the dates so fixed shall be published by notification in the Gazette by the Governor exercising his individual judgment.

(3) On or before the date fixed under clause (*a*) of sub-rule (*2*), each candidate shall, either in person or by his proposer or seconder, or by a person authorised in writing by him, between the hours of eleven o'clock in the forenoon and three o'clock in the afternoon, deliver to the Returning Officer, or to such other person as may be appointed in this behalf under sub-rule (*2*) of rule 57, a nomination paper completed in the form specified in Schedule I and subscribed by the candidate himself as assenting to the nomination and by two persons referred to in sub-rule (*4*) as proposer and seconder.

(4) Any person who is at the time a member of the Bengal Legislative Assembly shall be qualified to subscribe, as proposer or seconder, as many nomination papers as there are vacancies to be filled, but no more.

(5) Every nomination paper delivered under sub-rule (*3*) shall be accompanied by a declaration in writing subscribed by the candidate that the candidate has appointed or does thereby appoint as his election agent for the election either himself or some one other person who is not disqualified under the Act or any Order or rule made thereunder or an Act of the Provincial Legislature for the appointment and who shall be named in the declaration ; and no candidate shall be deemed to be duly nominated unless such declaration is delivered along with the nomination paper.

(6) Any nomination paper which is not received before three o'clock in the afternoon on the date fixed under clause (*a*) of sub-rule (*2*) shall be rejected.

(7) On the presentation of a nomination paper, the Returning Officer may require the person presenting the same to produce a copy of the electoral roll in which the name of the candidate is included or of the necessary entry in such roll, or a copy of the Gazette containing the names of persons elected to the Bengal Legislative Assembly, in which the names of the candidate, his proposer and seconder are included or of the necessary entries in such roll or Gazette and shall satisfy himself that the names and numbers on the electoral roll or that the names in the Gazette, of the candidate, and his proposer and seconder

as entered in the nomination paper are the same as those entered in the electoral roll or in the Gazette. Where necessary he shall direct that the former be amended so as to be in accordance with the latter.

It shall be also competent for the Returning Officer to alter or amend any entry in the nomination paper presented to him with a view to ensuring accurate and adequate publication under sub-rule (*8*) of names of candidates and of persons who have subscribed the nomination paper as proposer and seconder.

(8) The Returning Officer or other person authorised shall, on receiving a nomination paper under sub-rule (*3*), inform the person or persons delivering the same of the date, time and place fixed for the scrutiny of nominations, and shall enter in the nomination paper its serial number and shall sign thereon a certificate stating the date on which and the hour at which the nomination paper has been delivered to him and the person by whom it was so delivered, and shall, as soon as may be thereafter, cause to be affixed in some conspicuous place in his office a notice of the nomination containing descriptions, similar to those contained in the nomination paper, both of the candidate and of the persons who have subscribed the nomination paper as proposer and seconder.

(9) Any candidate may withdraw his candidature by notice in form 11 annexed to these rules subscribed by him and assented to by the proposer and seconder and delivered to the Returning Officer or other person authorised either by such candidate in person or by his proposer or seconder or by a person authorised in writing by the candidate before three o'clock in the afternoon on the date fixed under clause (*c*) of sub-rule (*2*), and a candidate who has withdrawn his candidature shall not be allowed to cancel the withdrawal or to be re-nominated as a candidate for the same election :

Provided that if the last day for the delivery of notice of withdrawal of candidature under this sub-rule is a public holiday within the meaning of section 25 of the Negotiable Instruments Act, 1881, or has been notified by the Governor as a day to be observed as a holiday in Government offices, the notice of withdrawal of candidature shall be construed as having been delivered in due time if it is delivered on the next succeeding day which is neither such a public holiday nor a day so notified. XXVI of 1881.

(10) The Returning Officer or other person authorised shall, on receiving a notice of withdrawal under sub-rule (*9*), as soon as may be, cause a notice of the withdrawal to be affixed in some conspicuous place in his office.

60. (1) At the time of delivery of a nomination paper under sub-rule (*3*) of rule 59, each candidate shall enclose with the nomination paper a Government treasury receipt (chalan) showing that a deposit of five hundred rupees has been made by him in the treasury ; and no candidate shall be deemed to be duly nominated unless such deposit has been made and treasury receipt has been enclosed with the nomination paper. Deposit on nomination.

(2) If a candidate by whom or on whose behalf the deposit referred to in sub-rule (*1*) has been made withdraws his candidature in the manner and within the time specified in sub-rule (*9*) of rule 59, or if the nomination of any such candidate is refused, the deposit shall be returned

to the person by whom it was made; and, if any candidate dies before the commencement of the poll, any such deposit, if made by him, shall be returned to his legal representative or, if not made by the candidate, shall be returned to the person by whom it was made.

(3) If a candidate by whom or on whose behalf the deposit referred to in sub-rule (*1*) has been made is not elected and the number of votes polled by him does not exceed one-eighth of the total number of votes polled at an election in which only one seat is to be filled, or one-twentieth of the total number of votes polled at an election in which more seats than one are to be filled, the deposit shall be forfeited to the Government:

Provided that, at the general election held for the purpose of constituting the Bengal Legislative Council under the Act, such deposit shall only be forfeited if the number of votes polled by the candidate does not exceed one-sixtieth of the total number of votes polled.

(4) For the purposes of sub-rule (*3*), the total number of votes polled shall be deemed to be the number of ballot papers, other than rejected ballot papers, counted, and the number of votes polled by a candidate shall be deemed to be the number of valid votes polled by him as first preferences.

(5) The deposit made by or on behalf of a candidate, whether such candidate is elected or not, shall, if it is not forfeited under sub-rule (*3*), be returned to such candidate or to the person who has made the deposit on his behalf, as the case may be, after the publication of the result of the election in the Gazette:

Provided that if a candidate is duly nominated at an election in a territorial constituency of the Bengal Legislative Council and also at an election by the members of the Bengal Legislative Assembly to fill seats in the Bengal Legislative Council, not more than one of the deposits made by him or on his behalf shall be returned and the remainder shall be forfeited to the Government.

Scrutiny of nominations.

61. (1) On the date fixed for the scrutiny of nominations under sub-rule (*2*) of rule 59, the candidates, their election agents, one proposer and one seconder of each candidate, and one other person duly authorised in writing by each candidate, but no other person, may attend at such time and place as the Returning Officer may appoint, and the Returning Officer shall give them all reasonable facilities for examining the nomination papers of all candidates which have been delivered within the time and in the manner laid down in rule 59.

(2) (*a*) The Returning Officer shall then examine the nomination papers and shall decide all objections which may be made to any nomination, and may, either on such objection or on his own motion, after such summary inquiry if any, as he thinks necessary, refuse any nomination on any of the following grounds:—

(*i*) that the candidate is not qualified to be chosen to fill the seat under the Act or under an Act of the Provincial Legislature or under any Order or rule made under the Act; or

(*ii*) that the candidate is disqualified for being chosen to fill the seat under section 69 or any other provision of the Act or under an Act of the Provincial Legislature or under any Order or rule made under the Act; or

(*iii*) that a proposer or seconder is disqualified from subscribing a nomination paper under sub-rule (*4*) of rule 59 ; or

(*iv*) that there has been any failure to comply with any of the provisions of rule 59 or rule 60 ; or

(*v*) that the candidate is not identical with the person whose number or name on the electoral roll is given in the nomination paper as the number or name of such candidate ; or

(*vi*) that the candidate or any proposer or seconder is not identical with the person who has been elected to the Bengal Legislative Assembly and whose name as such is given in the nomination paper as such candidate, proposer or seconder ; or

(*vii*) that the signature of the candidate or any proposer or seconder is not genuine or has been obtained by fraud.

(*b*) For the purposes of this rule :—

(*i*) the production of any certified copy of an entry made in the electoral roll of any territorial constituency or the production of a copy of the Gazette in which the name of a person was published as elected to the Bengal Legislative Assembly shall be conclusive evidence of the right of any elector or person named in that entry or Gazette to stand for election or to subscribe a nomination paper, as the case may be, unless it is proved that the candidate is disqualified under the Act or any Order or rule made thereunder or an Act of the Provincial Legislature, or that the proposer or seconder is disqualified under sub-rule (*4*) of rule 59 ; and

(*ii*) where a person has subscribed whether as proposer or seconder a larger number of nomination papers than there are vacancies to be filled, those of the papers so subscribed which have been first received, up to the number of vacancies to be filled, shall be deemed to be valid.

(*c*) Nothing contained in sub-clause (*iii*), sub clause (*iv*), sub-clause (*v*), sub-clause (*vi*) or sub-clause (*vii*) of clause (*a*) shall be deemed to authorise the refusal of the nomination of any candidate on the ground of any irregularity in respect of a nomination paper, if the candidate has been duly nominated by means of another nomination paper in respect of which no irregularity has been committed.

(*d*) The Returning Officer shall not refuse any nomination paper on the ground of a slight technical defect such as the wrong spelling of a name.

(3) (*a*) The Returning Officer shall endorse on each nomination paper his decision accepting or rejecting the same and, if the nomination paper is rejected, shall record in writing a brief statement of his reasons for such rejection.

(*b*) The scrutiny shall be completed on the day fixed in this behalf under clause (*b*) of sub-rule (*2*) of rule 59 and no adjournment of the proceedings shall be allowed.

(4) On completion of the scrutiny of nominations and after expiry of the period within which candidatures may be withdrawn, under sub-rule (*9*) of rule 59, the Returning Officer shall forthwith prepare a list of valid nominations and cause it to be affixed in some conspicuous place in his office.

Death of candidate before poll.

62. If a candidate who has been duly nominated under these rules dies after the date fixed for the scrutiny of nominations and before the commencement of the poll, the Returning Officer or other authorised person referred to in sub-rule (*3*) of rule 57 shall, upon being satisfied of the fact of the death of the candidate, countermand the poll and report the fact to the Governor, and all proceedings with reference to the election shall be commenced anew in all respects as if for a new election :

Provided that no fresh nomination shall be necessary in the case of a candidate whose nomination had been valid at the time of the countermanding of the poll.

Procedure at election.

63. (1) If the number of candidates who are duly nominated and who have not withdrawn their candidature in the manner and within the time specified in sub-rule (*9*) of rule 59 exceeds that of the seats to be filled, the Returning Officer shall forthwith publish in the Gazette, and in such other manner, as the Governor may direct, and in such places as the Returning Officer may consider necessary, a list in form III annexed to these rules containing the names in alphabetical order and addresses of the candidates as given in the nomination papers, and a poll shall be taken.

(2) If the number of such candidates is equal to the number of seats to be filled the Returning Officer shall declare all such candidates to be duly elected to fill those seats.

(3) If the number of such candidates is less than the number of seats to be filled, the Returning Officer shall declare all such candidates, if any, to be elected to fill the seats, and the Governor exercising his individual judgment shall, by a notification in the Gazette, call upon the members of the Bengal Legislative Assembly to elect a person or persons as the case may be, within such time as may be fixed by him in his discretion and specified in the notification :

Provided that where the members of the Bengal Legislative Assembly having already been called upon under this sub-rule, have failed to elect a person or the requisite number of persons, as the case may be, to fill the vacancy or vacancies, the Governor shall not be bound to call again upon such members to elect a person or persons until such time, if any, as he thinks fit.

(4) At an election by the members of the Bengal Legislative Assembly to fill seats in the Bengal Legislative Council where a poll is taken votes shall be given by ballot in the manner provided in this Part and no votes shall be received by proxy :

Provided that at an election by the members of the Bengal Legislative Assembly to fill a casual vacancy in a seat in the Bengal Legislative Council or at an election held in pursuance of a notification issued

under sub-rule (3) to fill only one seat in the Bengal Legislative Council, the provisions of rules 73, 74 and 75 shall not be applicable and the provisions of rule 18 shall be substituted therefor and shall *mutatis mutandis* apply to every such election, and the ballot paper at any such election shall be in form IV annexed to these rules instead of being in form XIV annexed to these rules, and that the provisions of rules 78 and 79 shall not be applicable and the provisions of rules 31, 32 and 33 shall be substituted therefor and shall *mutatis mutandis* apply to every such election.

(*5*) A casual vacancy in a seat held by a member who was elected under this Part by the members of the Bengal Legislative Assembly shall be filled under this Part by a person of the same community as the member by whom the seat was held.

Fixing of the time and place for the poll.

64. The Governor shall fix the time and place at which the poll shall be taken on the date fixed for the poll under clause (*d*) of sub-rule (2) of rule 59 and the time and place so fixed shall be published either by notification in the Gazette by the Governor exercising his individual judgment or in such other manner as the Governor may direct.

Notice inviting members of the Assembly to meet at the time and place fixed for the poll, and appointment of Polling Officers to assist the Returning Officer.

65. (1) As soon as may be after the expiry of the period within which candidatures may be withdrawn under sub-rule (*9*) of rule 59, the Returning Officer shall by notice in writing invite each member of the Bengal Legislative Assembly to meet, at the place and at the time fixed for the poll under rule 64 for the purpose of the election under this Part.

(2) Notice under sub-rule (1) shall, if possible, be served personally and in default of personal service shall be served by registered post, provided that in the case of necessity the notice may be served by telegram.

(3) A member of the Bengal Legislative Assembly who attends a place fixed for the poll in pursuance of a notice issued under sub-rule (1) for the purpose of election under this Part may draw travelling and halting allowances at such rates and subject to such conditions as are applicable to members when summoned to attend meeting of the Legislature.

(4) The Returning Officer shall preside over the election and also shall appoint such other persons (hereinafter referred to as Polling Officers) to assist him as he thinks necessary.

Articles to be provided at the place fixed for the poll.

66. The Returning Officer shall provide at the place fixed for the poll materials sufficient for the purpose of enabling electors to mark the ballot papers, and as many ballot boxes as may be necessary. He shall also provide a sufficient number of copies of the list of members of the Bengal Legislative Assembly entitled to vote for the use of the members.

Ballot boxes to be locked up and sealed before commencement of poll.

67. Every ballot box shall be so constructed that the ballot papers can be introduced therein, but cannot be withdrawn therefrom, without the box being unlocked. The Returning Officer, immediately before the commencement of the poll, shall show each ballot box to be used

at the poll to such persons as may be present at the place fixed for the poll so that they may see that it is empty, and he shall then lock it up, and place his seal upon it in such manner as to prevent its being opened without breaking such seal and shall keep it so locked and sealed.

Persons who may be present at the place fixed for the poll.

68. The Returning Officer shall exclude from the place fixed for the poll all other persons except the polling officers, the candidates, and the members of the Bengal Legislative Assembly:

Provided that if a candidate is unable to be present at the time fixed for the poll, the Returning Officer may admit either his election agent or one representative of such candidate authorised in writing by such candidate.

Delivery of ballot papers to the members of the Assembly for the recording of votes.

69. At the time fixed for the poll under rule 64 the Returning Officer with the help of the polling officers shall deliver to each member of the Bengal Legislative Assembly present (hereinafter referred to as "elector") a ballot paper which shall contain the names of the candidates arranged alphabetically and shall be in the form set out in form XIV annexed to these rules.

Procedure before delivery of ballot papers to electors.

70. Immediately before a ballot paper is delivered to an elector, a mark shall be placed in the list of members against the name of the elector to denote that he has received a ballot paper. No other mark or writing shall be put against the name in such list.

Supply of duplicate ballot paper when ballot paper is spoilt through inadvertence.

71. An elector who has inadvertently dealt with his ballot paper in such a manner that it cannot conveniently be used as a ballot paper may, on delivering it to the Returning Officer and satisfying him of the inadvertence, obtain another ballot paper in place of the spoilt ballot paper, and the latter shall, together with its counterfoil, be marked as cancelled by the Returning Officer.

Procedure before the recording of votes.

72. (1) After the Returning Officer has satisfied himself that ballot papers have been delivered to all the electors present and after the expiry of such further time as the Returning Officer may, as a measure of grace, allow for delivery of such papers to any late comers, the Returning Officer shall call on the electors present to proceed to record their votes into the places provided therefor.

(2) No ballot paper shall be delivered to any elector after the time allowed by the Returning Officer under sub-rule (1).

(3) The Returning Officer may at any time explain to the electors when so requested by them, the instructions contained on the back of the ballot papers for the recording of votes.

Manner of recording votes.

73. Every elector shall then proceed under the direction of the Returning Officer to a place screened from observation and shall record his vote in accordance with the instructions set out on the back of the ballot paper. He shall then, before quitting such place, fold up his ballot paper so as to conceal his vote, and shall proceed to the ballot box provided and put the ballot paper so folded up into the ballot box. Each elector shall quit the place at which the ballot box is situated as soon as he has put his ballot paper into the ballot box.

Votes and preferences to be exercised by the electors.

74. (1) Every elector shall have as many preferences as there are candidates to be elected, but no ballot paper shall be considered invalid solely on the ground that all such preferences are not marked.

(2) An elector in giving his vote—

(*a*) shall place on his ballot paper the figure 1 in the space opposite the name of the candidate whom he chooses for his first preference ; and

(*b*) may, in addition, place on his ballot paper the figure 2 or the figures 2 and 3, or 2, 3 and 4, and so on, in the spaces opposite the names of other candidates in the order of his preference.

Grounds for declaring ballot papers invalid.

75. A ballot paper shall be invalid on which—

(*a*) the figure 1 is not marked ; or

(*b*) the figure 1 is set opposite the name of more than one candidate ; or is so placed as to render it doubtful to which candidate it is intended to apply ; or

(*c*) the figure 1 and some other figure are set opposite the name of the same candidate ; or

(*d*) any mark is made by which the elector may afterwards be identified.

Counting of votes by the Returning Officer.

76. After the Returning Officer is satisfied that each elector present has had sufficient time to record his vote and to place the ballot paper in the allotted box he shall declare the polling closed after which no ballot paper shall be placed in any ballot box, and shall immediately proceed to count the votes.

If from any unavoidable cause the Returning Officer is unable to proceed immediately with the counting of votes, he shall with the previous consent of the Governor in his discretion postpone the counting to some other time and date appointed by the Governor in his discretion and shall give notice thereof in such manner as he thinks fit to the candidates and election agents.

Persons who may be present at the counting of votes.

77. (1) No person, except the Returning Officer, such persons as he may appoint to assist him in counting the votes, the candidates and either the election agent of each candidate, or one representative of each candidate authorised in writing by the candidate, shall be allowed to be present at the counting of votes.

(2) No person shall be appointed to assist in counting the votes, who has been employed by or on behalf of any candidate for any purpose whatsoever connected with the election.

Procedure to be followed at the counting of votes and in declaring candidates elected.

XXXIX of 1920.

78. (1) Before he begins to count the votes the Returning Officer shall first read out the provisions of section 14 of the Indian Election Offences and Inquiries Act, 1920, to such persons as may be present and shall then open the ballot boxes, and, after scrutiny, separate the ballot papers which he deems valid from those which he rejects, endorsing on the latter the word "rejected" and the ground of rejection, and after rejecting any that are invalid, shall arrange the remainder in parcels according to the first preferences recorded for each candidate.

(2) The Returning Officer shall then count the number of papers in each parcel, and credit each candidate with one vote in respect of each valid paper on which a first preference has been recorded for him, and he shall ascertain the total number of valid papers.

(3) The Returning Officer shall then divide the total number of valid papers by a number exceeding by one the number of vacancies to be filled, and the result increased by one, disregarding any fractional remainder, shall be the number of votes sufficient to secure the return of a candidate (hereinafter called the "quota").

(4) If at any time the number of votes credited to a candidate is equal to or greater than the quota, that candidate shall be declared elected.

(5) (*a*) If at any time the number of votes credited to a candidate is greater than the quota, the surplus shall be transferred in accordance with the provisions of this sub-rule to the continuing candidates indicated on the ballot papers in the parcel of the elected candidate, as being next in order of the voters' preference.

(*b*) (*i*) If the votes credited to an elected candidate consist of original votes only, the Returning Officer shall examine all the papers in the parcel of the elected candidate whose surplus is to be transferred, and shall arrange the transferable papers in sub-parcels according to the next preferences recorded thereon.

(*ii*) If the votes credited to an elected candidate consist of original and transferred votes, or of transferred votes only, the Returning Officer shall examine the papers contained in the sub-parcel last received by the elected candidate and shall arrange the transferable papers therein in further sub-parcels according to the next preferences recorded thereon.

(*iii*) In either case the Returning Officer shall make a separate sub-parcel of the non-transferable papers and shall ascertain the number of papers in each sub-parcel of transferable papers and in the sub-parcel of non-transferable papers.

(*c*) If the total number of papers in the sub-parcels of transferable papers is equal to or less than the surplus, the Returning Officer shall transfer each sub-parcel of transferable papers to the continuing candidate indicated thereon as the voters' next preference.

(*d*) (*i*) If the total number of transferable papers is greater than the surplus, the Returning Officer shall transfer from each sub-parcel the number of papers which bears the same proportion to the number of papers in the sub-parcel as the surplus bears to the total number of transferable papers.

(*ii*) The number of papers to be transferred from each sub-parcel shall be ascertained by multiplying the number of papers in the sub-parcel by the surplus and dividing the result by the total number of transferable papers. A note shall be made of the fractional parts, if any, of each number so ascertained.

(*iii*) If, owing to the existence of such fractional parts, the number of papers to be transferred is less than the surplus, so many of these fractional parts taken in the order of their magnitude, beginning with the largest, as are necessary to make the total number of papers to be transferred equal to the surplus, shall be reckoned as of the value of unity, and the remaining fractional parts shall be ignored.

If two or more fractional parts are of equal magnitude that fractional part shall be deemed to be the larger which arises from the larger sub-parcel, and if the sub-parcels in question are equal in size, preference shall be given to the candidate who obtained the larger number of original votes.

If the original votes are equal, the Returning Officer shall decide by lot in whose favour the vote shall be given, in such manner as he thinks fit.

(*iv*) The particular papers to be transferred from each sub-parcel shall be those last filed in the sub-parcel.

(*v*) Each paper transferred shall be marked in such a manner as to indicate the candidate from and to whom the transfer is made.

(*e*) (*i*) If more than one candidate has a surplus, the largest surplus shall be first dealt with.

(*ii*) If two or more candidates have each the same surplus, regard shall be had to the number of original votes obtained by each candidate, and the surplus of the candidate credited with the largest number of original votes shall be first dealt with, and, if the numbers of the original votes are equal, the Returning Officer shall decide which surplus he will first deal with.

(*iii*) The Returning Officer need not transfer the surplus of an elected candidate when that surplus, together with any other surplus not transferred, does not exceed the difference between the totals of the votes credited to the two continuing candidates lowest on the poll.

(6) (*a*) If at any time no candidate has a surplus (or when under the preceding sub-rule any existing surplus need not be transferred) and one or more vacancies remain unfilled, the Returning Officer shall exclude from the poll the candidate credited with the lowest number of votes, and shall examine all the papers of that candidate, and shall arrange the transferable papers in sub-parcels according to the next preferences recorded thereon for continuing candidates, and shall transfer each sub-parcel to the candidate for whom that preference is recorded.

(*b*) If the total of the votes of the two or more candidates lowest on the poll, together with any surplus votes not transferred, is less than the votes credited to the next highest candidate, the Returning Officer may in one operation exclude those candidates from the poll and transfer their votes in accordance with the preceding sub-rule.

(*c*) If, when a candidate has to be excluded under this sub-rule, two or more candidates have each the same number of votes and are lowest on the poll, regard shall be had to the number of original votes credited to each of those candidates, and the candidates with the fewest original votes shall be excluded, and, where the numbers of the original votes are equal, regard shall be had to the total number of votes credited to those candidates at the first transfer at which they had an unequal number of votes, and the candidate with the lowest number of votes at that transfer shall be excluded, and, where the numbers of votes credited to those candidates were equal at all transfers, the Returning Officer shall decide which shall be excluded.

(7) (*a*) Whenever any transfer is made under any of the preceding sub-rules, each sub-parcel of papers transferred shall be added to the parcel, if any, of papers of the candidate to whom the transfer is made,

and that candidate shall be credited with one vote in respect of each paper transferred. Such papers as are not transferred shall be set aside as finally dealt with, and the votes given thereon shall thenceforth not be taken into account.

(*b*) If after any transfer a candidate has a surplus, that surplus shall be dealt with in accordance with and subject to the provisions contained in sub-rule (6) before any other candidate is excluded.

(8) (*a*) When the number of continuing candidates is reduced to the number of vacancies remaining unfilled, the continuing candidates shall be declared elected.

(*b*) When only one vacancy remains unfilled, and the votes of some one continuing candidate exceed the total of all the votes of the other continuing candidates, together with any surplus not transferred, that candidate shall be declared elected.

(*c*) When the last vacancies can be filled under this sub-rule, no further transfer of votes need be made.

Recount of votes when to be made.

79. Any candidate, or in his absence his election agent or duly authorized representative, may, at any time during the counting of the votes, either before the commencement or after the completion of any transfer of votes (whether surplus or otherwise), request the Returning Officer to re-examine and recount the papers of all or any candidates (not being papers set aside at any previous transfer as finally dealt with), and the Returning Officer shall forthwith re-examine and recount the same accordingly. The Returning Officer may also at his discretion recount votes either once or more often in any case in which he is not satisfied as to the accuracy of any previous count:

Provided that nothing herein shall make it obligatory on the Returning Officer to recount the same votes more than once.

Return by the Returning Officer.

80. Upon the completion of the counting the Returning Officer shall prepare and certify a return in form X annexed to these rules setting forth—

(*i*) the names of the candidates for whom valid votes have been given;

(*ii*) the number of valid votes given to each candidate;

(*iii*) the number of votes declared invalid and rejected;

(*iv*) the names of the persons declared elected;

and shall permit any candidate or his election agent or duly authorized representative to take a copy of, or an extract from, the return.

The Returning Officer shall also seal up in separate packets the counted and rejected ballot papers and record on each such packet a description of its contents and the date of the election by the members of the Bengal Legislative Assembly to which it refers.

Reporting of the result of the election and publication of the names of elected candidates.

81. The Returning Officer shall without delay report the result of the election to the Secretary to the Bengal Legislative Council or to such officer as the Governor may direct, and the declaration containing the name or names of the candidate or candidates elected shall be published in the Gazette.

Custody, etc., of the return and the papers relating to the election.

82. (1) The Returning Officer shall, after reporting the result of the election under rule 81, forward the return to the Secretary to the Government of Bengal in the Reforms Department and forward all other papers relating to the election to the Commissioner of the Presidency Division for custody.

(2) The papers relating to election mentioned in sub-rule (1) except the packets of ballot papers and their counterfoils shall be retained for a period of three years unless their retention for a longer period is otherwise ordered by a competent authority. The public shall have a right to inspect such papers and to get attested copies thereof on payment of the fees laid down in the Bengal Records Manual, 1917.

(3) The provisions of rules 37 and 38 shall apply to packets of ballot papers and of the counterfoils thereof and to copies of returns forwarded by the Returning Officer under sub-rule (1).

Part VII.—Vacation of seats and notification of casual vacancies.

Seats in the Council when to become vacant in case of election of the same person to more than one seat.

83. If a person is elected to more than one seat in the Bengal Legislative Council, then unless within seven days from the date of the publication in the Gazette of the declarations containing the names of that person as having been so elected, or, where such publication has been made on different dates, unless within seven days from the latest of such dates, such person resigns all but one of the seats, all the said seats shall become vacant.

Casual vacancies.

84. When before the expiration of the term of office of a member elected under these rules his seat becomes vacant or is declared vacant, or the election of a member is declared void, the Governor exercising his individual judgment shall, by notification in the Gazette, call upon the constituency concerned or the members of the Bengal Legislative Assembly, as the case may be, to elect a person, for the purpose of filling the vacancy so caused, within such time as may be fixed in this behalf by the Governor in his discretion and specified in the notification and these rules shall apply, as far as may be, to the procedure for the election of a member to fill such vacancy:

Provided that every notification issued under this rule calling upon the members of the Bengal Legislative Assembly to elect a person for the purpose of filling a casual vacancy in a seat held by a person who was elected by such members shall specify that the person to be elected in pursuance of the said notification shall be of the same community as the person by whom the seat was held.

Part VIII.—General Provisions.

Notification for the election of persons to fill seats in the Council.

85. (1) For the purpose of constituting the Legislative Council of the Province under the Act in due time the Governor exercising his individual judgment shall, at such time as he may think fit, by a notification in the Gazette, call upon every territorial constituency to elect in accordance with these rules a member or members within

such time as may be fixed in this behalf by the Governor in his discretion and specified in that notification, and by another notification in the Gazette, after the names of the members of the Bengal Legislative Assembly elected have been notified in the Gazette, call upon such members to elect in accordance with these rules members within such time as may be fixed in this behalf by the Governor in his discretion and specified in such notification.

(2) For the purpose of filling the seats of members retiring on the expiration of their respective terms of office in every third year after the constitution of the Legislative Council of the Province, the Governor exercising his individual judgement shall, by a notification in the Gazette, call upon each of the territorial constituencies concerned to elect in accordance with these rules a member or members within such time as may be fixed in this behalf by the Governor in his discretion and specified in that notification, and by another notification in the Gazette call upon the members of the Bengal Legislative Assembly to elect in accordance with these rules members within such time as may be fixed in this behalf by the Governor in his discretion and specified in such notification :

21. An election petition shall abate on the death of a sole petitioner or of the survivor of several petitioners.

Grounds for declaring election void.

22. (1) Subject to the provisions of this rule, if in the opinion of the District Magistrate or the Commissioner, as the case may be,—

(*a*) the primary election of an elected candidate has been procured or induced, or the result of the primary election has been materially affected, by any corrupt practice, or

(*b*) the result of the primary election has been materially affected by the improper acceptance or rejection of any nomination, or by reason of the fact that any person nominated was not qualified or was disqualified for election, or by the improper reception or refusal of a vote, or by the reception of any vote which is void, or by any non-compliance with the provisions of the Act or any of these rules or of any Order or other rule made under the Act or of an Act of the Provincial Legislature relating to the election, or by any mistake in the use of any prescribed form; or

(*c*) any corrupt practice specified in Part I of the First Schedule to the Order has been committed in the interests of an elected candidate; or

(*d*) the election has not been a free election by reason of the large number of cases in which undue influence or bribery within the meaning of Part I or Part II of the First Schedule to the Order has been exercised or committed,

the primary election of the elected candidate shall be void.

(2) If the District Magistrate or the Commissioner, as the case may be, finds that an elected candidate has been guilty by an agent, other than his election agent, of any corrupt practice specified in Part I of the First Schedule to the Order, but further finds that the candidate has satisfied him that—

(*a*) no corrupt practice was committed at the primary election by the candidate or his election agent, and the corrupt practices found to have been committed were committed contrary to the orders, and without the sanction or connivance, of the candidate or his election agent;

(*b*) the candidate and his election agent took all reasonable means for preventing the commission of corrupt practices at the primary election;

(*c*) the corrupt practices found to have been committed were of a trivial and limited character or took the form of customary hospitality which did not affect the result of the primary election; and

(*d*) in all other respects the primary election was free from any corrupt practice on the part of the candidate or any of his agents,

then the District Magistrate or the Commissioner, as the case may be, may hold that the primary election of the elected candidate is not void.

(3) If a person (not being entitled so to do) votes more than once at the same primary election, all his votes shall be deemed for the purposes of this rule to be void.

Judgment of the inquiry.

23. (1) At the conclusion of the inquiry the District Magistrate or the Commissioner, as the case may be, shall deliver judgment in writing within the time mentioned in rule 18 and such decision of the District Magistrate or the Commissioner shall be final.

(2) In the judgment delivered under sub-rule (1) the District Magistrate or the Commissioner shall record a finding as to whether all the elected candidates have been duly elected and in the case where the petitioner has claimed a declaration that he himself has been duly elected, whether the petitioner has been so elected. He shall, further record a finding of the total amount of costs which are payable and the judgment shall state the persons by and to whom such cost should be paid.

(3) The District Magistrate or the Commissioner, as the case may be, on delivery of judgment under sub-rule (1) shall forthwith forward one copy of the judgment to the Governor and another copy to the Returning Officer.

(4) The Returning Officer on receipt of the copy of the judgment shall amend the list prepared by him under sub-rule (5) of rule 13 of the Bengal Legislative Assembly Electoral (Conduct of Elections) Rules, 1936, if necessary, and cause the amended list to be affixed again in the manner provided in the said sub-rule:

Provided that in the case where the District Magistrate or the Commissioner records a finding that the election of all the elected candidates is void and no other party to the petition is entitled to be declared elected then the Returning Officer shall bring the fact to the notice of the Governor to enable the Governor exercising his individual judgment to take necessary action for the holding of a fresh primary election under the said rules.

Finding as to corrupt practices and persons guilty thereof.

24. Where any charge is made in an election petition of any corrupt practice, the District Magistrate or the Commissioner, as the case may be, shall record in his judgment—

(*a*) a finding whether a corrupt practice has or has not been proved to have been committed by any candidate or his agent or with the connivance of any candidate or his agent, and the nature of such corrupt practice; and

(*b*) the names of all persons (if any) who have been proved at the inquiry to have been guilty of any corrupt practice and the nature of that practice with any such recommendation as the District Magistrate or the Commissioner may think proper to make for the exemption of any such persons from any disqualifications for voting which they may have incurred in this connection under Part IV of the Order:

Provided that no person shall be so named in the judgment without giving such person a hearing as to why his name should not be so recorded.

CALCUTTA, THE 1st SEPTEMBER 1936.

RESOLUTION—No. 6846M.

Minister-in-charge: The Hon'ble Sir Bijoy Prasad Singh Roy, Kt.

The situation created by the mal-administration of the Vishnupur Municipality (in the district of Bankura), particularly in respect of the Assessment and Collection Departments has been under the consideration of Government for some time past. Their attention was first drawn to the matter in May 1935 by the local officers who recommended that these two departments of the municipality be superseded under section 550 of the Bengal Municipal Act, 1932, for a period of two years. The case for supersession of the Collection Department was based mainly on the ground that collections were extremely unsatisfactory and that the measures provided by law for the realisation of taxes had been neglected. It was reported that the outstanding arrears of taxes at the end of the year 1934-35 amounted to Rs. 13,416 against a current demand of Rs. 12,920 with nearly half the holdings out of assessment and that in spite of the large arrears the distress warrants issued by the municipality covered only a small portion of the demand. The proposal for superseding the Assessment Department was based on the fact that the Municipal Commissioners had not taken, nor had they shown any intention of taking, any action towards imposing a rate on holdings under the new Municipal Act, in spite of warnings from the local officers. On the facts reported, Government were of opinion that there was a strong *prima facie* case for superseding the Assessment and Collection Departments of the municipality; but before taking this extreme step, they considered it desirable to give the Municipal Commissioners a chance to improve their administration within a reasonable time and, accordingly in July 1935, a warning was given to the Municipal Commissioners to the effect that Government would seriously consider the question of superseding the two departments unless the Commissioners took necessary steps towards the imposition of a rate on holdings in place of the tax on persons from the commencement of the year 1936-37 and showed considerable actual improvement in the collection of taxes within a period of three months. Under the orders of Government, the Subdivisional Officer of Vishnupur inspected the municipality on the 21st October 1935. It appeared from his report that the Municipal Commissioners had practically taken no steps towards the introduction of the rate on holdings and the improvement of collections in spite of the warning given by Government. The municipality was again inspected by the District Magistrate on the 16th January 1936 and it appeared from his inspection notes that the Municipal Commissioners had not been able to effect any real improvement in the collection of the arrear and current taxes and that they had made no progress in the matter of imposition of a rate on holdings in place of the tax on persons under the old Municipal Act.

2. In view of the above state of affairs, the Municipal Commissioners were called upon, under section 550, sub-section (*1*), of the Bengal Municipal Act, to show cause why steps should not be taken to appoint a suitable person to take charge of the Assessment and Collection Departments of the municipality for a period of two years.

Government have carefully considered the explanation given by the Municipal Commissioners. They are of opinion that the inordinate delay made by the Commissioners in appointing an assessor for the purpose of imposing a rate on holdings was entirely unjustified and it only shows that they never seriously contemplated revising the assessment in accordance with the provisions of the new Municipal Act. There has no doubt been some improvement in the collection of taxes but the arrears are still very large and were allowed to accumulate for far too long a period. The improvement has not also been at all commensurate with the desperate financial position of the municipality.

3. In the circumstances stated above, Government of Bengal (Ministry of Local Self-Government) have come to the conclusion that the Commissioners of the Vishnupur Municipality have, in respect of the Assessment and Collection Departments, persistently made default in the performance of the duties imposed on them by the Municipal Act, and in exercise of the power conferred by sub-section (*2*) of section 550 of the Bengal Municipal Act, 1932, they direct that the Subdivisional Officer of Vishnupur shall take charge of the said departments for a period of two years with effect from the date of publication of this resolution in the *Calcutta Gazette*.

[F. R. 74(*a*).]

Instructions issued by the Auditor-General under Fundamental Rule 74.

I. PROCEDURE RELATING TO LEAVE.

Certificate of Admissibility.

1. *Gazetted Government servants.*—Leave should be sanctioned to a gazetted Government servant only after its admissibility has been certified by the Audit Officer who has been auditing his pay.

NOTE.—The leave accounts of the Archdeacon of Calcutta and the President Senior Chaplain, Church of Scotland, Bengal, are maintained by the Accountant-General, Central Revenues. The leave accounts of all other Chaplains both of the Church of England and of the Church of Scotland, including those attached to regiments, are maintained by the Accountant-General of the Province in which they serve. In the case of Chaplains therefore the certificate of admissibility of leave required by the above rule will be issued by the Accountant-General who maintains the leave accounts.

2. *Non-Gazetted Government servants.*—Before leave in India is sanctioned to a non-gazetted Government servant, the authority sanctioning the leave should either consult the leave account prescribed in Fundamental Rule 76, and satisfy himself that the leave is admissible, or obtain a certificate to that effect from the officer entrusted with the attestation of the entries in the leave account. When the application is for leave out of India, the authority sanctioning the leave should obtain a certificate of admissibility from the Audit Officer before sanctioning the leave.

3. *Military Officers.*—When a Military Officer becomes subject to the Civil Leave Rules, the Audit Officer in charge of his record of pension service will, on application and on being furnished with the date of commencement of active service in Civil employ, furnish to the Audit Officer to whose audit he becomes subject, a memorandum showing the furlough earned, the different kinds of leave taken (distinguishing those which should be deducted from the maximum furlough admissible) and the balance of furlough due under Military Rules.

4. (*a*) Applications for leave from Military Officers in Civil employ, whether they are subject to the Military Leave Rules or the Civil Leave Rules, should be sent through the Civil Audit Officer who audits the pay of the officer going on leave. The Civil Audit Officer will, if he considers it necessary, consult the Controller of Military Accounts from whose payment the officer is transferred to the Civil Department before certifying to the leave and specifying the leave salary. No leave should be sanctioned to such an officer before a report is received from the Civil Audit Officer.

(*b*) In the case of a Military Officer subject to the Military Leave Rules the Civil Audit Officer should obtain from the Controller of Military Accounts from whose payment the officer is transferred to the Civil Department a certificate stating the amount of leave to which the officer is entitled, and the rate of leave pay and allowances admissible during the said period of leave, before issuing a leave-salary certificate, or a warrant, or a certificate of leave granted to an officer proceeding on leave out of India who does not intend to draw his leave salary at the Home Treasury or in a Colony.

5. *Government servants in foreign service.*—In the case of a Government servant on foreign service, leave cannot be sanctioned until the Audit Officer of the Government (central or provincial), under which he was permanently employed at the time of his transfer to foreign service, has certified the amount of leave and the leave-salary admissible.

NOTE 1.—For the purpose of this rule, the Accountant-General of the Province in which the contributions towards leave-salary and pension of a Government servant on foreign service are recovered will act as the Audit Officer of the Central Government.

NOTE 2.—In the case of Military Officers in temporary civil employ, the Controller of Military Accounts who receives the foreign service contributions of the officers concerned is responsible for certifying to the amount of leave and leave-salary admissible, the necessary information in the case of military officers subject to the civil leave rules being obtained from the civil audit officer concerned. Similarly in the case of Government servants in commercial departments (*e.g.*, Railways and Indian Posts and Telegraphs Departments) the certificate will be given by the departmental accounts officer who is responsible for bringing the contributions to account.

Payment of Leave-salary in India.

6. *Non-Gazetted Government servants.*—The leave-salary of a non-gazetted Government servant on leave in India or on leave out of India cannot be drawn in India, except under the signature of the head of his office ; and the latter is responsible for any overcharge.

7. *Gazetted Government servants.*—No gazetted Government servant can begin to draw his leave-salary at any office of payment in India without producing a leave-salary certificate from the Audit Officer who audited his pay before he proceeded on leave.

8. The certificate should be in F. R. Form No. 2 B. ; and if during leave the gazetted Government servant desires to change the office at which he receives payment of his leave-salary, he must obtain a new certificate from the Audit Officer within whose jurisdiction his leave-salary was last paid.

8A. A gazetted Government servant desirous of discontinuing his subscription to the General Provident Fund during leave or of subscribing to the Fund at the usual rates during leave on average pay and at half rates during other leave, should intimate his wishes in the matter to his audit officer before proceeding on leave.

8-B. In the case of a Government servant entitled to Sterling Overseas Pay, who draws his leave-salary in India that portion of leave-salary which represents sterling overseas pay is payable by the High Commissioner for India. A separate authority should be issued to the High Commissioner for India for payment of the sterling portion of the leave-salary and to stop payment of duty sterling overseas pay. A copy of this authority should also be sent to the officer to enable him to draw the amount in accordance with the procedure laid down for the payment of leave-salary from the Home Treasury.

9. If a gazetted Government servant signs his bill himself he must either appear in person at the place of payment or furnish a life certificate signed by a responsible officer of Government or some other well-known and trustworthy person. If he draws his leave-salary through an authorised agent, the agent, whether he has or has not a power of attorney, must either furnish a life certificate as aforesaid, or execute a bond to refund overpayments. A life certificate may be given periodically, a bond being given to cover intermediate payments not supported by life certificates.

10. The provisions of paragraphs 7 to 9 above apply also to gazetted Government servants who spend their leave out of India but reside in Asia and who have to draw their leave-salary in rupees in India under Fundamental Rule 91.

NOTE.—A certificate of residence should be obtained from Government servants who draw their leave-salary at the rupee rate.

11. *Railway and Telegraph Departments and Military Engineer Services.*—In the case of the Railway and Telegraph Departments and the Military Engineer Services the above rules will be generally applicable subject to any modifications which may be made by the Accountant-General concerned in accordance with special rules of his department.

12. *Return to duty.*—Before returning to duty a Government servant who has drawn his leave-salary in India should obtain a last-pay certificate from the Audit Officer, within whose jurisdiction his leave-salary was last paid, and deliver it to the Audit Officer who audits his pay. Without such a certificate he cannot obtain payment of any arrears of leave-salary or pay due to him.

Leave out of India.

13. *Memorandum of Informations.*—A copy of the "Memorandum of Information for the guidance of Government servants proceeding on leave out of India" should be supplied to each Government servant proceeding on leave out of India by the Audit Officer who audits his pay, as soon as the grant of leave is gazetted or otherwise notified to him.

14. *Leave-salary Certificate and Colonial Leave-salary Warrant.*—(*a*) A Government servant proceeding on leave out of India and intending

to draw his leave-salary while on leave should be given a leave-salary certificate by the Audit Officer who audited his pay before he proceeded on leave—

(1) in F. R. Form No. 2, if he intends to draw his leave-salary at the Home Treasury ;

(2) in the shape of a leave-salary warrant in Form No. I under the Supplementary Rules, if he is proceeding to a Colony and intends to draw his leave-salary there.

(*b*) If during any period of leave on average pay a gazetted Government servant wishes, under the provisions of Fundamental Rule 91, to draw his leave-salary in India, a separate leave-salary certificate should be issued in respect of that period under the provisions of paragraph 8 above.

NOTE 1.—When vacation is taken alone or combined with holidays and spent out of India, or when vacation or/and holidays is/are prefixed or affixed to leave out of India, and is/are actually spent out of India, the Government servant may, in the absence of any specific restriction laid down either in a statutory rule or by a local Government, be authorised to draw his pay or leave-salary or both for the whole period at the Home Treasury or in a Colony, but the exact amounts to be paid on account of each separate period must be stated in the certificate or warrant, as the case may be, issued by the audit officer.

NOTE 2.—When a Chaplain of the Church of Scotland proceeds to the United Kingdom on leave granted by the civil authority on his being reverted for the purpose from military to civil duty and intends to draw his leave-salary from the Home Treasury, the Controller of Military Accounts from whose office he was in receipt of pay sends to the Accountant-General concerned a last-pay certificate on receipt of which a leave-salary certificate should be issued by the Accountant-General.

14A. In the case of a Government servant proceeding on leave to a Dominion or Colony and intending to draw that portion of his leave salary which represents sterling overseas pay from the Home Treasury, the Colonial leave-salary warrant issued under paragraph 14 (2) above should authorise payment of leave-salary based on rupee pay only. A separate intimation should be sent to the High Commissioner to pay that portion of leave-salary which represents sterling overseas pay. A copy of this intimation should also be given to the Government servant in order that he may arrange to draw the amount in accordance with the procedure laid down for the payment of leave-salary from the Home Treasury.

15. When a Government servant proceeds out of India on leave other than extraordinary leave, the Audit Officer who audits his pay will, as soon as the leave is gazetted or otherwise notified, send him a letter in F. R. Form No. 4 with enclosures in F. R. Form No. 5 requiring him to call at his office or give the necessary information.

NOTE.—If a Government servant sent home to Europe as a lunatic is granted leave, a leave-salary certificate should be prepared, if necessary, by the Audit Officer who audits his pay on the data available to him, and forwarded to the High Commissioner for India at the earliest possible date.

16. If the Government servant calls at the Audit office he will be paid up to the date of his relief and will be given a leave-salary certificate in the appropriate form as prescribed in paragraph 14 above. In the case of Government servants proceeding to a Colony, the Colonial leave-salary warrant (Form No. I under the Supplementary Rules) will be issued in triplicate. The original, bearing the Government servant's signature, will be forwarded by the Audit Officer to the Colonial Authority concerned, the duplicate to the High Commissioner for India and the triplicate will be made over to the Government servant concerned.

NOTE. —If the Government servant takes a certificate under clause (*b*) of paragraph 14 above, he will not be paid up to the date of relief, but will be allowed to draw his pay and allowances for the broken period of the month at the commencement of the next month along with the leave-salary for the rest of the month.

17. If the Government servant is unable to call at the Audit office, the Audit Officer will cause the leave-salary certificate to be sent to the address

specified by the Government servant and the pay and allowances to be paid through the Officer from whom the Government servant draws his pay and allowances.

NOTE.—The orders in the Note under paragraph 16 apply also in the circumstances specified in this paragraph.

18. When a Government servant proceeds on extraordinary leave out of India, or on leave on average pay or half average pay out of India during which he does not propose to draw leave-salary, or when a Government servant is given a Colonial leave-salary warrant, he should be given a certificate of leave in Form No. II under the Supplementary Rules. This certificate has to be presented by the Government servant to the High Commissioner for India, if he is on leave in Europe, North Africa, America or the West Indies and applies for extension of leave, or for permission to return to duty or for a last-pay certificate before returning to duty.

NOTE.—Whenever a Government servant is proceeding to a Dominion or Colony which does not account directly to India, a duplicate copy of the certificate in Form II under the Supplementary Rules should be sent to the High Commissioner with the duplicate copy of the Colonial leave-salary warrant (*vide* paragraph 16).

19. *Deleted.*

20. With every leave-salary certificate, Colonial leave-salary warrant or certificate of leave, given to Government servants to whom the leave rules in Sections I to V of Chapter X of the Fundamental Rules are not applicable a blank F. R. Form No. 7 will be given on which the Government servant concerned will report to the Audit Officer, from the first port at which the vessel touches, the day of his departure from India.

21. As soon as an Audit Officer has delivered a leave-salary certificate, certificate of leave or a Colonial leave-salary warrant to a Government servant who proposes to spend his leave out of India, or has caused it to be sent to the address specified by him, he must forward a copy of the leave-salary certificate or certificate of leave, or the duplicate copy of the Colonial leave-salary warrant to the High Commissioner for India.

22. *Deleted.*

23. *Amended Certificate.*—If it becomes necessary to amend a leave-salary certificate in F. R. Form No. 2, the amendment should take the form of a short corrigendum worded so as to show only the particular item or items in which alterations have been made: this corrigendum should be forwarded by the Audit Officer at the earliest possible date to the High Commissioner for India. Every corrected leave-salary certificate, whether original or duplicate, should be marked "Amended Certificate".

24. *Extension or commutation of leave.*—Whenever the leave of a Government servant absent on leave out of India elsewhere than in Europe, North Africa, America, or the West Indies is extended or commuted by the authority in India which granted the leave, the fact should forthwith be notified by the Audit Officer to the High Commissioner for India to enable him to check the payment by Colonial Treasurers or Staff Officers.

NOTE.—This rule applies to Military Officers subject to the Military Leave Rules.

25. If the leave of a Government servant who draws his leave-salary in India under the provisions of Fundamental Rule 91 is extended or commuted, the Audit Officer who audited his pay at the time he proceeded on leave must, on receiving advice of such extension or commutation, forthwith communicate it to the Audit Officer within whose jurisdiction his leave-salary is drawn. He should also communicate any other circumstances connected with the leave which may be required to be known to the Audit Officer who passes the Government servant's leave-salary.

26. *Issue of a fresh Colonial leave-salary warrant.*—When no space for the entry of endorsements of payments remains upon the back of a Colonial leave-salary warrant, or when a warrant is lost or destroyed, a fresh warrant should be issued by the Audit Officer who issued the original warrant on the application of the Government servant concerned submitted through the Colonial Disbursing Officer.

27. *Return to duty.*—A Government servant who was on leave in Europe must, on return to India, deliver to the Audit Officer the last-pay certificate obtained by him from the High Commissioner before he can obtain payment of any arrears of leave-salary or pay due to him. A Government servant who has drawn his leave-salary on a warrant must deliver his copy of the warrant, which will serve as a last-pay certificate.

28. *Railway and Military Accounts Departments.*—Changes in the above rules, except those which relate to Colonial leave-salary warrants, may be made by the Controller of Railway Accounts, or the Military Accountant-General in accordance with the special rules of his own department.

Special Rules relating to Military Officers.

29. As soon as the grant of furlough or leave to a Military Officer in Civil employ has appeared in orders, the Audit Officer from whose payment the Officer is transferred to the Civil Department must, in the case of furlough to Europe, North Africa, America or the West Indies, forward to the High Commissioner for India a statement of the officer's service in such form as the Military authorities may prescribe. This statement is not required in the case of officers proceeding on furlough under the Staff or British Leave Rules.

30. When furlough or leave or an extension of furlough or leave is granted to a Military Officer in Civil employ, whether subject to the Civil or the Military Leave Rules, the Civil Audit Officer should intimate to the Audit Officer from whose payment the officer is transferred to the Civil Department the date of the beginning and end of the furlough or leave, the dates of embarkation and debarkation in the case of furlough out of India, as well as those of being struck-off or of resuming duty.

31. *Deleted.*

32. On the return of an officer from furlough or leave, it will be the duty of the Audit Officer in charge of his record of pension service to satisfy himself that he has returned within his leave; and, if not, to report the case to the authority which sanctioned the leave.

Leave Account.

33. The leave account prescribed in Fundamental Rule 76 should be kept in F. R. Forms No. 9 and No. 9-A. in respect of Government servants under the Special Leave Rules and Ordinary Leave Rules respectively. The office in which the account should be kept for any Government servant and the person by whom the entries should be attested will be such as are prescribed by the local Government.

The leave accounts of permanent piece-workers and of permanent salaried industrial employees (below the grades of Overseer and Assistant Manager) in the Government of India presses, who are not classed as "Inferior", should be kept in F. R. Forms 9-B and 9-C respectively.

NOTE.—A leave account in the subjoined form has been prescribed for inferior servants in the Railway Department who do not take leave exceeding one-eleventh of duty.

Leave Account Form.

Duty. 1					Leave earned at 2-11th of duty. 2	Leave equivalent to 1-11th of duty (i.e., half of the period shown in column 2). 3	Leave taken. 4	Balance of leave equivalent to 1-11th of duty (columns 3—4). 5
From.	To	Year.	Month.	Day.				

NOTE.—Care should be taken to see that leave taken does not exceed the period shown in column 3 *plus* the balance shown in column 5.

33-A. In the case of Government servants subject to the " Revised Leave Rules, 1933 ", leave accounts need not be maintained in the forms prescribed in paragraph 33 above, the particulars entered in Service Books or Histories of Services or other records of service being sufficient for the calculation of the amount of leave admissible at any time.

If a Government servant subject to the "Revised Leave Rules" is transferred permanently to another Government, the Audit Officer of the lending Government should draw up a leave account indicating therein the amount of "earned leave" at credit, leave-salary for which should be borne by the lending Government, and send it to the Audit Officer of the borrowing Government. The latter should pass on the debit in regard to leave-salary for "earned leave" up to the extent indicated in the leave account as and when the Government servant takes that leave after permanent transfer to the borrowing Government.

II.—SERVICE BOOKS.

34. A service book in F. R. Form No. 10 should be maintained for every non-gazetted Government servant holding a substantive post on a permanent establishment with the exception of those the particulars of whose service are recorded in a History of Services or in a service register maintained by the Audit Officer, or for whom special forms of record are prescribed by the local Government. In this book every step in the Government servant's official life should be recorded and each entry should be attested by such superior officer as may be prescribed by the local Government.

35. If a Government servant is transferred to foreign service, the Audit Officer referred to in paragraph 5 above will, on receipt of the service book from the head of the office or department concerned, note in it, under his signature, the order sanctioning the transfer, the effect of the transfer in regard to leave admissible during foreign service and any other particulars which he may consider to be necessary, and return the same to the officer from whom he received it. On the Government servant's re-transfer to Government service, the Audit Officer will again note in the service book, under his signature, all necessary particulars concerned with the foreign service. All entries relating to the time spent in foreign service should be attested by the Audit Officer.

NOTES.

1. Distinguish leave granted on medical certificate from leave granted without medical certificate, and if the leave, though technically of the latter description, was granted in consequence of the production of a medical certificate, or on medical grounds, mention the fact.

2. Except in the case of Chaplains, leave-salary should be stated in whole rupees only a month (fractions being omitted and the next higher rupee taken where the fraction exceeds one-half) and not in pounds a year; and in entering "the rate of leave-salary" it should be stated, in the first place, without reference to the maximum or minimum applicable, and then, if a maximum or minimum applies or if the leave-salary is such that a future change in the current rate of exchange may render a maximum or minimum applicable, the words should be added "subject to a maximum (or minimum) of, etc."

3. The ordinary rate of conversion will be the rate of exchange for telegraphic transfers from Calcutta on London on the day on which each monthly payment is made subject to a minimum rate of 1*s.* 4*d.* per rupee in respect of leave-salary drawn on account of the first four months of leave on average pay and of 1*s.* 6*d.* per rupee in other cases. The maximum rates of leave-salary are those prescribed in Fundamental Rule 89 and the minimum rates those prescribed in Fundamental Rule 90.

4. It must be shown whether a Government servant is entitled to the full amount of leave permitted by the rules.

5. In line 7 the Articles of the Fundamental or other Rules under which the advance is made should be mentioned.

6. The date on which any Government servant will, during the currency of leave, complete the term of service, or attain the age after which by any rule he is required to retire from the service, should be shown in line 10.

7. These rules apply also to leave-salary certificates granted to non-gazetted Government servants when they proceed on leave out of India and draw their leave-salary out of India. In such cases the fact that the Government servant is a non-gazetted Government servant should be noted against entry 2.

8. In preparing the leave-salary certificates of the subscribers under the Indian Military Service Family Pension Regulations and to the Indian Military Widows' and Orphans' Fund, who take leave under the Fundamental Rules, the instructions given in Government of India, Finance Department, No. 914-F. E., dated the 10th May 1922, should also be observed, *viz.*, the leave-salary certificate should show clearly the rate of leave-salary, the monthly maximum of average pay, whether it is likely to become effective or not and the period for which the leave-salary is not subject to the monthly maximum.

9. The following particulars should be noted in line 8 :—

(1) the major, minor and detailed head of account ;

(2) whether debitable to Central or Provincial revenues ; if the latter, the name of the Provincial Government ;

(3) whether the expenditure pertains to a "Reserved" or to a "Transferred" subject ;

(4) whether the expenditure is "voted" or "non-voted."

When the head of account to which the leave salary is debitable during extensions of leave differs from the head to which it was debitable during the period of leave originally granted, this fact should be indicated.

10. In line 11, if the leave granted is less than 22 months, calculations up to 28 months' absence only may be given in the first instance, and as soon as the leave is extended so as to bring the total period of absence from duty to 22 months or more, an amendment to the original leave-salary certificate should be issued at once showing the amount of further leave due on medical certificate beyond 28 months.

11. In the case of Government servants to whom the rules regarding the grant of passages to civilian Personnel of British Domicile engaged for service in India apply, an additional entry should be made showing whether they and their families were given the benefit of Rule VII, and whether they were allowed a similar benefit under either Rule VII or Rule VIII on returning to India.

12. In all English Leave Salary certificates the particulars of all outstanding advances (including passage advances) should be noted under item 16, and in the case of motor car and similar advances the date from which the recovery of monthly instalments should be effected should be stated.

13. With the exception of privilege leave earned in a Civil Department, which should be taken first, a Military Officer in Civil employ may set off the leave he takes against the civil leave or military leave at his credit, as he likes. A definite election in the matter should be obtained from all such officers and the election should be noted in the leave-salary certificate.

14. Where subscriptions or recoveries relate to Sterling Branches of Provident Funds this should be indicated clearly under item 16.

Sir,

With reference to the order noted in the margin, granting you leave out of India, I have the honour to say that it is necessary for you to obtain from me a leave-salary certificate to enable you to draw your leave-salary.

Here enter number and date of the order, name of the authority granting the leave, and page of the gazette in which the leave is notified.

Otherwise, I shall cause the leave-salary certificate to be sent to the address specified by you, and the pay and allowances to be paid through the officer from whom you draw your pay and allowances.

To the new entry in column 4 should be added the last entry in column 16 and the resultant figure should be posted in column 6; similarly to the new entry in column 5 should be added the last entry in column 17 and the resultant figure should be posted in column 7. The total of the entries in columns 6 and 7 will be shown in column 8.

NOTE 1.—If during the period of duty prior to a Government servant's going on leave he has served under two or more Governments, the period of duty and the leave earned under each Government should be shown in separate lines in columns 1 to 5 and the sum total of the new entries in column 4 and the last entry in column 16 should be posted in column 6 and of those in column 5 and the last entry in column 17 in column 7, the total of the entries in columns 6 and 7 being shown in column 8.

NOTE 2.—The sum total of the entries in column 5, inclusive of the opening entry mentioned in instruction No. 2 should not exceed $2\frac{1}{2}$ years [Rule 81 (*a*) (*ii*)], and no entry should be made in this column when this limit of $2\frac{1}{2}$ years is reached.

When columns 1 to 8 have been posted, column 8 will show the *maximum* amount of leave which may be granted *in terms of leave on average pay* [but see Rule 81 (*d*)] to a Government servant on the date on which he intends to go on leave. The *maximum* amount of leave *on average pay* which may be granted on that date with medical certificate or out of India and Ceylon will be the sum total of the last entry in column 6, and the unspent balance of "one year" limited to 8 months at a time, provided this sum total is covered by the period entered in column 8; in the case of leave in India or Ceylon without medical certificate, the maximum will be the last entry in column 6, limited to 4 months at a time. The limits of 8 and 4 months may be exceeded as provided in the note to Fundamental Rule 81(*b*).

4. When a Government servant returns from leave, columns 9 to 18 should be filled up. The period of leave taken on average pay should be entered in columns 9, 10 and 11, that taken on medical certificate or spent elsewhere than in India or Ceylon should be entered in column 11 till the limit of one year is reached and thereafter in column 10. The actual periods of leave on half or quarter average pay (together with leave on subsistence grant under the Note to Fundamental Rule 88) and overstayal of leave (*vide* Fundamental Rule 73) should be entered in column 13 and one half of it in column 14.

NOTE 1.—Leave on average pay taken under the Fundamental Rules in India without medical certificate in excess of the last entry in column 6 before the deletion of "*plus* 1 year" from Rule 81 (*b*) (*ii*) should be entered in column 11.

NOTE 2.—If the leave taken on half average pay exceeds the amount at credit on half average pay, the excess should be shown in red ink in column 17. If this debit shown in column 17 exceeds the credit, if any, shown in column 16, the net debit in column 18 will be recorded in red ink. The entry in column 18 is the leave due under Fundamental Rule 80. The balance of leave due on average pay shown in column 16 remains unaffected by any debit entries in columns 17 and 18, but cannot be utilised until, under the operation of Fundamental Rules 77 and 81(*c*) leave again becomes due under Fundamental Rule 80 and then only to the extent of the leave due.

5. The total period of leave in terms of leave on average pay taken in a Government servant's whole service as entered in column 15 should not exceed the privilege leave credited to him in column 4 on his coming under the Fundamental Rules, *plus* all periods or leave subsequently entered in that column, *plus* 2½ years.

6. When a Government servant is transferred to service under another Government, a separate account should be opened in F. R. Form No. 9 for showing the leave earned under that Government and the leave the cost of which is debited to that Government. This account will be in addition to the main leave account, which must be a complete record of all leave earned and taken under these rules throughout his service.

Memorandum explaining how the existing orders in the several articles in the Civil Service Regulations have been dealt with in the instructions issued by the Auditor-General under Fundamental Rule 74.

1. *Paragraph 1.*—This includes the provisions contained at present in clauses (*a*) and (*d*) of Article 841 of the Civil Service Regulations. Under the existing system of audit it is necessary that the Audit Officer should certify the admissibility of the leave before it is sanctioned. The provision has, therefore, been retained as an instruction of the Auditor-General.

2. *Paragraph 2.*—This order is not based on any rule at present included in the Civil Account Code or the Civil Service Regulations. A similar rule is, however, included in some departmental codes (*e.g.*, paragraph 109, Public Works Department Code), and is followed in practice in all civil offices. Only leave which is admissible can be sanctioned and the admissibillity of the leave can be verified only by a reference to the leave account. It is considered that an explicit rule to this effect should be contained in the authorised instructions.

3. *Paragraph 3.*—This provides for the orders in the note under Rule 1 below clause (*i*) of Article 314, Civil Service Regulations.

4. *Paragraph 4, clause* (*a*).—The provision in this clause is intended to replace the orders contained in Articles 855-A and 856, Civil Service Regulations. The orders as they stand are very complicated and prescribe different sets of procedure for different kinds of officers. It would be sufficient if all the applications are required to be sent to the Civil Audit Officer who will when necessary, consult the Military Audit Officers. Clause (*b*) provides for the orders contained at present in Articles 856 (*c*), 860, the Note under 871 and 875. As the Civil Audit Officer has to consult the Military Controller he can obtain the certificate at the same time.

5. *Paragraph 5.*—This reproduces the portion of the orders in Article 780, Civil Service Regulations, which is essential for purposes of audit.

6. *Paragraph 6.*—Article 865 prescribes the locality in which the leave-salary of a non-gazetted Government servant should be drawn and the conditions which should be observed before it can be paid. Orders regarding locality cannot be issued as part of audit requirements and so paragraph 6 only prescribes the other conditions contained in Article 865. The general orders framed by the Governor General in Council under rule 16 of the Devolution Rules include a provision to the effect that the leave-salary of a non-gazetted Government servant paid in India should be drawn only in that district in which his pay could be drawn if he were on duty.

7. *Paragraph 7.*—This reproduces that portion of the orders in Article 874 which relates to payment of leave-salary in India. The term "office of payment" has been substituted for "treasury" so that the rule may be applied even in the case of those departments which make their own payments, *e.g.*, by cheques.

8. *Paragraph 8.*—This reproduces the orders in Article 878, except that the provision that a certificate is necessary only when the Government servant proceeds from one place to another has been cancelled because an authority from the Audit Officer specifying the leave-salary permissible is necessary in all cases. A clause has also been added at the end of this paragraph to the effect that, when the Government servant desires to change the office of payment, a fresh leave-salary certificate must be otained from the Audit Officer within whose jurisdiction his last pay was drawn. This clause is taken from Article 887. As the instructions apply also to cases of Government servants on leave in India, they have been included in this paragraph.

9. *Paragraph 9.*—This reproduces the orders in Article 864, Civil Service Regulations.

10. *Paragraph 10.*—This provides for the procedure laid down in Fundamental Rule 91, by which Government servants who reside in Asia during their leave have to draw their leave-salary in India. The note under the paragraph is an audit requirement.

11. *Paragraph 11.*—Is intended to preserve the special procedure obtaining at present in these departments which is safeguarded by Article 866, Civil Service Regulations.

12. *Paragraph 12.*—A last-pay certificate has to be produced by a Government servant who has to draw arrears of leave-salary or pay due under Article 41, Civil Account Code, Volume I (8th edition).

13. *Paragraph 13.*—This reproduces the orders in Article 775-A, Civil Account Code, Volume II (7th edition).

14. *Paragraph 14.*—This reproduces part of the orders in Article 874, Civil Service Regulations, relating to the issue of a leave-salary certificate to those who desire to draw their leave-salary at the Home treasury, and part of the orders in Article 888, Civil Service Regulations, relating to the issue of a Colonial warrant, with this difference that the Audit Officer who audits the pay of a Government servant is required to issue the Colonial leave-salary warrant in the place of Audit Officers at the ports of embarkation in India or Burma who were formerly issuing the warrants as stated in Article 888, Civil Service Regulations. The issue of a separate leave-salary certificate by the Audit Officer concerned as specified in Article 881 becomes unnecessary, as he will himself issue a Colonial leave-salary warrant. A clause has been added to this rule providing for cases in which a gazetted Government servant may wish to draw his leave-salary in India during the first four months of leave on average pay. In these cases a leave-salary certificate, such as is ordinarily issued to a Government servant, drawing his leave-salary in India, should be issued to cover the period during which the Government servant wishes to draw his leave-salary in India. This rule does not provide for non-gazetted Government servants proceeding on leave out of India, as their cases are covered by paragraph 6 of these Instructions.

15. *Paragraph 15.*—This provides for the orders in Article 880, Civil Service Regulations. The note under the article is taken from Article 775, Civil Account Code, Volume II (7th edition).

16. *Paragraph 16.*—Reproduces part of the orders in Article 881 which are not included in paragraph 14, as well as part of the orders in Article 889. The existing orders require that the Government servant going on leave out of India should be paid up to the day before he leaves India.

These orders apply to the case of Government servants who proceed on leave to which no privilege leave is prefixed. When the Government servant goes on privilege leave or on combined leave, he is allowed to draw his allowances in England from the commencement of such leave. In future it would be simpler to have the leave-salary due from the commencement of the leave paid in England, if the Government servant so chooses, in all cases, subject to the conditions in Fundamental Rule 91. This rule accordingly provides that the Government servant should be paid up to the date of his relief.

17. *Paragraph 17.*—This reproduces the orders in Article 882, except that it is provided that the Government servant should be paid up to the date of his relief and not up to the date of his sailing.

18. *Paragraph 18.*—This is taken from Articles 872 and 873, Civil Service Regulations.

19. *Paragraph 19.*—This is in accordance with Article 904, Civil Service Regulations.

20. *Paragraph 20.*—This reproduces the orders in Article 883, Civil Service Regulations. As, under Fundamental Rule 68, the leave of a Government servant commences on the day on which transfer of charge is affected and does not depend upon the date of departure of the vessel in which the Government servant sails, the report of actual sailing is not required in the case of those to whom the rules in sections I to V of Chapter X of the Fundamental Rules are applicable.

21. *Paragraph 21.*—This provides for the orders in Article 884 and part of Article 889. "The High Commissioner for India" has been substituted for the "Secretary of State" and "India Office" as the former officer is now making payments of leave-salary in England.

22. *Paragraph 22.*—This reproduces the orders in Article 885, Civil Service Regulations.

23. *Paragraph 23.*—This provides for the orders in Article 898 (*a*), Civil Service Regulations.

24. *Paragraph 24.*—This is taken from the latter part of Article 300, Civil Service Regulations.

25. *Paragraph 25.*—This is a reproduction of the orders in Article 877, Civil Service Regulations.

26. *Paragraph 26.*—This is a part of the orders in Article 889, Civil Service Regulations.

27. *Paragraph 27.*—This is taken from Articles 886 and 890, Civil Service Regulations.

28. *Paragraph 28* is taken from Article 876, Civil Service Regulations.

29. *Paragraphs 29 to 32* are taken from Articles 855, 857 (*b*) and (*c*) and 611, Civil Service Regulations.

30. *Paragraph 33.*—This is a necessary record for purposes of reference.

31. *Paragraphs 34 and 35.*—These rules indicate the form in which records of service of non-gazetted Government servants should be maintained and the procedure that should be followed in maintaining them.

F. R. FORM No. 5-A.

Memorandum of information for the guidance of Government servants proceeding on leave out of India.

1. *Report of sailing.*—If a certificate of departure accompanies this memorandum, the Government servant should sign, stamp and post it to the Audit Officer from whom the memorandum is received.

2. *Date of commencement of leave.*—Leave begins on the day on which transfer of charge is effected, or, if charge is transferred after noon, on the following day.

3. *Leave-salary certificate for payment in India.*—Under Fundamental Rule 91 a Government servant may draw in India the leave-salary of the first part of any period of leave on average pay up to a maximum of four months, whether such leave be taken by itself or at the commencement of a longer period of leave. When a Government servant on leave out of India exercises this option and desires to draw his leave-salary in India—

(1) his pay and allowances up to the date preceding that on which his leave commences are payable in India under the usual rules; and

(2) if he is a gazetted Government servant, he must inform the Audit office, which audits his pay in his last post, through a form which will be received from it, from what treasury he wishes to draw his leave-salary and through what agency.

4. *Leave-salary certificate for payment at the Home Treasury.*—In cases not falling under paragraph 3 above—

(1) the pay and allowances of the Government servant will be paid to him before he leaves India and the Audit Officer who audits his pay in his last post will arrange for this; and

(2) the Government servant must take with him a leave-salary certificate to enable him to draw his leave-salary from the Home Treasury.

If the certificate cannot be prepared in time, or if a Government servant proceeding on leave to Europe is compelled to leave without a certificate, it will be forwarded to him to any address which he may leave.

5. *Colonial leave salary warrant for payment of leave-salary in a Colony.*—If a Government servant intends to draw his leave-salary in any of His Majesty's Colonies, the Audit Officer who audits his pay in his last post will furnish him with a warrant addressed to the Colonial officer only on condition that any fund subscriptions due from him shall either be paid in advance or taken by deduction; in the latter case the warrant to the Colony will show only the net amount payable after such deduction.

6. *Leave on medical certificate.*—A Government servant taking leave out of India on medical certificate should take with him one copy of the Medical Report upon his case, and be prepared to produce it before the Medical Board at the India Office if required to do so.

7. *Certificate of leave necessary in certain cases.*—If a Government servant proceeds on extraordinary leave out of India, or on leave on average pay out of India during which he does not propose to draw leave-salary, or if a Government servant proceeds to a Colony, he should obtain a certificate of leave in Form No. II under the Supplementary Rules from the Audit Officer who audits his pay in his last post. This certificate has to be presented by the Government servant to the Secretary of State or the High Commissioner for India if he is on leave in Europe, North Africa, America or the West Indies and applies for extension of leave or for permission to return to duty or for a last-pay certificate before returning to duty.

8. *Subscriptions to Funds.*—Subscriptions on account of the Bengal, Bombay and Madras Civil Funds, and the Bengal and Madras Service Family Pension Fund may be paid either in India or in England at the option of the subscriber and arrangement should be made for such payment by the subscriber. In the case of Military Officers in Civil employ subscriptions on account of Indian Military Service Family Pension Fund will be deducted from the leave-salary of the

officers concerned. Officers should see that the necessary deductions are made. Premia and subscriptions on Postal Insurance policies and contracts for monthly allowances, subscriptions for the Bengal Uncovenanted Service Family Pension Fund, the Bombay Family Pension Fund of Government servants, the General Family Pension Fund and the Hindu Family Annuity Fund are not payable in England.

9. Subscriptions to the General Provident Fund may be paid by remittance in cash to the Audit office which audited his pay in his last post in the case of a Government servant on leave who draws his leave-salary from a Colonial Treasury but when a subscriber draws his leave-salary from the Home treasury of the Government of India, his subscription may be paid by deduction from such salary.

A Government servant who draws his leave-salary from the Home treasury and who desires to subscribe during his leave or any part of it must notify his intention beforehand in order to allow of the deductions from his leave-salary being noted in his leave-salary certificate. Unless an extension of leave is granted, the option thus notified will be final.

10. Before departure on leave, a subscriber to the Indian Civil Service Provident Fund should intimate to the Account Officer of the province or department in which he is permanently employed the amount which he desires to contribute monthly during his leave. A subscriber to the Bengal and Madras Service Family Pension Fund should communicate with the Accountant-General, Central Revenues; and a subscriber to any other fund with the Secretary of the Fund concerned, informing him of the arrangement he proposes to make regarding the payment of his subscription during his absence.

11. Contributions due under the Indian Civil Service Family Pension Regulations must be paid in England in sterling. If a subscriber previous to quitting India has commenced the payment of any donation by instalments, he may either complete the payment of his donation in India before leaving or pay the remaining instalments in England at English rates. Subscribers to this fund will obtain from the Audit Officer who audits their pay in their last posts a certificate of the date up to which they have paid their subscriptions.

11-A. Subscriptions under the Superior Services (India) Family Pension Fund are payable during leave; but the Secretary of State in Council may at his discretion permit recovery of subscriptions due over a prolonged period of leave on medical certificate or of extraordinary leave without pay to be postponed until the expiration of such leave.

12. *Report of arrival in the United Kingdom.*—When a Government servant arrives in the United Kingdom he should at once report his arrival by letter to the High Commissioner for India at India House, Aldwych, London, W. C. 2, giving an address at which letters will find him, and he should forward his leave-salary certificate to the same authority on arrival, or as soon as he receives it from India.

12-A. *Military Officers in Civil employ visiting foreign countries.*—Military Officers in Civil employ are bound by the rules contained in paragraphs 883 and 884 of the Regulations for the Army in India, requiring that permission shall be obtained before visiting certain foreign countries named in those paragraphs and prescribing the procedure for obtaining such permission and the necessary passports.

13. *Payment at the Home Treasury.*—The leave-salary (including the sterling leave-salary of Government servants drawing their leave-salary in India or in a Dominion or Colony) of all Government servants is issued from the Home treasury monthly in arrear on the first day of each calendar month. It will be paid to the Government servant on his personal application, or to his banker or other agent, duly authorised under power-of-attorney, on

production of a life certificate filled up and executed in the manner directed thereon (except in cases where proof of existence is not required owing to the banker having been permitted to execute a Deed of Covenant and Indemnity guaranteeing the Secretary of State or the High Commissioner against loss consequent on his dispensing with the production of such proof), or on presentation of a payment form comprising a receipt and a life certificate both duly completed by the Government servant. A supply of life certificate forms may be obtained from the High Commissioner on the Government servant's written application.

NOTE 1.—If the leave-salary is drawn by a banker or agent who has executed a general bond of indemnity, a life certificate should be produced at least once a year.

NOTE 2.—If the Government servant intimates to the High Commissioner his election of this method he will be regularly supplied with the requisite payment form as the due date of issue approaches.

14. *Payment in a Colony.*—Payment of leave-salary will not be made by a Colonial authority unless the Government servant produces his copy of the warrant. Each payment made in the Colony will be endorsed upon the warrant.

When no space for the entry of endorsements of payment remains upon the back of a Colonial leave-salary warrant, or when a warrant is lost or destroyed, the Government servant concerned should make an application for a fresh warrant through the Colonial Disbursing Officer to the Audit Officer who issued the original warrant.

15. *Transfer of payment from one Colony to another.*—If the transfer from one Colony to another of payment of the leave-salary of a Government servant is sanctioned by the Colonial authorities, such transfer must be reported by the Government servant to the Governor General in Council and to the High Commissioner.

16. *Transfer of payment from the Home Treasury to a Colony and* vice versa.—If a Government servant drawing his leave-salary in a Colony desires to transfer payment to the Home treasury, he can do so on production of his warrant to the High Commissioner. If one drawing his leave-salary from the Home treasury desires to transfer payment to a Colony, he must obtain a warrant from the High Commissioner. A transfer of this kind must be reported by the Government servant to the Governor General in Council.

17. *Extension or commutation of leave.*—A Government servant absent on leave in Europe, North Africa, America or the West Indies, who wishes to have his leave extended or commuted, must apply to the High Commissioner for India about three months before the expiry of his leave, and, unless the extension is desired on medical grounds, or is for a period of not more than 14 days, he must produce with his application evidence that the Government on whose cadre he is borne has been referred to by him and has no objection to the extension or commutation desired. It is in exceptional cases only that the High Commissioner will grant an extension without the production of such evidence and then for such period only as may be necessary to obtain the orders of the Government concerned, which will be sought by telegraph at the applicant's expense.

18. If on medical grounds a Government servant on leave in any of the localities named in paragraph 17 desires an extension for more than 14 days he must satisfy the Medical Board at the India Office of the necessity for the extension. In order to do so, he must, as a general rule, appear at the India Office for examination by the Board, but in special cases, and, particularly, if he is residing at a distance of more than 60 miles from London, a certificate in a form to be obtained from the High Commissioner may be accepted if

signed by two medical practitioners. A certificate obtained outside the United Kingdom and signed by foreigners must be attested by consular or other authority as bearing the signature of qualified medical practitioners. If application for extension be delayed until the last two months of leave, advice of any extension granted for a period of more than seven days will be sent to India by telegraph and the cost of the telegram will ordinarily be charged to the Government servant.

19. If a Government servant on leave in any of the localities named in paragraph 17 has been granted leave on medical certificate and desires an extension on grounds other than medical he must satisfy the Medical Poard as prescribed in paragraph 18 above that he has recovered his health. Any such extension without medical certificate will only be admissible if the extension was due at the time the original leave was granted.

In the case of a commissioned Medical Officer the local Government will make a reference to the Director-General, Indian Medical Service, before granting the permission.

20. A Government servant on leave out of India elsewhere than in any of the localities named in paragraph 17 who wishes to have his leave extended or commuted must apply three months before the expiry of the leave to the authority in India which granted it.

21. If an application made under paragraph 20 above is for an extension of leave on medical certificate, it must be accompanied by a certificate from two medical practitioners in the following form :—

" We hereby certify that we have carefully examined C. D. of the who is suffering from and we declare upon our honour that, according to the best of our judgment and belief, he is at present unfit for duty in India, and that it is absolutely necessary for the recovery of his health that his present leave, which will expire in India on , shall be extended by $\frac{\text{months}}{\text{weeks}}$.

Date

Place

,,

The certificate must describe in full detail the nature of the disease and the present condition of the Government servant. If it be signed by foreigners, it must be attested by consular or other authority as bearing the signatures of qualified medical practitioners.

22. An extension of leave will not be granted by the High Commissioner to a Government servant to whom no leave-salary certificate or Colonial leave-salary warrant has been issued, unless he produces a certificate of leave (*vide* paragraph 7 *ante*).

23. Leave out of India on medical certificate may be commuted into leave without medical certificate if such leave was due at the time when the original leave was granted, and if the Government servant seeking commutation is certified, in the manner prescribed, to have recovered his health. When extension of the commuted leave is applied for, the application must be supported by evidence that the Government servant's local Government consents to the extension of his leave.

24. A Government servant who remains absent after the end of his leave is entitled to no leave-salary for the period of such absence unless his leave is extended by the local Government. Wilful absence from duty after the expiry of leave may be treated as misbehaviour for the purpose of Fundamental Rule 15, which runs as follows :—

> "A Government servant shall not, save in the case of inefficiency or misbehaviour, be transferred substantively to a post carrying less pay than his relative position in the cadre of the service to which he belongs would justify."

25. *Return from leave.*—A Government servant may not, without the permission of the authority which granted him leave, return to duty more than 14 days before the end of long leave. The rule applies to Military Officers subject to the Military Leave Rules. He must obtain permission to return to duty from the local Government.

26. A Government servant, who is required to produce a medical certificate of fitness before returning to duty, must obtain permission to return to duty before so returning.

27. If the Government servant desiring to return is on leave in any of the localities named in paragraph 17, his application must be made to the High Commissioner and he must satisfy the Medical Board at the India Office of his fitness to return at least two months before the expiry of his leave. In order to do so, he must follow the procedure prescribed in paragraph 18 above. When the Medical Board has been satisfied, the High Commissioner will grant permission to return.

28. If the Government servant desiring to return is on leave out of India elsewhere than in the localities named in paragraph 17, his application must be made to the authority which granted his leave and must be accompanied by a certificate of fitness in the prescribed form.

29. Permission to return will not be granted to a Government servant to whom no leave-salary certificate or Colonial leave-salary warrant has been issued, until he produces a certificate of leave.

30. *Last-pay certificate.*—Before returning to duty, a Government servant on leave in Europe must obtain a last-pay certificate from the High Commissioner and bring it with him to India and not leave it with his Home Agent, as it will be required for presentation to the Audit Officer, if it is desired to draw on arrival in India the advance which is permissible under paragraph 35. In such an event the English last-pay certificate should be with the Government servant, as it facilitates his identification at the Audit office and the advance has to be recorded on the certificate. A last-pay certificate will not be granted to a Government servant to whom no leave-salary certificate has been issued unless he produces a certificate of leave. A Government servant who has drawn his leave-salary on a warrant must, on return to India, deliver to the Audit Officer, by whom the pay of the post which he will join will be audited, his copy of the warrant which will serve as a last-pay certificate.

31. *Procedure on return to duty.*—A gazetted Government servant must report his return to duty to the Government under which he is serving. A Chaplain must report his return to the Bishop of his Diocese also.

32. A Government servant is not entitled on his return from leave to resume, as a matter of course, the particular post he vacated before his departure on leave, even though that post may be his substantive post; he must report his return to duty and await orders.

NOTE.—Members of the Engineer or Upper Subordinate Establishment of the Public Works Department should, on arrival at the port of debarkation, report themselves personally to the Secretary in the Public Works Department of Bengal, Madras, Bombay or Burma as the case may be, and ask for orders. If they return *via* Karachi, they should apply to the office of the Executive Engineer, Karachi Canals, for orders.

33. A Government servant may return to India by any port and his leave ends on the day preceding that on which the vessel arrives at the port where he last quits it. If, however, the leave from which he returns is of four months' duration or less, his leave ends on the day preceding that on which he takes charge of his duties, unless he takes charge in the afternoon, when the leave terminates on and includes that day.

34. On return to duty, the last-pay certificate obtained from the High Commissioner should be exchanged for a last-pay certificate which the Audit office of the province to which he has been posted will furnish address to the treasury or office at which, after his return, the Government servant intends to draw his pay and allowances.

35. *Advances.*—A Government servant returning from leave out of India may be granted an advance of his leave-salary for the unexpired portion of his leave subject to a maximum of 35 days from the date of embarkation for India. On arrival in India an advance may, if he desires it, be paid to a Government servant by or under the order of the Audit office of the province in which the advance is sought to be drawn under Article 159 (*b*) of the Civil Account Code, Volume I.

To a Chaplain appointed before the 7th June 1923, who is proceeding on leave to England, an advance of three months' leave-salary may be made, provided that no part of the leave is on average pay. Such an advance is not recoverable in the event of the Chaplain's death.

To a Military Officer subject to the Military Furlough Regulations of 1868 proceeding on furlough (not combined with privilege leave) to England an advance of furlough pay may, if he desires it, be made for three months from the date of embarkation. Payments in continuation will be made in England on the expiration of four months from that date.

36. *Acceptance of service during leave.*—A Government servant is not permitted to take any service or accept any employment without obtaining the previous sanction of—

(*a*) the Secretary of State, if the Government servant is residing in Europe, North Africa, America or the West Indies; or

(*b*) the Governor General in Council or the authority competent to appoint him, if he is residing elsewhere.

1. A Civilian Government servant on leave, who has received orders from the War Office or any other department of State in England to undertake any duty in the case of a national emergency, should obtain the permission of the Secretary of State before complying with such orders.

37. *Hospital for Tropical Diseases, Endsleigh Gardens.*—Government servants from India in the United Kingdom suffering from Tropical Diseases are not always aware that, whether they are actually on leave on medical certificate or not, it may be to their advantage to appear before the Medical Board in order that the Board may advise them as to the best steps to take regarding such diseases.

Arrangements have been made for the diagnosis and preliminary treatment of the diseases, and for the admission of officers, when necessary, as in-patients at the Hospital for Tropical Diseases, Endsleigh Gardens, N. W. 1. A report is furnished to officers by the Hospital, which they can take with them to their own Medical adviser to enable him to carry out the treatment suggested. The cost of the examination and preliminary treatment at the Hospital, and also that of the accommodation supplied to officers admitted as in-patients, is defrayed by the India Office. The Hospital is, however, permitted to charge a special extra fee to senior officers of the Civil Department who on admission as in-patients, are, at their own request given special accommodation. This extra fee is payable by the officer himself, the India Office paying that portion only of the total charge which represents the cost of ordinary, as distinct from special, accommodation.

To secure these advantages, however, a recommendation to the Hospital for Tropical Diseases by the Medical Board is necessary, and, therefore, Government servants who wish to avail themselves of this arrangement should apply to appear before the Medical Board of the India Office as soon as possible after arrival.

Where the sample is drawn from an original unopened receptacle containing petroleum not in bulk an opening sufficiently large to admit of the sample being rapidly transferred from the receptacle shall be made.

(2) Two bottles, each of the capacity of about 40-fluid ounces, shall be filled to three-quarters of their capacity with the sample and corked. The corks shall be well driven home and cut off level with the neck; and melted sealing wax shall be worked into the corks and the bottles shall be efficiently sealed.

(3) In the case of petroleum imported by sea the bottles containing the sample shall, after being sealed, be labelled with the name of the ship, the name of the consignee, and such other distinguishing marks as may be necessary.

153. *Forwarding and retention of samples.*—One of the bottles referred to in sub-rule (2) of rule 152 shall be preserved for reference in case of need and the other shall be forwarded to the testing officer.

154. *Procedure for delivery of samples from ship's cargo.*—(1) When the master of, or the agent for, a ship has made the declaration required by rule 8, the sampling officer shall go on board the vessel and obtain samples of all the petroleum on board which it is intended to land at the port. If the importer so desires the sampling officer shall also take samples of all the petroleum on board which it is intended to land at any other port in British India:

Provided that no samples need be taken in the case of petroleum which is declared to be dangerous.

(2) The master shall deliver to the sampling officer, without charge, samples of every variety of petroleum comprised in the petroleum of which samples are to be taken under sub-rule (1). Such samples shall, if the sampling officer so requires, be taken from the particular receptacles indicated by him:

Provided that when the petroleum is in cases, samples may be taken as delivery proceeds.

Plan No. , dated

Decription of the licensed premises referred to above.

The licensed premises are situated and consist of a gas-tight tank (tanks) of a capacity of gallons sunk underground.

Date of renewal.	Date of expiry.	Signature of Licensing Authority.

*Not applicable to kerbside outfits.

Conditions of Licence.

1. The petroleum shall be stored in a gas-tight metal tank (tanks) of a capacity of gallons sunk completely underground in the position shown on the plan attached hereto and each placed in a masonry or concrete pit, the tank being packed round with sand, earth or clay so that no air space is left between the tank and the masonry or concrete pit and the tank is not visible. Such masonry or concrete pit shall not be obligatory if the tank is a welded one tested up to a pressure of 3 lbs. per square inch and is buried and is on private, leased or rented land away from public traffic. The space over the buried tanks must not be used for any purpose.

2. There shall be no openings in the tank (tanks) other than those necessary for the introduction or removal of the petroleum or for ventilating or dipping the tank (tanks). The filling and dipping pipes shall be carried down nearly to the bottom of the tank (tanks).

3. The tank (tanks) shall be fitted with a vent pipe leading into the open air. The vent pipe shall be securely supported and shall be not less than 12 feet in height. The upper opening shall be covered with fine copper or other non-corroding metal wire gauze or mesh not less than 28 to the linear inch and fitted with a hood or the upper opening shall be fitted with an inlet valve and an exhaust valve.

4. No pump or tank shall be erected inside a building and, if prior to the introduction of these rules any tank is installed inside a building, it shall only be filled from a tank wagon through an underground filling pipe having a filling point in the open air at a distance of not less than 12 feet from the building.

5. No alteration or change by replacements of pumps or tank shall be effected without the previous sanction in writing of the licensing authority. Such alterations or changes so sanctioned shall be shown on an amended plan to be attached to this licence.

6. The petroleum shall enter the tank (tanks) 'under seal' and shall not be supplied to the tank between the hours of sunset and sunrise except by a motor tank wagon of a type approved by the Chief Inspector for the purpose and with the approval in writing of the licensing authority.

NOTE.—A pipe supplying liquid to a tank is 'Under-seal' to that tank if it is screwed to the tank or otherwise attached so that no liquid or vapour can escape into the air.

7. No petroleum shall be removed from the tank (tanks) except by means of the pump (pumps) at the position marked on the plan hereto attached. The pump (pumps) shall together with its connections and fittings be so constructed and maintained as to be gas and petroleum-tight. The pipe connections between the tank and the pump shall be placed underground.

8. For the purpose of charging the tanks of motor vehicles the petroleum shall only be supplied by being—

(*a*) pumped through strong metal piping by means of approved pumps into above-ground measuring tanks of a capacity not exceeding 30 gallons, fixed in approved positions, and run thence through sound hose, fitted with secure self-closing cock and nozzle, into the tanks of motor vehicles, or

(*b*) pumped through strong metal piping by means of approved pumps into an above-ground service tank of approved capacity, fixed in an approved position, and run thence through strong metal piping into measuring tanks of a capacity not exceeding 30 gallons fixed in approved positions and thence through sound hose, fitted with secure self-closing cock and nozzle, into the tanks of motor vehicles, or

(*c*) pumped by means of approved measuring pumps, fixed in approved positions, through sound hose fitted with secure tap and nozzle, into the tanks of motor vehicles.

9. Petroleum may be supplied to a motor vehicle between the hours of sunset and sunrise from the pump provided the lights of the vehicle receiving the petroleum are extinguished and the pump and the vehicle are illuminated by electric light or failing this by some other form of lighting, provided that no light capable of igniting inflammable vapour is situated or brought within a distance of twelve feet of the pump or vehicle receiving the petroleum.

10. Except when absolutely necessary for the purposes of condition 11 or for testing the accuracy of the pump's discharge by means of a standard capacity measure petroleum shall, on no account, be filled from the tank or pump into any receptacle other than that clamped or fitted to a motor vehicle.

11. The tank (tanks), before being repaired, shall be cleared of all petroleum and of all inflammable vapours. When a tank in position is open for cleaning or repairs no lamps of any description either ordinary, electric, electric torches or electric cables or electric fans shall be brought near the manhole of the tank until the tank has been certified in writing to be 'gas free' by a qualified Chemist or Engineer (the inside of the tank may be lighted by the use of mirrors).

12. If the licensing authority calls upon the holder of a licence by a notice in writing to execute any repairs to the licensed premises which may, in the opinion of such authority, be necessary for the safety of the said premises, the holder of the licence shall execute the repairs within such period, not being less than one month from the date of receipt of the notice as may be fixed by the notice.

13. This licence shall be held to cover the use of a portable kerbside pump outfit for a period of not more than one month in the place of the licensed permanent outfit in the event of the latter being out of

order, provided notice in writing is given to the licensing authority before the portable pump is taken into use, and the conditions of this licence which apply to a portable pump are observed. No petroleum shall be allowed above ground (except that actually in the pump) in all cases where the underground tanks can be used in connection with the portable pump by making a temporary connection from the portable pump to the underground tank.

14. In cases where portable pumps are used not more than two barrels of petroleum in reserve shall be kept within 20 feet of the pump or on public property nearby.

15. All due precautions shall be taken at all times for the prevention of unauthorised persons from having access to the petroleum or to the vessels containing or having actually contained the same.

16. No artificial light capable of igniting inflammable vapour shall at any time be present in the immediate vicinity of the tank wagon during the transfer of the petroleum to the tank and no person engaged in such transfer shall smoke. When the underground tank is filled with petroleum from barrels no such light shall be allowed within a distance of 20 feet from the barrels.

Petroleum shall not be placed in any motor vehicle while the engine is running and persons in and engaged in connection with such motor vehicle shall not be permitted to smoke.

17. Every person managing or employed on or in connection with the licensed premises shall abstain from any act whatever which tends to cause fire or explosion and which is not reasonably necessary and, to the best of his ability shall prevent any other person from doing such act.

18. Every care shall be taken to prevent any petroleum escaping into any drain or sewer.

19. Free access to the licensed premises shall be given at all reasonable times to any of the officers authorised under sections 13 and 14 of the Act and every facility shall be afforded to such officer for ascertaining that the rules and the conditions of this licence are duly observed.

20. Any accident, fire or explosion occurring within the licensed premises, which is attended with loss of human life or serious injury to person or property shall be reported immediately to the nearest Magistrate or to the Officer-in-charge of the nearest Police Station by telegraph or telephone.

21. No person under the age of 15 years shall be employed in or shall enter the licensed premises except in the presence of and under the immediate supervision of some grown up person.

22. The licensee shall provide for each pump, whether kerbside or portable, a minimum of two tins or drums of sand which shall be kept ready for extinguishing fires.

Description of the place referred to above.

Date of renewal.	Date of expiry.	Signature of licensing authority.

This licence is liable to be cancelled if the licensed premises when inspected are not found conforming to the description and conditions attached hereto and contravention of any of the rules and conditions under which this licence is granted is also punishable with fine which may extend to five hundred rupees for a first offence and which may extend to two thousand rupees for any subsequent offence.

Conditions of Licence.

1. All due precautions shall be taken at all times for the prevention of accident by fire or explosion.

2. No person under the age of 15 years shall be employed in or shall enter the installation except in the presence of and under the immediate supervision of some grown up person.

3. Free access to the licensed premises shall be given at all reasonable times to any of the officers authorised under sections 13 and 14 of the Act and every facility shall be afforded to such officer for ascertaining that the rules and the conditions of this licence are duly observed.

4. Any accident, fire or explosion occurring within the area specified in the licence, which is attended with loss of human life or serious injury to person or property shall be reported immediately to the nearest Magistrate or to the Officer-in-charge of the nearest Police Station by telegraph or telephone.

5 No alterations shall be carried out in the installation without the previous sanction in writing of the licensing authority. Such alterations so sanctioned shall be shown on an amended plan to be attached to this licence.

6. If the licensing authority calls upon the holder of a licence, by a notice in writing, to execute any repairs to the licensed premises, which may, in the opinion of such authority, be necessary for the safety of the said premises, the holder of the licence shall execute the repairs within such period, not being less than one month from the date of receipt of the notice as may be fixed by the notice.

7. The responsible agent or supervisor referred to in rule 91 shall not allow any person to enter a tank, which has contained petroleum, unless—

(*a*) such person wears a safety helmet of a description approved by the Chief Inspector, or

(*b*) (*i*) the responsible agent or supervisor has certified in writing, as the result of an examination of the tank by himself or by some other competent person, that the atmosphere in the tank is fit for persons to enter, and

(*ii*) at least one safety helmet of a pattern approved by the Chief Inspector shall have been kept ready for instant use at the manhole of the tank which is being cleaned or repaired.

8. No work, involving the use of fire, welding or hot rivetting, shall be performed in or on any tank until the tank has been certified in the manner laid down in clause (*b*) of condition 7 to be free from petroleum vapour. When any water is pumped into or withdrawn from the tank no further work of the above description shall be done until the tank has been re-tested and a fresh certificate issued. When a tank is open for cleaning or repairs no lamps of any description either ordinary, electric, electric torches or electric cables or fans other than of a flame-proof type as defined by the British Engineering Standards Association in their Specification No. 229 shall be brought near the tank.

9. No person shall repair or cause to be repaired any receptacle or pipe in which to his knowledge, any petroleum is or has been kept until he has taken all reasonable precautions to ensure that the receptacle or pipe has been rendered free from petroleum and any inflammable vapour:

Provided that this condition shall not be deemed to prohibit the usual soldering operations connected with the filling and despatching of petroleum receptacles.

10. (*a*) Dangerous petroleum otherwise than in bulk shall be imported and/or stored in gas-tight tinned, galvanised or otherwise rust-proofed sheet iron or steel receptacles of not more than 65 gallons capacity and fitted with well made filling apertures and well-fitting screw plugs, or with screw caps or other caps with metal air-tight under caps. The receptacles shall be of a type approved in writing by the Chief Inspector and shall have the following thickness of metal:—

	Not less than
Capacity not exceeding 2 gallons	.. 27 B.G.
Exceeding 2 but not exceeding 4 gallons	.. 22 B.G.
Exceeding 4 but not exceeding 30 gallons	.. 18 B.G.
Exceeding 30 but not exceeding 45 gallons	.. 17 B.G.
Exceeding 45 gallons	.. 16 B.G.

(*b*) All receptacles shall be kept in proper repair and shall be available for inspection at any time by the Chief Inspector or an Inspector.

(*c*) All receptacles shall be so substantially constructed and secured as not to be liable, except under circumstances of gross negligence or extraordinary accident to be broken or become defective, leaky or insecure in transit and shall have a stamped, embossed, painted or printed warning exhibiting in conspicuous characters the words "Petrol" or "Motor Spirit" or an equivalent warning of the dangerous nature of the petroleum.

(*d*) An air-space of not less than one-twentieth of its capacity shall be left in each drum or other receptacles containing dangerous petroleum.

11. Petroleum shall be kept only in the storage tanks and storage and filling sheds or other approved places within the installation specified for the purpose on the plan attached hereto.

12. Storage or filling sheds shall be constructed of suitable uninflammable material. The building shall rest on foundation walls and shall be surrounded by a wall or embankment of substantial construction or the walls and floor shall be suitably finished to form a well or enclosure not more than two feet deep. A combination of these methods is permissible. The enclosure or well thus formed shall be of sufficient capacity to contain the total quantity of petroleum liable at any time to be present in the building and shall be so constructed and maintained as to prevent the escape therefrom of any petroleum in the form of liquid whether under the action of fire or otherwise. In the case of dangerous petroleum or partly dangerous and partly non-dangerous petroleum the enclosure or well shall be

capable of receiving and retaining a volume not less than 5 per cent. in excess of the maximum quantity allowed in the building. The wells and enclosures must be kept clean and free from any accumulation of inflammable liquids.

13. The tank or tanks shall be supported on an approved foundation and shall be surrounded by a wall or embankment of substantial construction, or shall be partially sunk in an excavation. The enclosure thus formed shall contain only one of the following classes of petroleum, shall be of dimensions sufficient to contain the quantity of petroleum specified under the class to be stored and shall be so constructed and maintained as to prevent the escape therefrom of any petroleum in the form of liquid, whether under the action of fire or otherwise—

(*a*) *Dangerous petroleum*—10 per cent. more petroleum than the tank or tanks are capable of containing;

(*b*) *Non-dangerous petroleum other than heavy petroleum*—the amount of petroleum the tank or tanks are capable of containing;

(*c*) *Heavy petroleum*—the amount of petroleum the largest tank in the enclosure is capable of containing:

Provided that heavy petroleum may be stored in the same enclosure as non-dangerous petroleum other than heavy petroleum if the dimension under (*b*) above is observed:

Provided also that the Chief Inspector may limit the number of tanks in an enclosure where in his opinion there are circumstances that warrant such limitation. Except for the necessary pipes and valves the space within an enclosure and not occupied by the tank or tanks, shall be kept entirely clear and unoccupied. Alternatively gas-tight metal tanks may be sunk completely underground the tanks being packed round with sand, earth or clay, so that no air space is left below ground level and the tank is not visible. Tanks so buried shall not be required to maintain the safety distances laid down in condition 18 but the space over the buried tanks must not be used for any purpose. The filling and dipping pipes in an underground tank shall be carried down to the bottom of the tank.

14. Every care shall be taken to prevent any petroleum escaping into any drain, sewer, harbour, river or water course and enclosures or wells must not be permanently connected with any drain or sewer.

15. Pumps shall be placed only in the positions shown on the plan attached hereto and they shall together with all connections and fittings be so constructed and maintained as to prevent leakage of petroleum.

16. All tanks shall be fitted with a vent pipe leading into the open air, the open end being covered with fine copper (or other non-corroding metal) wire gauze of mesh not less than 28 to the linear inch, and

fitted with a hood or the open end shall be fitted with an approved relief valve or other approved means provided to prevent dangerous internal or external pressures being produced.

17. Cast iron valves are not permitted on any tank and all valves in an installation must be permanently marked in a manner clearly indicating the direction of opening and shutting the valve.

18. The following safety distances shall be observed:

(*N.B.*—The distances will be required to be kept clear not merely on the first establishment of the premises but during the continuance of the licence.)

A distance of not less than 100 feet shall be kept clear between a storage tank and any other storage tank or between such a storage tank and a storage or filling shed, the distance being measured between the nearest points of the perimeters of the storage tanks or storage or filling sheds, as the case may be.

A distance of not less than 150 feet shall be kept clear between any storage tank or storage or filling shed and any protected work:

Provided that—

(*i*) Where the quantity of dangerous petroleum or partly dangerous and partly non-dangerous petroleum not in bulk to be stored in a storage shed does not exceed 50,000 gallons the following reduced distances may be kept clear between the shed or enclosure wall and any other building forming part of the installation, any protected work or any storage tank containing non-dangerous petroleum having a capacity not exceeding 50,000 gallons:—

	Feet.
Not exceeding 1,000 gallons	20
Exceeding 1,000 gallons but not exceeding 10,000 gallons ..	30
Exceeding 10,000 gallons but not exceeding 20,000 gallons	40
Exceeding 20,000 gallons but not exceeding 30,000 gallons	50
Exceeding 30,000 gallons but not exceeding 40,000 gallons	60
Exceeding 40,000 gallons but not exceeding 50,000 gallons	70

(*ii*) When a storage tank containing non-dangerous petroleum has a capacity not exceeding 100,000 gallons, a distance of not less than 50 feet may be kept clear between it and another such tank of similar or less capacity or between it and a storage or filling shed containing non-dangerous petroleum.

Such a storage tank and storage or filling shed may, where the total quantity stored does not exceed 200,000 gallons, keep a distance of not less than 50 feet clear between the enclosure wall or embankment and any protected works.

(*iii*) When a storage tank containing non-dangerous petroleum has a capacity not exceeding 50,000 gallons, a distance of—

(*a*) for horizontal tanks, not less than one-third;

(*b*) for perpendicular tanks, not less than one-half, the height of the tank may be kept clear between it and another such tank or between such a tank and a storage or filling shed wherein non-dangerous petroleum is stored in quantity not exceeding 50,000 gallons.

Such a storage tank and storage or filling shed may, where the total quantity stored does not exceed 100,000 gallons, keep a distance of not less than 20 feet clear between the enclosure wall or embankment and any protected works.

(*iv*) In the case of heavy petroleum a distance of not less than 20 feet may be kept clear between one storage tank and another such tank or between a storage tank and a storage or filling shed containing such petroleum and a distance of not less than 50 feet shall be kept clear between such storage tank or filling or storage shed and any protected works. When the total quantity stored in such storage tank and storage or filling shed does not exceed 100,000 gallons, half the distances given in clause (*iii*) for the like quantity of non-dangerous petroleum other than heavy petroleum may be observed.

19. The distances specified in condition 18 may be amended by the licensing authority in cases where screen walls are provided or other special precautions taken or where there are special circumstances that, in his opinion, warrant the alteration.

20. Notwithstanding anything herein to the contrary when petroleum is stored in an installation at or near wells, pumping stations or refineries, the concessions in provisos (*i*), (*ii*), (*iii*) and (*iv*) of condition 18 shall not apply and no storage tank, the capacity of which exceeds 50,000 gallons or any storage or filling shed shall be placed nearer than 300 feet to any still, boiler, furnace or fire. In such an installation all tanks shall be situated on a compact area under a single control and enclosed or capable of being enclosed by one continuous fence on which there shall be no protected works.

21. No more tins shall be allowed in the filling and soldering sheds at any one time than are necessary for expeditious working.

22. All empty receptacles which have contained dangerous petroleum shall be kept securely closed unless they have been thoroughly cleaned and freed from petroleum and inflammable vapour.

METHODS OF TESTING PETROLEUM.

Determination of Flashing-Point.

[*See Rules 156 and 159.*]

I. APPARATUS TO BE USED.

The flashing-point of petroleum and petroleum mixtures which are fluid at 50° F. and which flash not above 120° F. shall be determined by the Abel apparatus as hereinafter defined.

The flashing-point of petroleum and petroleum mixtures which are solid at 50°F. and which flash not above 120°F. shall be determined by the Abel apparatus, the test being modified as hereinafter described.

The flashing-point of petroleum and petroleum mixtures which flash above 120°F. shall be determined by the Pensky-Martens apparatus as hereinfater defined.

II. PREPARING THE SAMPLES FOR TEST.

About ten fluid ounces of the sample, sufficient for three tests, should be transferred from the bottle into which the sample has been drawn to a pint flask or bottle, which should be immersed in water artificially cooled until a thermometer, introduced into the sample indicates a temperature not exceeding 50°F.

III. (1) ABBEL APPARATUS.

The apparatus to be employed shall be the Abel petroleum testing apparatus modified by having an oil cup provided with a stirrer. It shall be constructed to the dimensions herein specified within the limits of accuracy prescribed by the tolerances set forth below.

Oil Cup.—The oil cup consists of a cylindrical vessel open at the top and fitted on the outside with a flat circular flange projecting at right angles.

Within the cup, fixed through the wall and silver soldered or brazed in place, there is a gauge consisting of a piece of wire bent upwards and terminating in a point.

Material.—Brass or gun-metal.

a slide moves, and a white bead. The top of the cover is pierced by three rectangular holes symmetrically placed on a diameter, one in the centre and the other two as close as practicable to the inner sides of the cover-rim and opposite each other. These three holes are covered or uncovered by means of a slide moving in suitably disposed guides. The slide has two perforations, one corresponding in all particulars to the centre hole in the cover and the other to one of the holes at the side. The movement of the slide is restricted by suitable stops, and its length and the disposition of the holes are such, that at the outer extremity of the movement of the slide, the holes in the cover are simultaneously just completely opened and at the inner extremity of the movement of the slide they are completely closed.

The trunnions supporting the test-lamp are fixed on the top of the guides and the lamp is mounted in the trunnions so that it is free to oscillate. The lamp is provided with a jet to contain a wick and is so arranged that when the slide is moved so as to uncover the holes, the oscillating lamp is caught by a pin fixed in the slide and tilted over the central hole in such a way that the lower edge of the cover

bisects the circle formed by the bore of the jet when in the lowest position. The flame then occupies a central position within the hole in both directions.

A suitably mounted gas-jet may be substituted for the lamp.

The thermometer socket is in the form of a split tube, mounted on a diameter at right angles to the diameter through the centre of the holes, and fitted at such an angle as to bring the bulb of the thermometer, when in place, vertically below the centre of the cover and at the correct distance from it.

A white bead, the dimensions of which represent the size of test flame to be used, is mounted in a visible position on the cover.

Materials.—All parts excepting bead, brass or gun-metal. Bead, ivory or other suitable material.

Cover fitted with Stirrer.—Provision may be made in the cover for the reception of a stirrer which projects into the oil cup, for use with viscous materials only.

A bush is mounted on the cover in a position diametrically opposite the thermometer mounting, and its length is such and it is set at such an angle that the stirrer rod clears the oil-level gauge and the blades operate below the level of, and without fouling, the thermometer bulb. The bush is placed as near as practicable to the outer edge of the cover.

The stirrer consists of a round stem having four blades or vanes silver soldered in place at one end. A collar is fixed on the stem so that when the stem is inserted into the bush from below, it is arrested at a position such that the correct length protrudes into the oil cup. The top end of the stem is reduced and screwed.

A long sleeve having an internally screwed, knurled knob soldered to its upper end, is passed over the upper end of the stem and screwed home. The length of the sleeve is such that flat-faced collar at its lower end just comes into contact with the upper end of the bush, leaving the stirrer free to rotate without appreciable vertical play.

A flat-headed cylindrical plug is provided for insertion in the bush when the stirrer is not in use.

Material.—Brass or gun-metal.

Heating Vessel.—The heating vessel or bath consists of two flat-bottomed cylindrical copper vessels placed coaxially one inside the other and soldered at their tops to a flat copper ring, greater in outside diameter than the larger vessel and of smaller inside diameter than the

smaller vessel. The space between the two vessels is thus totally enclosed and is used as a water jacket.

An ebonite or fibre ring of right-angle section is fitted into the hole in the centre of the flat ring forming the top of the bath and, when the apparatus is in use, the oil cup fits into, and its flange rests upon, this ebonite or fibre ring so that the oil cup is centrally disposed within the heating vessel. The ebonite or fibre ring is secured in place by means of six small screws having their heads sunk below the surface of the ring, to avoid metallic contact between the bath and the oil cup.

A split socket, similar to that on the cover of the oil cup, but set vertically, allows a thermometer to be inserted into the water-space. A funnel and overflow pipe also communicate with the water-space through the top plate and two loop handles are provided thereon.

The bath rests upon a cast-iron tripod stand, to the ring of which is attached a cylindrical copper jacket not less than 24 I.W.G. flanged inwards at the top, and of such dimensions that the bath, while resting firmly on the iron ring, just touches with its outward projecting flange the inward-turned flange of the jacket. Two handles are provided on the outer jacket.

Diameter of the outer jacket 6·5 inches ± 0·1 inch.

Spirit Lamp.—A spirit lamp is provided for raising the temperature of the water bath, but any other suitable means may be employed for this purpose.

Thermometers.—Two thermometers are provided, the one for ascertaining the temperature of the bath, the other for determining the flashing-point.

III. (2) METHOD.

(1) FOR PETROLEUM FLASHING BELOW 90° F.

The test apparatus shall be placed for use in a position where it is not exposed to currents of air or draughts.

The heating vessel or water-bath shall be filled by pouring water into the funnel until it begins to flow out at the spout of the vessel. The temperature of the water at the beginning of the test shall be 130° F., and no heat shall be applied to the water-bath during the test. When a test has been completed and it is desired to make another test the water-bath shall be again raised to 130° F., which may conveniently be done while the petroleum cup is being emptied, cooled and refilled with a fresh sample to be tested. The next test is then proceeded with.

If an oil test-lamp is being used it shall be prepared by fitting it with a piece of flat plaited candlewick and filling it with colza or rape oil up to the lower edge of the opening of the spout or wick tube. The lamp shall be trimmed so that when lighted it gives a flame of about 0·15 of an inch diameter, and this size of flame, which is represented by the projecting white bead on the cover of the oil-cup is readily maintained by simple manipulation from time to time with a small wire trimmer. A gas test-flame may be employed, and if so, the size of the jet of flame shall be adjusted to the size laid down above.

The bath having been raised to the proper temperature, the cup shall be placed on a level surface in a good light, and the oil to be tested shall be poured into it, until the level of the liquid just reaches the point of the gauge which is fixed in the cup. Before a test is begun the temperature of the oil shall be determined and shall be brought to approximately 50° F. The cover, with the slide closed, shall then be put on to the cup and pressed down so that its edge rests on the rim of the cup, and the cup shall be so placed into the bath or heating vessel, every care being taken to avoid wetting the sides of the cup with the oil. The thermometer in the lid of the cup has been adjusted so as to have the correct immersion when the brass collar of the thermometer is properly seated, and its position shall not in any circumstances be altered. When the cup has been placed in the proper position, the scale of the thermometer faces the operator.

The test-lamp shall then be placed in position upon the lid of the cup. When the temperature has reached 56° F. the operation of testing shall be begun, the test flame being applied once for every rise of one degree, in the following manner:—

The slide shall be slowly drawn open while a metronome, set at 75 to 80 beats per minute, beats three times and shall be closed during the fourth beat. A pendulum of 24 inches effective length may be used in place of the metronome, counting one beat from one extremity of the swing to the other.

The barometric pressure shall be observed and recorded. No corrections shall be made except in case of dispute.

(2) FOR PETROLEUM FLASHING BETWEEN 90° F. AND 120° F.

The air-chamber which surrounds the oil-cup shall be filled with cold water at a depth of 1.5 inches, and the heating vessel or water-bath filled as usual, but also with cold water. The lamp shall then be placed under the apparatus and kept there during the entire operation, and the temperature of the oil raised at the rate of 2° F. to 2.25° F. per minute, the testing being carried out as laid down in the previous section, except that the test flame shall first be applied when the temperature has reached 80° F.

(3) FOR SOLID PETROLEUM MIXTURES.

Solid Petroleum Mixtures are to be tested in the Abel apparatus in the following manner:—

The solid mixture must be cut into cylinders 1.5 inch long and 0.25 inch in diameter by means of a cork borer or other similar cutter having the correct internal diameter. These cylinders are to be placed in the petroleum cup of the testing apparatus in a vertical position in such number as will completely fill the cup. The cylinders must be in contact with one another, but must not be so tightly packed as to be deformed in shape.

Five or six of the cylinders in the centre of the cup must be shortened to 0.5 inch to allow space for the thermometer bulb.

The air bath of the testing apparatus must be filled to a depth of 1.5 inch with water. The water bath must then be raised to, and maintained at, a temperature of about 80° F.

The cup must then be placed in the air bath, and the temperature of the sample must be allowed to rise until the thermometer in the oil-cup shows 75° F., when the test flame must be applied.

If no flash is obtained, this temperature must be maintained constant in the oil-cup for one hour, at the expiration of which time the test flame must again be applied.

If a flash is obtained, the solid mixture will be subject to the provisions of the Petroleum Act, 1934.

Note.—It may, in many cases, save time in testing samples of petroleum mixtures to apply the test flame after the sample has been a few minutes in the cup and while still at the temperature of the room in which the test is being carried out, provided that this temperature is below 76° F. If a flash is obtained by this means, it is unnecessary (*for the purpose of the Petroleum Act*) to proceed with the test at a higher temperature.

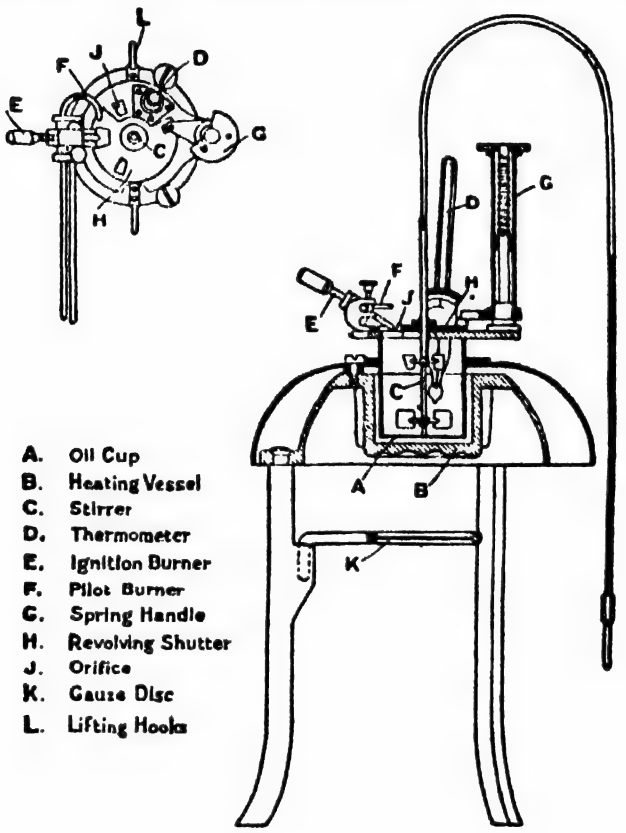
IV. (1) THE PENSKY-MARTENS APPARATUS.

The standard Pensky-Martens Closed Tester shall be used for determining the flashing-point of all petroleum products having a flashing-point above 120° F.

Every instrument shall be marked with the letters I.P.T., an identification number (on the cup, cover and top plate) and the name of the maker or vendor, such stamping implying a guarantee that the instrument complies with the requirements specified below.

The Pensky-Martens Tester shall include the following major parts:—

Cup.—The cup of the standard Pensky-Martens Tester shall be made of brass and shall satisfy the following dimensional specifications:—



THE PENSKY-MARTENS CLOSED TESTER.

Stirring Device.—The lid shall be equipped with a stirring device consisting of a vertical steel shaft, not less than 0·1 in. nor more than 0·125 in. in diameter, mounted in the centre of the cup, carrying two two-bladed brass propellers, and provided with any convenient means for operating. The blades of both propellers shall be approximately 0·3 in. wide and shall be set at an angle of approximately 45°. The smaller (upper) propeller shall have an over-all diameter of approximately 0·75 in. The larger (lower) propeller shall have an over-all diameter between 1·25 and 1·75 in. The thickness of the propeller blades shall be not less than 0·048 in. nor more than 0·08 in., which limits correspond respectively to No. 18 and No. 14 S.W.G. The propeller blades shall be brazed or hard soldered to collars on the vertical shaft and the collars shall have horizontal and vertical dimensions not greater than 0·4 in.

The plane of the centre of the upper propeller shall be 0·4 in. below the level of the rim of the cup. The plane of the centre of the lower propeller shall be 2·0 in. below the level of the rim of the cup. The level of the rim of the cup is in effect the level of the plane part of the portion of the lower surface of the lid inside the rim.

Cover proper.—The cover proper shall be of brass and shall have a rim projecting downward almost to the flange of the cup and fitting the outside of the cup closely. The thickness of the cover, measured just inside the rim, shall be not less than 0·03 in. nor more than 0·08 in. There shall be a proper locating device engaging with a corresponding locating device on the flange of the cup.

There shall be four openings in the cover.

Opening A is an area defined by arcs of two concentric circles and the intersected lengths of two radii. The radius of the outer circle shall be not less than 0·94 in. nor more than 0·97 in. The chord of the arc of the outer circle shall be not less than 0·5 in. nor more than 0·54 in.

Openings B and C are equal areas, each of the same general form as opening A but of approximately half the (angular) width. The radii of the defining inner and outer circles shall be within the limits specified for the radii of the two circles, arcs of which partially define opening A. The chord of the outer arc for opening B or opening C shall be not less

than 0·19 in. nor more than 0·22 in. The sum of the areas of openings B and C shall be not less than 75 per cent. nor more than 100 per cent. of the area of opening A.

U	,,	0·5 in.		
Angles *p*	Equal.			
Angle *r*	Minimum	135°,	maximum	140°.
,, *t*	,,	50°,	,,	60°.
,, *y*	,,	10°,	,,	15°.

COVER OF PENSKY-MARTENS TESTER.

Openings B and C shall be equally distant from opening A, and radii drawn through each of their centres shall be at an angle of not less than 135° nor more than 140°.

Openings A, B, and C need not conform exactly to the shape of geometrical figures bounded by arcs of two concentric circles and intersected length of radii. Their boundaries must, however, fall on or between the lines indicated by the limiting values of the dimensional specification of the preceding text.

Opening D is a split tube to grip the thermometer collar and shall be set at an angle of not less than 10° nor more than 15° from the perpendicular. Its centre is approximately 0·75 in. from the centre of the lid

and on a radius at an angle of not less than 50° nor more than 60° from the radius passing through the opening C. Its height shall be such that, when a standard thermometer is in position, the bottom of the bulb shall be 1·5 in., ±0·1 in., below the level of the rim of the cup (which corresponds to the lower surface of the portion of the lid inside the rim).

Shutter.—The lid shall be equipped with a brass shutter, approximately 0·1 in. thick, operating on the plane of the upper surface of the lid. The shutter shall be so shaped and mounted that it rotates on the surface of the lid about an axis normal to the lid, and through its centre, between two stops so placed that when in one extreme position the openings A, B, and C of the lid are completely closed and when in the other extreme position these openings are completely opened.

Flame exposure device.—The tip of the flame jet shall have an orifice 0·027 in. to 0·03 in. diameter. The flame-exposure device shall be equipped with an operating mechanism which, when the shutter is in the "open" position, depresses the tip so that the centre of the orifice is between the plane of the under and upper surfaces of the lid proper, at a point on a radius passing through the centre of the larger opening A and approximately 0·1 in. from the outer edge of the opening.

The test flame shall be approximately spherical and shall be regulated to be of the same mean diameter as a bead 0·16 in. in diameter of some suitable material mounted on the lid.

The mechanism operating the shutter should be of the spring type and constructed so that when at rest the shutter shall completely close the three openings. When operated to the other extreme the three openings in the lid shall be fully open and the tip of the exposure tube shall be fully depressed.

NOTE.—A pilot flame for automatic relighting of the test flame should be provided.

If the air bath is electrically heated, and gas is not available, an oil burner shall be used as the test flame, the position of which shall correspond with that of the gas flame previously specified.

Stove.—Heat shall be supplied to the cup by means of a properly designed stove which is equivalent to an air bath. This stove shall consist of (1) an air bath and (2) a top plate on which the flange of the cup rests.

Air bath.—The air bath shall have a cylindrical interior 1·625 in. to 1·66 in. deep and a diameter not less than 0·125 in. nor more than 0·156 in. greater than the outside diameter of the cup, with the minimum clearance of 0·05 in. The air bath shall be a flame-heated metal casting.

NOTE.—The casting shall be so designed and used that the temperature of bottom and walls is approximately the same. On this account it should be not less than 0·25 in. thick. The apparatus shall be designed so that products of combustion of the flame cannot come into contact with any part of the cup.

Top plate.—The top plate shall be of metal. The total distance from the upper surface of the plate to the bottom of the air bath shall exceed the distance from the under surface of the flange to the bottom of the cup by not less than 0·063 in. nor more than 0·125 in.

The top plate shall be mounted with an air gap between it and the air bath. The top plate may be attached to the air bath by means of three screws and spacing bushings. The spacing bushings should be of proper thickness to define the air gap which shall be not less than 0·125 in. nor more than 0·187 in. The spacing bushings shall be not more than 0·375 in. in diameter.

Thermometers.—A low range thermometer shall be used with the Standard Pensky-Martens Tester for determining the flashing point above 120°F. The thermometer shall comply with the specification given below.

The thermometers shall conform to the following general specification:—

Type.—Mercury in glass, except where otherwise stated. Engraved stem. Nitrogen filled.

Stem.—The stem shall be made of lead glass or other suitable glass. Enamel back.

Bulb.—The bulb shall be made of a suitable thermometric glass approved by the National Physical Laboratory. At present these glasses are:—

Expansion and Contraction Chambers. No contraction chamber shall be above the immersion line and no enlargement of the bore shall be within 10 mm. of the immersion line or of any part of the scale.

Graduation and Figuring.—The graduation lines shall be clearly etched, and of uniform thickness not exceeding 0·15 mm. The lines shall all be at right angles to the axis of the thermometer. When the thermometer is viewed from the front and in a vertical position the lines shall all finish on a line parallel to the axis on the left hand side. Certain of the graduation lines shall be extended on the right hand side but the shortest graduations shall not extend across the bore. When

*May be used up to 400°C. if a careful examination of the zero is made periodically.

the diameter of the tube permits the figures shall be upright when the thermometer is viewed from the front and in a vertical position, and should preferably be placed so that they would be intersected by the line to which they refer if it were extended.

Marking.—In addition to the special markings given in the table, each thermometer shall be marked with an identification number, and the maker's, or vendor's, name or trade mark:—

Name and special marking.	"I. P. T. P. M.—Low."
Dimensions—	
Stem, diameter	6-7 mm.*
Bulb, shape	Round.
Bulb, length	....
Bulb, diameter	8 mm. max.

Range	20° F. to 230° F.
Graduation	1° F.
Longer lines at each	5° F. and 10° F.
Figured at each	10° F.
Expansion chamber	Required.
Immersion	2·2 in.
Top finish	Glass ring.

Each thermometer shall be mounted securely in a thermometer collar so that from the under-side of this collar to the bottom of the bulb the distance is 2·1 in. (±0·05 in.). The thermometer collar shall have an outside diameter of 0·5 in., ±0·002 in., and a flange 0·1 in., ±0·01 in., in thickness. The cement used to fasten the thermometer into the collar shall be of such a nature that it will withstand the action of oil up to the highest temperature at which the thermometer is used.

*A swelling to be provided to ensure the location of the thermometer collar at the correct point.

Drying of the sample.

If gas oil or fuel oil is being tested, the sample shall be dried by the following method:—

One hundred grams of well-dried granular calcium chloride is placed in a dry wide-mouth stoppered glass bottle.

Two hundred and fifty millilitres* of the oil is then poured upon the calcium chloride. The stopper is secured in position by tying. The bottle is then well shaken and is stood in a vessel of water, the level of the water being up to about one-third of the height of the oil in the bottle. The water is next raised to a temperature of 50°C. (120°F.), and is maintained at this temperature for a period of seven hours, the bottle and its contents being well shaken up at intervals of about an hour. At the end of this treatment the bottle and its contents are allowed to cool to atmospheric temperature; the bottle is then opened and sufficient of the oil for test filtered through paper on a Buchner funnel.

IV. (2) METHOD.

All parts of the cup and its accessories shall be thoroughly clean and dry before starting the test. Particular care shall be taken to avoid the presence of any gasoline or naphtha used to clean the apparatus after a previous test.

The cup shall be filled with the oil to be tested up to the level indicated by the filling mark.

The lid shall be placed on the cup and the latter set in the stove. Care should be taken to have the locating devices properly engaged. The thermometer shall be inserted.

The test flame shall be lighted and adjusted so that it is of the size of a bead of 0·16 in. in diameter.

Heat shall be supplied at such a rate that the temperature read on the thermometer increases not less than 9 or more than 11 degrees per minute. The stirrer shall be turned at a rate of approximately 60 revolutions per minute.

Application of the test flame shall be made at each temperature reading which is a multiple of 2°F. up to 220°F. For the temperature range above 220°F., application shall be made at each temperature reading which is a multiple of 5°F. The first application of the test flame shall be made at a temperature at least 50°F. below the actual flashing-point. Application of the test flame shall be made by operating the device controlling the shutter and test-flame burner so that the flame is lowered in one-half second, left in its lowered position for one second, and quickly raised to its high position. Stirring shall be discontinued during the application of the test flame.

The flashing-point is taken as the temperature read on the thermometer at the time of the flame application that causes a distinct flash in the interior of the cup. The true flash must not be confused with the bluish halo that sometimes surrounds the test flame for the applications preceding the one that causes the actual flash.

*If a smaller quantity of oil is to be dried the amount of calcium chloride must be adjusted in proportion.

The barometric pressure shall be observed and recorded. No corrections shall be made except in case of dispute, when the flashing-point figure shall be corrected according to the following rule:—

For each inch (25·4 mm.) below 29·92 in. (760 mm.) barometric reading add 1·6°F. to the flashing-point.

For each inch (25·4 mm.) below 29·92 in. (760 mm.) barometric reading subtract 1·6°F. from the flashing-point.

V. THE FLASHING-POINT.

If a flash takes place at any temperature below 76°F. the temperature at which it occurs is noted. Two fresh portions of the sample are then to be successively tested in a similar manner and the results recorded. If no greater difference than two degrees Fahrenheit exists between any two of the three recorded results and if in no instance the flash has taken place within eight degrees Fahrenheit of the temperature at which the testing was commenced, the average of the three readings gives the flashing-point recorded by that particular instrument, but without either apparatus correction or thermometer correction. In the event of there being a greater difference than two degrees Fahrenheit between any two of the readings, or if the flash has occurred within eight degrees of the temperature at which the testing was commenced, the series of tests is to be rejected and a fresh series of three similarly obtained.

If, however, a flash has occured at or below 64°F. when the test was applied in the manner above described, the next test shall be commenced 10°F. lower than the temperature at which the flash had been previously obtained, and this procedure shall be continued until the results of three consecutive tests do not show a greater difference than two degrees Fahrenheit and until a flash has not occurred in any of the three tests within eight degrees Fahrenheit of the temperature at which the test was commenced. Provided always that if at the commencement of the series of tests a flash has occurred on the first application of the test-flame at 56° F. and if a flash has also occurred on the first application of the flame in each of the three successive tests in which the test-flame is first applied at 46°F. as above directed, the testing officer shall certify that the petroleum has a flashing-point below 47°F. and the sample shall be reported as "dangerous petroleum".

If a temperature of 76°F. has been reached without a flash occurring, the application of the test-flame is to be continued at every degree rise of temperature until a temperature of 89°F. has been reached. If no flash occurs up to this point, the test shall be continued on a fresh sample as in Section III (2) (2) above.

If no flash occurs up to 120°F., the flashing-point shall be determined by the Pensky-Martens apparatus and method, as described above.

The total increase as compared with the acreage in the Preliminary Forecast for 1936 is due to revision in the estimates for the three provinces.

Yield.—It is estimated that the crop will yield 8,735,800 bales of jute, exceeding last year's total (revised) by 1,496,200 bales.

The consolidated returns are as follows:—

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Forecast of the Jute Crop of Bengal, 1936.

[NOTE.—**On an average of the five years ending 1934-35, the area under jute in Bengal, to which this forecast relates, represents some 85·5 per cent. of the total area under jute in British India.**]

Season.—As indicated in the Preliminary Forecast, sowings were generally carried out under favourable circumstances. Subsequent conditions, on the whole, favoured growth and development in East Bengal. In parts of Mymensingh, Dacca, Tippera and Noakhali, a sudden rise of the river level induced cultivators to cut immature jute, but the rivers subsequently fell to the normal level. In North Bengal, the crop flourished well except in Darjeeling and Jalpaiguri, where excessive rain interfered with operations and reduced the yield. Recent floods in Pabna, Rajshahi and Malda did some damage in low lying tracts. In West Bengal, continuous rain affected the crop and growth was not uniform. Floods in Murshidabad and Nadia districts have damaged the crop in places. Steeping water has been sufficient and the quality of the fibre is better than it has been for several years in consequence.

Condition of the Crop.—With the exceptions noted above, the crop is good.

Area of the Crop.—The area under jute is estimated to be 2,180,800 acres as against 1,917,500 acres (revised) in 1935.

Outturn.—As in previous years, the percentage figures are calculated on the basis of divisional normals which remain as follows:—

	Bales per acre.
Dacca and Chittagong Divisions	3·7
Rajshahi Division	3·5
Presidency and Burdwan Divisions	3·2

The total outturn of the crop is estimated at 7,774,500 bales as against 6,538,000 bales (revised) last year.

Stocks.—It is reported that stocks outside Calcutta have been considerably reduced, the estimated amount being 3½ lakhs.

Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BIHAR.

Final Forecast of the Jute Crop of Bihar, 1936.

[NOTE.—**On an average of the five years ending 1934-35, the area under jute, to which the Bihar forecast relates, represents about 6·7 per cent. of the total area under jute in British India.**]

Acreage.—The final district returns of the six jute-growing districts of the province show an area under jute of 211,000 acres. Last year's estimate of the area under the crop was 128,400 acres.

Weather conditions.—In March light rain fell in all the jute districts. The fall was below the normal. In April light rain fell in all the jute districts. The fall was below the normal everywhere. In May rain fell in all the jute districts. The fall was above the normal everywhere. In June rain fell in all the jute districts. The fall was below the normal everywhere except Champaran and Muzaffarpur. In July rain fell in all the jute districts. The fall was above the normal everywhere except Bhagalpur and Purnea where it was slightly below the normal. In August rain fell in all the jute districts. The weather conditions are reported to have been favourable in the most important jute district of Purnea and also in other districts.

Outturn.—In the important jute district of Purnea the outturn of the crop has been estimated at 70 per cent. of the normal. Champaran reports 95 per cent., Muzaffarpur, Darbhanga, Bhagalpur and the Santal Parganas report 81, 33, 68 and 65 per cent., respectively.

I estimate that the outturn this year will be 70 per cent. of the normal. Recent enquiries about the normal outturn per acre show that the normal outturn per acre is $3\frac{1}{3}$ bales, and on this basis the gross outturn on 211,000 acres estimated to be under jute in this province comes to 495,000 bales against 319,300 bales (revised) last year. Adding 25,000 bales, the estimated imports from Nepal, the forecast figure for Bihar comes to 520,000 bales.

Director of Agriculture, Bihar.

Final Forecast of the Jute Crop of Orissa, 1936.

[NOTE.—**On an average of the five years ending 1934-35, the area under jute, to which the Orissa forecast relates, represents about 0·8 per cent. of the total area under jute in British India.**]

Acreage.—The final district returns of the two jute-growing districts of the province show an area under jute of 13,500 acres. Last year's estimate of the area under the crop was 17,200 acres.

Weather conditions.—In March light rain fell in Cuttack and Balasore. The fall was below normal. In April also light rain fell in both the districts. In May and June heavy rain fell in Cuttack and Balasore. In July, rainfall was below normal in Cuttack and above normal in Balasore. The weather conditions are reported to have been not favourable. The present condition of the crop is fair in Balasore district.

Outturn.—The outturn of the crop has been estimated at 65 and 50 per cent. of the normal in Cuttack and Balasore districts, respectively.

According to the estimates of the District Officers, the outturn of the crop this year will not be less than 64 per cent. of the normal. On the basis of 3½ bales. as the normal outturn per acre, the gross outturn on 13,500 acres estimated to be under jute in this province comes to 28,800 bales against 44,700 bales of last year.

DEPARTMENT OF AGRICULTURE, ASSAM.

Final Forecast of the Jute Crop of Assam, 1936.

[NOTE.—**On the average of the five years ending 1934-35, the area under jute in Assam represents some 5·9 per cent. of the total area under jute in British India.**]

Season.—After the issue of the Preliminary Forecast the condition of weather continued to be generally favourable for the crop. There were occasional heavy rains and local floods in some districts which affected the crop, specially in the low lying areas. On the whole, the condition of the crop is satisfactory and a better outturn than last year is expected.

Area.—The area has been estimated by the Deputy Commissioners to be 140,300 as compared with last year's actual area of 117,800 acres, and this year's preliminary forecast of 128,000 acres. The areas reported in the Preliminary Forecast have been revised in six districts.

Outturn.—The outturn per acre has been estimated to be 84 per cent. of the normal against 76 per cent. (revised) of last year. Taking 3·5 bales of 400 lbs. each of jute fibre as the normal yield per acre, the total produce of the province this year amounts to 412,500 bales against 312,600 bales (revised) of last year, or an increase of about 32 per cent.

Cachar (Plains)	200	200	200	78	84	500	600	Middle of August. Early.	The weather from June to August was generally favourable for the crop although flood caused a little damage in low lying areas. This accounts for the low outturn.
Sylhet ..	15,000	10,700	13,300	60	85	22,500	39,600	Middle of July. Early.	Increase in area is due to favourable weather at sowing time. Heavy rain in April and subsequent flood in June caused some damage to the crop and hence the low estimated outturn.
Goalpara ..	60,000	29,400	44,000	70	85	72,000	130,900	Last week of June. Early.	The area was underestimated in the preliminary forecast. The weather was generally favourable for the crop but some damage was done by flood in low lying areas.
Kamrup ..	28,000	21,200	25,900	70	75	59,300	66,400	First week of August. Normal.	The increase in area is due to favourable weather at sowing time. The weather from June to August was generally seasonable, in spite of the fact that there was a flood in June, which affected the crop to some extent. This is the cause of low estimated outturn.
Darrang ..	12,600	8,700	8,500	75	85	22,800	25,800	Last week of July. Normal.	The weather condition was rather dry in June but improved later on. The growth of the crop was hindered to some extent by heavy rain in the later part of the season, which caused the outturn to fall below the normal.
Nowgong ..	50,000	40,200	44,300	90	90	126,600	139,500	Middle of July. Normal.	The increase in area is due to rise in the price of jute last year. The weather was favourable for the crop and a good crop is anticipated.
Sibsagar ..	400	400	400	80	90	1,100	1,300	1st week of August Normal.	The weather condition was rather normal throughout the year for the crop and a better outturn than last year is expected.

NOTIFICATIONS.

No. 10401A.—2nd September 1936.—It is notified for general information that two vacancies in the Bengal Police Service will be filled from the examination to be held in February 1937 for recruitment of officers to the Bengal Civil Service (Executive), the Bengal Junior Civil Service, etc., the instructions regarding which were published in Government notification No. 9474A., dated the 21st August 1936.

No. 10349A.—2nd September 1936.—In exercise of the powers conferred by rules 44 and 54 of the Civil Services (Classification, Control and Appeal) Rules, the following rules are made by the Local Government:—

PART I.

General.

1. These rules shall be called the Bengal Subordinate Services (Discipline and Appeal) Rules, 1936.

2. They shall apply to all Subordinate Services and posts under the Government of Bengal other than services and posts manned by—

(1) persons employed occasionally or subject to discharge at less than one month's notice,

(2) persons for whose appointment and conditions of service special provision is made by or under any law for the time being in force, or,

(3) persons who have been excluded from the operation of the Civil Services (Classification, Control and Appeal) Rules by declaration of the Local Government under rule 4 of those Rules.

3. For the purposes of these rules "Government" means the Local Government as defined in section 134(*1*) of the Government of India Act, 1919.

4. All first appointments to the services or posts included in the Schedule to these rules shall be made by the authority mentioned in column 2 of that Schedule.

5. All first appointments to the Subordinate Services not included in the Schedule to these rules shall be made by the head of the office in administrative charge of the service or post.

NOTE.—If any doubt arises as to who is the head of the office for the purposes of this rule, the matter shall be referred to the Local Government, whose decision shall be final.

6. Nothing in these rules or in any rule made thereunder shall operate to deprive any person of any right or privilege to which he is entitled—

(*a*) by or under any law, or

(*b*) by the terms of any contract or agreement subsisting between such person and Government on the date these rules came into force.

PART II.

Discipline.

7. The following penalties may, for good and sufficient reason and as hereinafter provided, be imposed upon members of Subordinate Services, namely:—

(*i*) Censure.

(*ii*) Withholding of increments or promotion, including stoppage at an efficiency bar.

(*iii*) Reduction to a lower post or time-scale, or to a lower stage in a time-scale.

(*iv*) Recovery from pay of the whole or part of any pecuniary loss caused to Government by negligence or breach of orders.

(*v*) Suspension.

(*vi*) Removal from the civil service of the Crown, which does not disqualify from future employment.

(*vii*) Dismissal from the civil service of the Crown, which ordinarily disqualifies from future employment.

Explanation.—The discharge

(*a*) of a person appointed on probation, during the period of probation,

(*b*) of a person appointed otherwise than under contract to hold a temporary appointment, on the expiration of the period of the appointment,

(*c*) of a person engaged under contract, in accordance with the terms of his contract,

does not amount to removal or dismissal within the meaning of this rule.

8. Subject to the condition that no officer may be removed or dismissed by an authority subordinate to that by which he was appointed, the authorities specified in column 3 of the Schedule to these rules may impose the penalties specified in column 4 of that Schedule upon members of the services included in that Schedule.

9. Subject to the condition that no officer may be removed or dismissed by an authority subordinate to that by which he was appointed, the authority having power to make first appointments to the service or post in question may impose any penalty specified in rule 7 upon members of Subordinate Services not included in the Schedule to these rules.

10. (*i*) Without prejudice to the provisions of rule 55 of the Civil Services (Classification, Control and Appeal) Rules, no order imposing a penalty specified in rule 7, other than an order of censure or suspension pending proceedings or an order based on facts which have led to his conviction in a criminal court, shall be passed against a member of a subordinate service unless the officer concerned has been given an adequate opportunity of making any representation that he may desire to make and such representation, if any, has been taken into consideration before the order is passed:

Provided that the requirements of this sub-rule may, for sufficient reasons to be recorded in writing, be waived where there is difficulty in observing them and they can be waived without injustice to the officer concerned.

(*ii*) The authority imposing any penalty under these rules shall maintain or cause to be maintained a record showing—

(*a*) the allegations upon which he proceeded against the officer punished,

(*b*) the officer's representation, if any, and the evidence taken, if any,

(*c*) a recital of the officer's previous character as recorded in his service book or office records,

(*d*) the finding and the grounds thereof.

(*iii*) In the case of an officer who has been lent to the punishing authority, the latter shall consult the lending authority before exercising any power of punishment other than the power to suspend.

(*iv*) When the orders for punishments are passed by an authority other than the person conducting the enquiry into the conduct of the Government officer concerned, it will be sufficient if the authority passing orders of punishment definitely records his agreement or disagreement with the person by whom the enquiry was conducted.

PART III.

Appeals.

11. Every member of a Subordinate Service shall be entitled to appeal, as hereinafter provided, from an order—other than an order of the Local Government.—

(*a*) imposing upon him any of the penalties specified in rule 7; or

(*b*) discharging him in accordance with the terms of his contract

if he has been engaged on a contract for a fixed or for an indefinite period and has rendered under either form of contract continuous service for a period exceeding five years at the time when his services are terminated

12 Members of services included in the Schedule to these rules may appeal from orders passed in exercise of powers conferred by rule 8 to the authorities specified in column 5 of that Schedule.

NOTE.—If, owing to the conditions mentioned in rule 8, the authority ordering the removal or dismissal of an officer is higher than the authority specified in column 3 of the Schedule, then the officer shall be entitled to appeal to the authority immediately superior to the authority imposing the penalty. If any doubt arises as to who that authority is, the matter shall be referred to the Local Government whose decision shall be final.

13 Members of Subordinate Services not included in the Schedule to these rules may appeal from orders passed in exercise of powers conferred by rule 9 to the authority immediately superior to the authority imposing the penalty.

NOTE.—If any doubt arises as to who is the immediately superior authority for the purposes of this rule, the matter shall be referred to the Local Government whose decision shall be final.

14. A member of a Subordinate Service may appeal from an order of discharge of the kind referred to in rule 11(*b*) to the authority to whom he would have been entitled to appeal under these rules had the order been an order of dismissal.

15. The appellate authority shall consider—

(*a*) whether the facts on which the order was based have been established;

(*b*) whether the facts established afford sufficient ground for taking action; and

(*c*) whether the penalty is excessive, adequate or inadequate;

and after such consideration shall pass such order as it thinks proper.

16. Every person preferring an appeal shall do so separately and in his own name.

17. Every appeal preferred under these rules shall contain all material statements and arguments relied on by the appellant, shall contain no disrespectful or improper language, and shall be complete in itself. Every such appeal shall be addressed to the authority to whom the appeal is preferred, through the authority from whose order the appeal is preferred, and shall be submitted through the usual official channel.

18. An appeal may be withheld by an authority not lower than the authority from whose order it is preferred, if

(1) it is an appeal in a case in which under these rules no appeal lies, or

(2) it does not comply with the provisions of rule 17, or

(3) it is not preferred within six months after the date on which the appellant was informed of the order appealed against, and no reasonable cause is shown for the delay, or

(4) it is a repetition of a previous appeal and is made to the same appellate authority by which such appeal has been decided, and no new facts or circumstances are adduced which afford grounds for a reconsideration of the case:

Provided that in every case in which an appeal is withheld the appellant shall be informed of the fact and the reasons for it:

Provided also that an appeal withheld on account only of failure to comply with the provisions of rule 17 may be resubmitted at any time within one month of the date on which the appellant has been informed of the withholding of the appeal, and, if resubmitted in a form which complies with those provisions, shall not be withheld.

19. No appeal shall lie against the withholding of an appeal by a competent authority.

20. A list of appeals withheld under rule 18, with the reasons for withholding them, shall be forwarded quarterly by the withholding authority to the appellate authority.

21. An appellate authority may call for the records of any appeal withheld by an authority subordinate to it which under these rules may be made to it and may pass such orders thereon as it considers fit.

22. Nothing in these rules shall preclude the Local Government from revising, whether on its own motion or otherwise, any order passed by an authority subordinate to it in exercise of powers conferred on such authority by these rules.

23. Nothing in these rules shall operate to deprive any member of a subordinate service of any right of appeal which he would have had if these rules had not been made, in respect of any order made before these rules came into force. An appeal in respect of such an order pending on, or preferred after, the second September, 1936 shall be deemed to be an appeal under these rules, and rule 15 shall apply as if the appeal were from an order appealable under these rules.

24. Except under very special circumstances no pleader or agent should be allowed to appear either on behalf of Government or the accused either before the officer who conducts the enquiry or any officer to whom appeal may be made.

COMMUNIQUE.

The preparation of the electoral rolls for the Water Transport Trade Union constituency and the Railway Trade Union constituency of the Bengal Legislative Assembly has now been completed, and the rolls will be published in draft on the 15th September 1936. Although the rolls have been prepared from the materials furnished by the constituent trade unions and every effort has been made to make the rolls as complete and as accurate as possible, persons who consider themselves qualified to be included in the electoral roll of the Railway Trade Union constituency and the constituent trade unions forming the Water Transport Trade Union constituency are advised to inspect the rolls when published, to see if their names or the names of their nominees, as the case may be, are included. If such names are not entered, or if there are any inaccuracies in the entries, the persons or the trade unions in question are advised to prefer claims for inclusion of names in the rolls, or submit objections to entries which may be inaccurate or wrong.

2. For purposes of representation in the Bengal Legislative Assembly the following unions have been certified to be constituent trade unions:—

I. Registered trade unions of railway workers.

(1) Kanchrapara Railway Workmen's Union.

(2) E. B. Railway Indian Employees' Association.

(3) Bengal Nagpur Railway Indian Labour Union.

(4) E. I. Railway Employees' Association.

(5) Railway Press Workers' Union.

II. Registered trade unions of water transport workers.

(1) Indian Seamen's Union.

Members and officials of the constituent trade unions of railway workers named above and nominees of the constituent trade unions of water transport workers named above who possess the respective qualifications prescribed in paragraphs 19 and 20 of Part IV of the Government of India (Provincial Legislative Assemblies) Order, 1936, are entitled to registration of names in the rolls.

3. The rolls will be published in draft at the office of the Registrar of Trade Unions, Bengal, the Registering Authority and the Returning Officer of the constituencies, and also at the registered office of each constituent trade union.

4. Claims and objections must be preferred in prescribed forms and in the manner provided in Part III of the Bengal Legislative Assembly Electoral (Preparation, Revision and Publication of Electoral Rolls) Rules, 1936. All such claims and objections must be addressed and presented personally or by agent authorised in writing or sent by post to the Revising Authorities, whose names are given in notices with which the rolls are published. In the case of the Water Transport Trade Union constituency a claim may be preferred only by the Secretary or by an agent authorised in writing by such Secretary, of the constituent trade union concerned and by no other person.

5. The last date for submission of claims and objections is the 29th September 1936. Applications received after this date will not be entertained.

6. The forms on which claims and objections may be made can be obtained free of charge from the office of the Registrar of Trade Unions, Bengal, the office of the constituent trade unions, and also from the Reforms Office, Writers' Buildings, Calcutta. If any claims or objections are not submitted in prescribed forms they are liable to be rejected. There is, however, no objection to applications being made on typed forms if printed forms are not available.

7. All necessary particulars regarding the qualifications of electors, the method of publication and revision of rolls and the prescribed forms for claims and objections have been embodied in the Bengal Electoral Orders and Rules, copies of which can be purchased at four annas a copy from the Bengal Government Press (Publication Branch), 38, Gopalnagar Road, Alipore, or the Sales Office, Writers' Buildings, Calcutta.

No. 3598P.H.—12th September 1936.—The following draft of rules which, in exercise of the powers conferred by clauses (*n*) and (*nl*) of section 138 of the Bengal Local Self-Government Act, 1885 (Bengal Act III of 1885), the Government of Bengal (Ministry of Local Self-Government) propose to make are published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on or after the 15th November 1936, and any objection or suggestion received by the undersigned through the District Magistrates before that date, will be duly considered:—

Draft rules for the control of malaria and other mosquito-borne diseases.

1. In an area in which the Local Government has ordered that anti-mosquito operations shall be taken up by the district board it shall be lawful for the district board to stock larvicidal fish in any tank, well, reservoir or other water collection which, in the opinion of the district board appears to be injurious to health, whenever such a step is decided upon by the district board as an anti-mosquito measure.

2. Whenever the admission of silt-laden flood water into tanks, ponds and other water collections is deemed necessary as an anti-mosquito measure in an area in which the district board has been ordered by the Local Government to take up anti-mosquito operation, the district board shall provide for waterways for the introduction of flood water into the interior of such area, if this has not already been arranged for by any other authority, and the owners of tanks, ponds or water collections shall admit the flood water into the said tanks, ponds and water collections.

3. (*1*) Whenever anti-mosquito operations have been ordered by the Local Government to be taken up by a district board in an area, it shall be lawful for the district board to treat all water collections periodically with larvicides.

When such anti-mosquito operation has been taken up by the district board, the owners of tanks, wells and other water collections shall neither offer any obstruction to their legitimate operations, nor claim any compensation.

(2) When any of the immature stages of the mosquito are found on any premises in any collection of water in any cess pit, well, pool, channel, barrel, tub, bucket, tank or any other vessel or in any bottle, tin, box, shell, earthenware vessel or any other article it shall be lawful for the District Health Officer or any assistant authorised by the District Health Officer to take immediate steps—

(*a*) to destroy any such immature stage of the mosquito by the application of oil or larvicide to prevent the recurrence of the insanitary condition and to render any pools or collections of water unfit to become breeding places for mosquitoes;

(*b*) to collect and remove empty tins, cans, bottles or other receptacles in which mosquitoes may breed;

(*c*) to cut down and remove any grass, bamboo stumps, fern or under-growth in which mosquitoes are likely to breed or be harboured;

(*d*) to fill with concrete or otherwise treat holes or hollows in trees which hold or are likely to hold water;

(*e*) to carry out any other anti-mosquito measure.

4. The district board may, by an order in writing, require regular use of larvicides in private drains and open cesspools by owners and occupiers of any land as an anti-mosquito measure at intervals of not more than ten days, provided that the necessary materials for the purpose shall be supplied by the district board. The district board may by its own staff also cause such drains and cesspools to be treated with larvicides.

5. The district board may, by an order in writing, require the owner or occupier of any building to provide mosquito-proof coverings for the cesspools within the building and to construct yard gullies for connection with drains within such time as may be specified in the order and shall require such coverings and gullies to be maintained in proper state of repair.

6. Whenever the district board is of opinion that sub-soil drainage may improve the sanitary condition of any land, the district board may, by an order in writing, require the owner of such land to provide sub-soil drains, provided that there is a suitable outfall for such drains.

7. (*1*) No person shall, within an area in which anti-mosquito operation has been ordered to be taken up by the district board, without special permission of the district board, make an excavation for the purpose of taking earth therefrom or for making of bricks or for the purpose of storing rubbish or offensive matter therein or dig any cesspool, tank, pond, well or pit.

(*2*) If any excavation, tank, pond, well or pit is made or dug in contravention of sub-rule (*1*) the district board may, by written notice, require the owner or occupier of the land on which the same is made or dug to fill up the same with earth or other material approved by the district board within such time as may be specified in the notice.

8. The owner or occupier of any land or building shall not keep therein any bottle, unbroken or broken, whether fixed on wall or not, tin, box, earthenware vessel, shell or any other article which may hold water, in such manner that it is likely to collect or retain water which may become the breeding place of mosquitoes.

9. When the district board or the Government has constructed any work with the object of preventing mosquito-breeding, the owner or occupier of the land or building on which such work is constructed shall not use such land or building in such manner as is likely to cause deterioration or to lessen the efficiency of such work.

10. The district board may, by an order in writing, require the owner or occupier of a land or building containing an unscreened container such as a tub, bucket, barrel, cistern or other vessel intended for storage of water or any other liquid to completely empty the same every seven days unless such container is fitted with a suitable cover and is properly protected to prevent access to the mosquitoes or is screened to the satisfaction of the District Health Officer or any other officer authorised by the District Health Officer in this behalf.

11. Whenever any land, being private property or within any private enclosure, appears to the district board, by reason of thick vegetation, under-growth or jungle or inequalities of surface or by

want of drainage to be in a state injurious to health or offensive to the neighbourhood, the district board may, by an order in writing, require the owners or occupiers or the owner and occupier, of such land, within fifteen days of the service of the order to clear and remove such vegetation, under-growth or jungle or dress such surface or drain or otherwise cleanse, treat or improve such land, and when the land belongs to the district board the work which the owners or occupiers may be required to do under this rule shall be carried out by the district board.

12. If for the purpose of any of these rules it shall be necessary to acquire any land not being the property of the person who is required to drain or irrigate his land or to pay compensation to any other person, the district board shall provide such land or pay such compensation.

13. The Chairman, Vice-Chairman, District Engineer, District Health Officer or Sanitary Inspector or any other person authorised by the district board in this behalf, may enter into or on any land, building or shed, hut, outhouse, stable, privy, urinal or any other such structure whether constructed of masonry, bricks, wood, mud, metal or any other material, with or without assistants or workmen, in order to make any inquiry, inspection, examination, survey, or for the purpose of executing any other work which may be necessary for the control and suppression of mosquito-breeding and of mosquito-borne diseases:

Provided that—

(*a*) no such entry shall be made between sunset and sunrise;

(*b*) no entry shall be made without the consent of the occupier thereof unless the said occupier has received at least twelve hours' notice of the intention to make such entry;

(*c*) reasonable notice shall be given in every case even when an entry may be made without notice, to enable the inmates of any apartment appropriated to women to remove to some part where the privacy may be preserved; and

(*d*) due regard shall be paid, so far as may be compatible with the exigencies of the purpose of entry, to the social and religious usages of the occupants.

ECCLESIASTICAL.

Simla, the 3rd September 1936.

No. Eccl.-32.—In pursuance of rule 32 of the Indian Church Statutory Rules, 1929, the Governor General in Council, with the concurrence of the Bishop of Calcutta, is pleased to make the following rules for the constitution of Church Committees for Maintained Churches served by Chaplains as defined in section 1 of the Indian Church Act, 1927 (17 and 18, Geo. 5, C. 40):—

Rules relating to Church Committees.

Rules for Church Committees for Maintained Churches served by Chaplains as defined in section 1 of the Indian Church Act, 1927.

(Where so desired by the Chaplain, the rules laid down by the Government of India in 1868 may, with the sanction of the Bishop of the Diocese, be used as an alternative to these rules.)

1. A Church Committee shall be appointed for each church, provided that if in any station more than one church is served by the same chaplain it shall not be obligatory to appoint separate committees for these churches.

2. (*1*) A Church Committee shall consist of the Chaplain together with a convenient number of members appointed by nomination and election as hereinafter provided in accordance with the rules laid down for the Diocese.

(*2*) In any station where two members in addition to the Chaplain are deemed sufficient one shall be nominated by the Chaplain and the other shall be elected by the communicant members of the congregation from among themselves. In other cases, subject to the provisions of rule 10, at least half the members of a Church Committee shall be elected by the communicant members from among themselves. The other places on the Committee may be filled by nomination by the Chaplain, or otherwise in accordance with any rules which may have been sanctioned for the congregation under rule 10.

(*3*) The names of all nominated and elected members of the Church Committee shall be forwarded to the Bishop immediately after their appointment.

3. The Church Committee shall be appointed annually and the date on which they shall assume office shall be laid down in the bye-laws of each Committee.

4. In the event of a vacancy occurring among—

(*a*) the nominated members, the Chaplain shall be empowered to nominate a substitute:

(*b*) the elected members, the remaining elected members shall be empowered to co-opt a communicant member of the congregation as a substitute. If the vacany leaves no elected member on the Church Committee, it shall be filled by election as provided in rule 2 (*2*):

Provided that, should any member of the Church Committee vacate his office during a vacancy in the incumbency of the station or Church the other member or members shall refer the matter to the Bishop for his direction.

5. The Church Committee shall ordinarily meet not less than once a quarter and may be convened at any time by the Chaplain or, if there is a vacancy in the incumbency, by the person appointed by the Bishop to take temporary charge of the parish.

6. (*1*) Not less than one-third (subject to a minimum of two) of the total number of members shall form a quorum at a meeting of a Church Committee.

(*2*) The Chaplain shall be the Chairman of the Church Committee. In the absence of the Chaplain, the members present shall elect a Chairman for the meeting from among themselves.

(*3*) The Chairman shall have a casting as well as a deliberative vote.

7. The Church Committee will have no legal status as a corporate body and no powers beyond those specified in these rules.

8. The duties of the Church Committee shall be:—

(*i*) To assist the Chaplain in the distribution of money gathered at the offertory in accordance with the Rubric at the end of the Communion Service, due attention being paid to any particular recommendation made by the Bishop;

(*ii*) to assist in collecting the alms of the congregation and in drawing up an annual report of their amount and distribution which after due audit shall be published to the congregation and sent to the Bishop;

(*iii*) to assist in the management and expenditure of any other Church funds;

(*iv*) to share with the Chaplain the duty and responsibility of assigning seats in the Church and reserving official seats for such persons and their families as may be indicated in any order of Government;

(*v*) to make representation to the Bishop on matters connected with ecclesiastical affairs of the Church or station, to meet him or the Archdeacon on visitation for conference on such matters, and to answer such circulars and letters of enquiry as the Bishop or the Archdeacon may address to them;

(*vi*) to consult with the Chaplain on all matters connected with the fabric of the Church and Parsonage, if the building be public property, and to assist the Chaplain in the care of the cemetery;

(*vii*) if the Chaplain has left the station without making arrangements for Divine Service, or is prevented from doing so, to make such arrangements, provided that, without the sanction of the Chaplain or the Bishop, no service shall be conducted in the Church by any person other than a clergyman or Lay Reader holding the Bishop's Licence or a member of the Church Committee;

(*viii*) to consider with the Chaplain the adoption in their parish church, when so desired, of any alteration in the Book of Common Prayer from time to time authorised by the Church of England in England and of any form of service in substitution for any of the forms provided therein which may have been sanctioned for use in the Province or Diocese (see Canon III of Chapter XXII, Canons and Rules of the Church of India);

(*ix*) to appoint a person to take charge, during the temporary absence of the Chaplain or during a vacancy in the incumbency, of the Church plate, books, linen, and all other property, and deliver them up with an inventory to the Chaplain on his return or to the new Chaplain on appointment; and

(*x*) to make, when necessary and subject to the approval of the Bishop, bye-laws to supplement these rules, in so far as they are not inconsistent with these rules.

9. The acceptance of the duty of acting as a member of the Church Committee is purely voluntary. While the members of the Church Committee are responsible to Government for the due care of Church property, neither the Committee nor any member thereof shall be held responsible for any loss or damage to the Church property unless such damage or loss shall have been incurred by their default.

10. Where owing to the existence of special Trusts or long established custom, it is impossible or inexpedient to enforce in all respects the Rules above set out, the Bishop shall have power to sanction such modifications as in his opinion are justified, and shall report the same to the Local Government or Administration for information.

11. The powers vested in the Bishop under these rules shall in his absence be exercised by his Commissary.

12. When an interpretation of any doubtful point in these rules is required resort is to be had to the Bishop, who if in doubt shall refer the matter to the Metropolitan, who may at his discretion refer it to the Governor General in Council for a decision.

13. Nothing in these rules shall prevent the formation in a parish of a representative body (or Vestry) of parishioners to assist and advise the Chaplain in the exercise of his duties, but the Chaplain and Church Committee shall be *ex-officio* members of such a Vestry and the Vestry shall not be competent by any rules or resolutions to assume the responsibilities and duties which are by these rules assigned to the Church Committee.

The Sri Chitra Exhibition 1936

Trivandrum, Travancore.

The above Exhibition will be held in Trivandrum in connection with the celebration of the next birthday of His Highness the Maharaja of Travancore which will fall on the 12th November 1936. Arrangements will be in the hands of a large and responsible Committee composed of leading officials and non-officials and will be conducted on up-to-date lines with Government co-operation. The Exhibition will afford an opportunity for Agriculturists, Industrialists, Manufacturers, etc., to exhibit and advertise their wares.

Exhibits from all over India, whether manufactured in this country or abroad, will be welcome. Accommodation for exhibits (except machinery) will be provided in stalls $10' \times 10'$ available singly or in multiple units. Stalls of special dimensions at special rates may be had on application. Machinery exhibits will be housed in machinery sheds.

There will be a general stall for exhibiting small articles and rare specimens for the convenience of those exhibitors who do not attend in person or send their representatives; for this a minimum rent will be charged, *plus* a 10 per cent. commission on sales.

Arrangements will be made with the Railway Companies for freight concessions on exhibits.

There will be eight sections, viz., (*a*) Raw materials, (*b*) Manufactured goods, (*c*) Rural industries, (*d*) Machinery and Implements, (*e*) Education, (*f*) Public Health and Sanitation, (*g*) History and Archaeology, and (*h*) Fine Arts. SUPPLEMENT.

Official Papers.

Annual Report of the Royal Botanic Garden and the Gardens in Calcutta and of the Lloyd Botanic Garden, Darjeeling, for 1935-36.

Royal Botanic Garden.

1. **General.**—The art of gardening amongst the general public of Calcutta is coming into its own. No one who has a faculty of observation developed to any degree and who remembers gardening of 15 or 20 years ago can fail to be impressed by the immense improvement that has taken place in the appearance of Calcutta Gardens and in the variety of flowers now generally cultivated here. The interest has become general; it is no longer confined to a class; it has caught on.

The excuse made in an examination paper a quarter of a century ago by a Calcutta student will no longer gain the minimum pass marks. The fern was a plant that grew in the rich man's garden, he said, and how, therefore, could he be expected to outline its life history. Necessity is the mother of invention and ingenuity is always worthy its due, but the patent of 1914 has run out with the variety and profusion of all kinds of plant now grown in the poor man's garden.

To the Indian a love of flowers is natural. He has a long history of interest in gardening to his credit. The plants with which he lives have been taken by him to many of his religious rites and institutions. They are part of his history, and there are crops of them scattered throughout his mythology. But it is increase in his garden variety and profusion that is noticeable of later years, and if we try to seek reasons for this they may be found in the increased opportunity he has through the services of horticultural firms and societies and in the facilities that now offer for the rapid introduction of varieties that are gaining a place in gardens throughout the world.

From the scientific side of the horticultural effort he benefits by the breeding and crossing experiments going on from which a variety of forms hitherto unknown and unsuspected have come to supplement the stocks he formerly had at his disposal.

The average gardens of Calcutta some 20 years ago might have contained all or some of the following:—

Phlox, Verbena, Dianthus, Pansy, Carnations, Nasturtium, Cosmos, Salvia, Sweet Peas, Balsams, Zinnias, Gomphrena, Browallia, Gaillardia, Coreopsis, Hollyhocks, Cannas and Sunflowers. To-day these are all there, but besides the immense improvement in the kinds of them grown we should find now in plenty though formerly rare Dahlias, Double Nasturtiums, Delphiniums, Gladiolus, Stocks, Clarkia, Gypsophila, Eschscholtzia, Statice, Ageratum, Anchusa, Aster, and a host of others. Perhaps the most marked change is in the variety and profusion of Dahlias and Cannas now grown. The Royal Agri-horticultural Society is able to take credit for not a little of the improvement that has taken place in the Canna section.

To say that the variety has been trebled in the last two decades is a conservative estimate and to recognise the enormous improvement effected is a merited compliment to the widespread interest now taken in matters horticultural.

The Royal Botanic Garden has taken its full share in the advance made in the purely horticultural side of its activities. Every year sees a new effort made to test and establish plants not formerly tried, while the standard of production accomplished bears creditable comparison with the effort of lesser known institutions. The exhibits that the Curator has this year put up at horticultural shows have more than held their own in the opinion of the most competent judges. The exhibits were not specially prepared for shows and in quality were fairly representative of the general stocks in cultivation at the gardens.

Improvements effected in the garden during the year range over all sections of its activities; but the progress made towards inclusion of economic plants, especially those of interest to the fruit culturist, deserves special mention. Of recent years the mango has been receiving more than a usual share of attention. Modern methods of transport in cold storage or under other conditions that inhibit the growth of decay organisms have drawn attention to its possibilities in foreign markets. Exhibitions devoted exclusively to the mango, a new departure, are even being organised. The garden was unnecessarily poor in good stock of this tree and additions during the year of 140 mango grafts of good variety were planted out to make good the deficiency. It is unlikely that they will all do equally well but a wider range of material is now here from which in time selections may be made and stock distributed.

Other fruit bearing species will be added till a more just balance in the garden of plants of the purely scientific and economic kind is reached.

The rock garden to which reference was made in recent annual reports has been extended and the following plants added to it :—

Macleaya yedoensis, Taxus baccata, Erigeron canadensis, Thermopsis fabacea. Chrysanthemum coccineum, Fragaria indica, Lobelia syphilitica, Chrysanthemum parthenium, Rosa flexuosa, Robinia hispida, Lupinus polyphyllus, Cercis Siliquastrum, Sophora Sp., Mirabilis Froebelii, Isatis tinctoria, Lotus corniculatus, Senecio clivorum, Cichorium Intybus, Talinum crasiifolium, Gerbera Jamesoni, Lupinus perennis.

The Curator reports that the year was not very favourable for planting out operations, but the increased importance given to the inclusion of species new to or rare in the garden has not been forgotten. His record of additions includes :—*Clematis integrifolia. Moringa oleifera, Cordia tremula, Dalbergia paniculata, Melia sempervirens, Bauhinia retusa, Pistacia chinensis. Dalbergia hupeana, Clerodendron trichotomum, Peltophorum africanum, Balanites aegyptiaca, Cryptostegia madagascariensis, Sideroxylon dulcificum, Ochna mossambicensis, Aristolochia, altissima, Callitris quadrivalvis, Acacia mollifera, Guazuma ulmifolia, Psidium pumilum, Bauhinia putchella, Schinus dependens, Ficus colinifolia, Araucaria brasiliensis, Casuarina lepidophloia, Pavetta indica, Diospyros hulesioides, Acacia spadicigera, Clerodendron tuberculatum, Acacia Richii, Ischira rosea, Garcinia tinctoria, Rheedia sp., Bauhinia scarlet, Tecoma argentea, Calophyllum antillerum.*

The short rainfall, itself, combined with the reduced normal period of fall affected not a few garden plants in the open, and numbers especially in the riverways entrance to the garden, the Oreodoxa Avenue, had to be removed. This Avenue, so well-known to garden visitors, is now losing its former beauty. Every year one or more members of its stately palm disappear. It is already beginning to look ragged and it must be years before the line of replacements effected some five years ago grows up to allow of a mass removal of the old trees. With the palmyra replacement is easier, for this palm grows so much more quickly that within ten years gaps are nearly filled and the symmetry of its avenues is regained.

In addition to the routine work of the garden the Orchid House has been repaired and a special effort made to make good the damage done to garden labels. This last work is going on apace, but replacement will henceforth have to be viewed as routine work, for time alone and the weather is not responsible for the deterioration in lables that takes place. One would think that a label bearing a Latin name with the name of the family to which a tree belongs and its geographical distribution could excite resentment from no quarter, but the manner in which labels get bent and broken belies the assumption. The damage must be the work of a few malcontents, for the great masses of garden visitors of all classes are orderly and appreciative of what is done for them.

No major work could be undertaken during the year, but a few coolie houses have been partially erected near the economic ground so that some garden labour may live nearby and be able to keep an eye on plant products that excite more than a legitimate interest.

A lotus bowl for experimental work on water plants in the open has been dug near the flower garden and new beds of roses planted up. The garden is now very much richer in the rose class than it formerly was but as with the orchids, rose stock has continually to be introduced. It deteriorates and not all kinds do equally well. Some only just survive. As has been pointed out before the climate of Calcutta is not well suited to this class of plant: Some of our stock has come from abroad but the garden can now depend for regular supplies on the finely stocked gardens of Upper India where the conditions suit it so much better than in Bengal.

As in recent years large numbers of potted plants have been staged out at vantage points throughout the garden.

Experiments on the pollination of Amherstia have been repeated with encouraging results. Some of the seed has gone to Kew where success with the germination of last year's small supply had not been obtained. This tree is in great demand by horticultural institutions throughout the world. Although there is no great difficulty in establishing rooted cuttings of it, the expenses of transporting these in wardian cases militate against its wider distribution. Fertile seed is rarely found, the production of racemes of pendulous flowers, quaint, orchid like and highly specialised seeming to absorb most of the plant's energy leaving little for the production of fertile seed The absence too of the right pollen carriers, the flowers not seeming to be visited much by insects, may also be responsible for the scarcity of seed. The tree does well under shady conditions at Sibpur, but it is not native here. A suggestion might be made for pollination experiments to be carried out in Burma where it is native and locally not uncommon. Results might be better.

The introduction or reintroduction of conifers to the garden has been continued. The Araucarias do best, then come some representatives of the genera Pinus and Thuja. These are being added to and others tried.

The limitation of funds made it impossible to do any excavation to the garden tanks and not until machinery replaces the expensive man handling methods ordinarily employed where excavation is in question are we likely to see the garden tanks in a healthy state. Estimates of expenditure for deepening the limited tank area in the Eden Garden will

show how remote is the probability of our seeing this desirable improvement carried out extensively at Sibpur. But in spite of this and other defects the garden looks well. For the benefit of visitors who like to find its secluded spots it is all mowed and rolled several times a year. Modern machinery has come to our aid in the maintenance of its vistas, glades and maidans in lawn like condition. In this respect as in respect of the amount cultivated it is a much richer, more attractive and interesting place than it formerly could be.

Its roads now mostly macadamised, compare favourably with those of its neighbourhood, and the river bank from a point east of the ghat to the west end of the garden is fully revetted. This work has gone over to another department. It has proceeded apace and has rendered the garden much more attractive from the river side. The visiting public shows no decline in numbers, Indians especially flocking to it during fetes and holidays, and it remains a regular rendezvous for the school children of Calcutta.

2. **Plant and seed exchange.**—For horticultural and roadside planting schemes some 8,055 plants were dispatched to institutions in India while 462 packets and 28 lbs. of seed went out. Some 594 plants and 975 packets of seeds were received.

3. **Herbarium and Library.**—The total number of specimens determined is about 3,500 the majority being represented by collections from the Eastern Himalaya. These gatherings of Sikkim plants include a set of valuable specimens brought from Bhutan by His Excellency Sir John Anderson, Governor of Bengal. These specimens have since been worked out by the Curator of the Herbarium, who reports that some of the species of His Excellency's collection appear to be new records. Three or four specimens which could not be matched here had to be sent to Kew and Mr. Biswas expects that at least a couple of them may turn out new to science. These East Himalayan plants also include Mrs. Townend's collections during her trip to Northern Sikkim. A collection of about 290 specimens from Captain Kingdom Ward proved to be a substantial addition to the plants of the Naga Hills, Assam. All these specimens have been identified and mounted. A complete set has gone to the British Museum together with the list of identifications as desired by Captain Kingdom Ward. The collections of Dr. N. L. Bor and Mr. Biswas from Sandakphu and Phalute form also a fair portion of this year's identification ; besides several others received from Messrs. Parkinson of Dehra Dun, Purkayastha of Shillong, Ram Chandra Rao of Karachi, A. C. Dutt of Gauhati College, F. M. Bailey of Nepal, Mother Monica, C. E. Saxton and S. R. Bose of Calcutta and others.

The total number of specimens sent on loan this year is about 421, a much larger number than in the previous year, although the number of correspondents and the variety of specimens supplied are nearly the same. About 95 sheets of Psilotum were scrutinised by Mr. C. E. Parkinson. Mr. C. Norman of the British Museum of Natural History examined critically 77 sheets of Pleurospermum. Y. Tsiang of the Sun Yatsen University, Canton, China, studied 6 lots from the herbarium belonging to the genera *Aganosma*, *Toxocarpus*, and *Gamostemma*. Dr. S. P. Agharkar of the Calcutta University has

had 29 sheets of *Monotropa*. Some 10 sheets of *Daemonorops* were sent for study to the Director of the Botanic Gardens, Singapore while 116 Liverworts formed the subject for study of Mr. R. S, Chopra of the Punjab University who reports about a dozen of them as new records.

The specimens received back from loan is about 754. Mr. J. B. Hutchinson who was engaged in a monographic work of cultivated cotton plants returned, after revising the names, 554 sheets of specimens of Gossypium sent to him last year. Dr. H. N. Moldenke, Assistant Curator, the New York Botanic Garden, who is engaged in the study of the sheets of the genus Avicennia, returned 164 sheets belonging to this herbarium after incorporating necessary notes. About 36 specimens of a Dipterocarpus lot have been received back from the Forest Botanist, Federated Malay States Museum. From China, Tashkent and Singapore came 336 sheets presented and from other localities smaller numbers.

Plants going out on an exchange basis include 200 local species to Formosa, 30 specimens of Phœnix to America and a collection of flower buds of 17 species in special preserving fluid to Sweden. The National Herbarium, Manila, and other institutions throughout the world also benefited. Enquiries from very many sources on questions that can be answered or regarding which help can be given continue to come to the herbarium.

Some 3,173 specimens have been mounted, 5,097 specimens incorporated and 600 covers changed. The herbarium has this year unfortunately lost through death the services of an expert mounter Debendra Nath Nasker. It is not easy to procure the right type of man for this delicate work of mounting and it takes long experience to acquire the art.

Exploration was largely kept in abeyance due to the Superintendent being on leave but the Officiating Superintendent during the course of inspection work at Darjeeling made a tour to higher elevations.

In addition to Indians who came to headquarters several foreign visitors also visited the herbarium on special quests. Mr. Dowson formerly of the Irak Agricultural Department was helped with the palms and on the methods of their tapping ; Professor Tanaka made a prolonged study of our material and literature of Citrus.

Short papers on "Jute and allied fibres" ; The "Organic growth of the Calcutta Filterworks" ; "The Position of the genus Sansevieria in India" ; "The Vegetation of the Hazaribagh district" and "New species from Assam" were contributed by the Curator of the Herbarium.

The treatise on Water plants has attained a larger dimension than was originally intended and delay has resulted in consequence of the inclusion of more cryptogams, but the writing of the work is now completed and the plates nearly all prepared.

The library has been maintained, 30 periodicals being bought and some 106 received on exchange. Several books have been added and the demand for loans increases.

4. **Publications.**—The second part of the text of Sir David Prain and Mr. Burkill's monograph, the genus Dioscorea, is still in the Press.

5. **Finance.**—Out of the total budget allotment of Rs. 48,406 for staff and permanent establishment Rs. 48,382 were spent and under all other heads the expenditure amounted to Rs. 46,862 against the total allotment of Rs. 47,276. There was a net saving of Rs. 438 under all the heads during the year. Receipt of the department during the year amounted to Rs. 2,094.

6. **Staff.**—The writer held the post of Superintendent from 1st April to 30th May 1935, and from 30th November, 1935, to the end of the year. He was on leave out of India from 31st May to 29th November 1935. Mr. K. Biswas was Officiating Superintendent for the six months and was Curator of the Herbarium from 1st April to 30th May 1935, and from 30th November 1935 to the end of the year. Mr. V. Narayanaswami was Officiating Curator of the Herbarium from 31st May to 29th November 1935. Mr. N. Mitra was Curator of the Garden throughout the year. Mr. Md. Quasem Ali was Assistant Curator, Royal Botanic Garden, Calcutta, throughout the year. Mr. K. S. Joneja was Overseer, Royal Botanic Garden, from 1st April to 18th September 1935, and from 1st November 1935 to the end of the year. He was on leave from 19th September to 31st October 1935.

Mr. A. T. Banerjee was Head Clerk throughout the year. All officers and the clerical establishment have performed their duties satisfactorily.

CALCUTTA GARDENS.

Work in these gardens which include the Eden, Dalhousie Square and Curzon Gardens, was again mainly of a routine character. As elsewhere the short rainfall had the effect of delaying planting of winter annuals and the display of these was later than usual. It was, however, in appearance up to the average.

Social function at the Eden Gardens in honour of Their Excellencies The Viceroy and Countess Willingdon also affected to some extent the location and time of planting of annuals, the vicinity of the pagoda being left over till the second week of December.

Number of flowering shrubs and trees were planted out and an improvement effected in the hedges that lead from the pagoda to the bridge. These hedges were being destroyed by visitors who wished to gain short cuts and the *Acalyphas* composing them were replaced by Barleria, it being thought that this would be more resistant to encroachment and at the same time provide a change in the colour effect. The result is satisfactory.

The stocks of ferns and potted palms and orchids were maintained and increased by propagation.

As a result probably of differences in the water-supply the Eden Gardens prove a very much better place than the Sibpur Gardens for the development of Victoria regia. The leaves of this aquatic reached an enormous size. They became interesting objects to the public for photographic purposes and the plants flowered well.

A welcome collection in exchange was received from the Municipal Gardens, Bombay. This included a considerable number of Marantas for the shade houses and of varieties of Hibiscus for the open. The buildings, roads and benches have been kept in as good order as the limited funds would permit.

In the Eden Gardens some 42,000, in the Curzon 16,000 and in the Dalhousie Square Garden 13,000 square feet of road were attended to.

Estimates have been prepared for the excavation of the tanks in the Eden Gardens. Their proximity to Government House and the Council Chamber render it necessary that they should be free of mosquito larvæ, and the proposal to excavate them has the object of making the locality more sanitary. It is not likely that a scheme of this magnitude will readily find a place in the schedules for new expenditure and the ordinary and not very satisfactory palliatives of cleaning and spraying with oil will have to be continued.

The Gardens as a whole look well and there is continued improvement in the Curzon Garden.

One bad factor that will require more attention in the coming year is the state of the iron fences in the Eden Gardens. The budget allotment has been fairly distributed to the most necessary works and the state of all the gardens reflects this.

Finance. Out of the total grant of Rs. 30,763 under all heads Rs. 30,754 were spent leaving a balance of Rs. 9. Receipts of the Calcutta Gardens during the year amounted to Rs. 10.

Staff.—Mr. Merlin Jones was Assistant Curator, Government Gardens, Calcutta, throughout the year, Mr. Gholam Muhiuddin was Overseer from 1st April 1935 to 2nd March 1936. He went on leave for three months from 3rd March 1936. Mr. J. A. Hulbert, Overseer, Cinchona Plantation, Munsong, acted in his place from 3rd March 1936 to the end of the year.

LLOYD BOTANIC GARDEN, DARJEELING.

The rainfall at this Garden was 107·8 inches over the year, being below the average. But heavy continuous rain nevertheless destroyed seedlings in the open and replacements had to be made in beds in some cases more than once. The routine work of the Garden has been continued and several attempts at improvement made. Amongst these the most important was a renovation of the rockery. This involved the transport of fresh material to the Garden but the result has been much appreciated by the visiting public. A small ferroconcrete bridge and an artificial waterfall have been added to enhance the effect of the improvement. Species of the following genera from alpine and temperate regions have been planted up in the rockery :—Rhododendron, Rosa, Strobilanthes, Agapates, Vaccinium, Genista, Cotoneaster, Swertia, Spiraea, Lilium, Sexifraga, Anaphalis, Aster, Primula, Hypericum, Lonicera, Allium, Onosma, Pentapterygium, Gentiana, Smilax, Iris, Ranunculus, Berberis,

Daphne, Veronica, Helianthemum, Cathcartia, Meconopsis, Achillea, Arenaria and others. Several of these were collected by the Curator while on botanical tours.

Besides the usual display of flowers on beds the special beds of Meconopsis Wallichii, M. nepalensis, M. combrica, Cathcartia villosa, Primula cashmeriana grown from acclimatised seed, Lilium Nepalense, L. giganteum and L. Wallichii attracted many visitors. The Curator also records a long list, some of interesting or rare flowers in this part, that bloomed during the year. He has added to the Garden collections of orchids by drawing freely on the local jungle supply at the elevation of Darjeeling or lower down. Parts of the lawns have again had to be combed to restrict the growth of moss. Only those who have tried to maintain pure lawns in a damp climate at such elevation in the Estern Himalayas can know how repeatedly the operation of combing has to be done to secure a satisfactory turf.

Some 196 young plants were put out to permanent situations in the Garden during the year. The list includes additions to species already there, repeat trials with those that had not previously succeded and a few plants new to the Garden ; chizandra grandiflora and Stephania rotunda are new additions.

A fairly large number of additions was made as a result of exchanges with the Sun Yatsen Memorial Park, Nankin, China. It is to be recalled that the Lloyd Botanic Garden freely gave material to help and establish the Memorial Park some years ago. From China we are now in receipt of Aucuba chinensis, Idesia polycarpa, Vanieria tricuspidata, Deutzia pilosa, Prunus rufomicans, P. anomala, P. Willsonii, P. pubigera and species of Photinia, Lonicera, Cassia, Lindera, Rubus, Hydrangea, Clematis and other more or less temperate plants.

Some 5,009 packets of seeds, 313 plants and 9,969 seedlings were distributed.

The herbarium and library were kept in good condition and added to. The existence of a local herbarium in Darjeeling may not be so generally known as it should be. It is possible that more local collectors would use it if they knew of its existence. It is the work of successive Curators of the Garden, especially of Mr. Cave, and contains a fairly representative set of the plants of the Darjeeling district. The Curator will be glad to place its collections at the disposal of any local botanists who call to compare specimens and if they fail there the staff at Sibpur will always be glad to supplement the help from headquarters.

Two botanical tours were undertaken by the Curator during the year one to the higher and one to the lower elevations and he helped Mr. Biswas during the latter's inspection with materials for a Guide-book.

Over 47,000 visitors were counted at the gates.

As in former years the garden staff did what was possible to make the local annual flower show a success. The alpine groups staged by the garden were not at their best but the public showed its usual interest in them all the same.

Finance.—Out of the total allotment of Rs. 15,774 under all heads Rs. 15,543 were spent and a sum of Rs. 219 was surrendered leaving a a small balance of Rs. 12.

Staff.—Mr. S. N. Basu was Curator, Lloyd Botanic Garden, Darjeeling, throughout the year.

DARJEELING, THE 9TH SEPTEMBER 1936.

RESOLUTION—No. 426T.A.I. AGRI.

Minister-in-charge: The Hon'ble Nawab Sir Mohiuddin Farooqui, Kt., of Ratanpur.

Read—

The Annual Report of the Department of Agriculture, Bengal, for the year 1935-36.

Administration.—Mr. K. McLean continued in charge of the Department throughout the year. He was confirmed as Director of Agriculture, Bengal, with effect from the 20th October 1935 on retirement of Dr. G. P. Hector.

On return from leave in October 1935 Mr. M. Carbery, Agricultural Chemist, Bengal, took over charge of the post of Assistant Director of Agriculture, Bengal, from Mr. P. C. Chaudhuri, being confirmed in the post at the same time. Mr. P. C. Chaudhuri, Deputy Director of Sericulture, was appointed as Deputy Director of Agriculture, Eastern Circle, in October 1935, in place of Mr. F. Smith, retired, on being relieved by Mr. Carbery. In March 1936 Rai Sahib Jamini Kumar Biswas, who was officiating as Deputy Director of Agriculture, Northern Circle, went on leave preparatory to retirement.

Dr. S. Hedayetullah, M.Sc. (Cal.), PH.D. (London), was appointed as Economic Botanist, with effect from 1st October 1935.

General.—The season was a very difficult one for agricultural operations. Owing to shortage of rain, the sowings were generally late specially in highland areas, but in East and parts of North Bengal lowland sowings were carried on satisfactorily with the usual soil moisture. Although general rainfall from the middle of May till June facilitated *kharif* sowings in Western and Northern Bengal and the preparation of winter paddy seed beds, subsequent periods of shortage of rain followed by a long spell of drought seriously affected the winter paddy crop and the *rabi* crops. Western Bengal was most seriously affected and in the districts of Burdwan, Birbhum, Bankura, Hooghly and Murshidabad, which suffered from drought in the previous year, little or no crop was obtained over wide areas and scarcity had to be declared. The only crops returning a normal outturn were jute and lowland *aus* paddy for which the season was favourable.

The intensive campaign for the restriction of the area under jute which was undertaken in 1934-35 by officers of the Agricultural Department with the assistance of the local officials and non-officials bore fruit in the shape of a considerable reduction in the area under the crop and in improvement of its prices. As the underlying object of the restriction was to restore a healthy price-level by bringing the surplus stocks of jute back to normal and avoiding a glut in the market and as it was realised that it would be disastrous if, in the hope of immediate profits, the cultivator failed to restrict to the full extent during the coming season, vigorous propaganda was again undertaken for restriction of the area under the crop during 1935-36. To ensure success a considerable number of temporary demonstrators were also employed to instruct the cultivators in the cultivation of *rabi* crops and to introduce alternative crops such as sugarcane and groundnut.

Research and experiment.—Considerable success attended the activities of the research section during the year where full advantage was taken of the financial assistance offered by the Imperial Council of Agricultural Research and of the advice afforded by their experts. As many as seven schemes of research were worked with their grants, noteworthy among them being those relating to trade rices, sugarcane, fruits, marketing and animal nutrition. At the Universities of Calcutta and Dacca also research work on soils and soil colloids, on nutrition of rice plant and on experimental errors in field trials was continued with their grants. It is confidently hoped that by the successful working of these schemes results of far-reaching importance will be achieved before long which will go a great way towards the amelioration of the economic condition of the cultivating classes.

The work on the scheme for investigation of the possibilities of improving Comilla cotton which was started in the previous year was continued with the grant of the Indian Central Cotton Committee.

That the value of sugarcane as a revenue crop has been recognised by the cultivator would be apparent from the fact that the area under the crop increased from 276,000 acres to 325,000 acres during the year, of which 244,000 acres were reported to be under C. O. 213. Eight vacuum pan factories and 54 open pan factories worked during the season with a full supply of cane. During the year 19,072,000 of C. O. 213 cuttings were distributed. Rupees 15,500 was also sanctioned to meet the cost of cuttings in introducing sugarcane as a substitute crop for jute.

Fifteen new types of cane were introduced into the field testing area from the seed-testing station. Of the types already under investigation C. O. 281 and C. O. 381 proved most promising early ripeners.

There was an increasing demand for departmental types of tobacco and during the year, 4,911 tolas of seed were distributed. The number of demonstration centres was 441 extending over 140 acres and the total area under tobacco was 307,000 acres, of which 70,000 acres were reported to be planted with departmental types.

The investigation into the manurial value of Damodar silt was continued, the silt being found to be rich in all manurial ingredients—Nitrogen, Potash and Phosphate. The investigations undertaken in connection with the economic enquiry into the cost of production of cane and other crops in certain tracts of Bengal showed that in the soils in Bogra and Birbhum lime is lacking, and in Bogra Potash is more than sufficient throughout while Nitrogen and Phosphate are only sufficient in the surface soil. The Birbhum soils were found to be lacking in all essential plant foods.

Several samples of 1934 crop of jute from the experimental plots in different farms in the province were sent to the Dundee Chamber of Commerce and the assessors placed a new type, D. 386 in the first category. This type is a heavy yielder, the yield exceeding that of D. 154 on the Rangpur and Mymensingh farms. In the Olitorius trials, Chinsura Green proved superior to all the other types tested against it.

Animal husbandry.—The Department was fully alive to the necessity of maintaining a sustained effort to attract that unofficial support and interest in live-stock improvement which is so essential to real progress. While the main difficulty in the way of the improvement of stock has been shortage of funds, it was possible to undertake an intensive campaign in the districts of Malda-Rajshahi, Nadia-Murshidabad, Hooghly-Bankura, Dacca-Faridpur and Tippera-Noakhali under the charge of 5 live-stock officers, of whom 3 were appointed during the year. 230 bulls were in charge of the live-stock officer in Rajshahi-Malda and 65 under the charge of the officer in Hooghly-Bankura districts. 19 stud bulls were issued free from district farms and 14 were sold for stud purposes in the districts. The bulls were chosen with great care having regard to their suitability to the type of the cows in the districts concerned and the fullest possible advantage was taken of the pedigree stock available at the Government farms. As regards progeny of the stud bulls, the district boards of Malda and Rajshahi continued to contribute towards the purchase of bulls sired by departmental stud bulls. They also purchased 17 selected bulls from jails for free issue. The district boards of Murshidabad and Hooghly also allotted funds for the purchase of bulls. The premium scheme continued and with a view to meeting the demand for premia from an increased number of owners of bulls and allowing their bulls to come under departmental supervision the amount of premium for each individual premium holder was reduced from Rs. 10 to Rs. 5 each per mensem. The bulls under the premium system covered 3,908 cows against 2,733 in the previous year.

Funds were obtained during the year from the Government of India grant for rural uplift and in accordance with the scheme sanctioned in connection therewith 100 stud bulls will be provided in each of the 10 districts in which live-stock officers are at present posted. In addition to ensuring the most profitable use of these bulls the live-stock officers will endeavour to impress on cultivators and others in their areas the essential importance of preventing breeding by existing bulls of inferior quality. To this effect 10 veterinary officers are also to be posted in these districts for a period of two years to undertake an intensive campaign of castration of scrub bulls.

In the poultry section at the Dacca farm the sixth R.I.R. Chittagong cross continued to prove successful, the best layer laying 240 eggs in the year against 125 eggs of the fifth cross laid during the previous year.

In accordance with a scheme for the improvement of poultry sanctioned at a total cost of Rs. 500 out of the Government of India grant for rural unlift, it is proposed to distribute among cultivators in each of the 10 districts supervised by live-stock officers 20 selected mating birds from the poultry section at Dacca on condition that they agree to get rid of their old male stock.

There has been a continued demand for cuttings of Napier grass which it has been difficult to meet. Around every homestead there is a considerable area of land which is at present not being put to use, and the Department are taking up the introduction of Napier grass in these areas.

Demonstration and propaganda.—While the activities of the Department on the demonstration and propaganda side continued on the usual lines through lantern lectures in hats, exhibition and fairs, through the medium of wireless talks on agriculture given by departmental officers in Calcutta and through cinema shows and departmental publications, it is very satisfactory to note the increasing interest which a large number of district and union boards, as well as khas mahals and Court of Wards estates have taken in the matter by the provision of funds for demonstrating staff and for distribution of seeds, etc.

It is unfortunate that the weather conditions in Western Bengal proved a bad set-back to the increase in the area of departmental paddies. On wide areas in Burdwan, Bankura, Birbhum and Hooghly no crop was obtained and a nucleus of departmental types in paddy seed farms was entirely lost. In these areas seed farms will have to be restocked and a start made again from the beginning. Practically all the farms suffered from drought during the *aman* season, and the Burdwan, Dinajpur and Rangpur farms had floods as well which destroyed the whole of the *aman* paddy crop. On the other hand sugarcane was most successful, C. O. 243 and C. O. 213 giving a yield of 129 maunds and 111 maunds, respectively, of gur per acre in the field.

Artificial farm yard manure was manufactured on all farms as a matter of routine for application to the land and for demonstration to cultivators, the total quantity manufactured being 32,470 maunds.

Agricultural education.—The scheme for the establishment of an Agricultural Institute at Dacca did not materialise owing to lack of funds, but it is noteworthy that the nucleus of a higher Agricultural Institute was established at Rajshahi with the legacy of the late Kumar Basanta Kumar Roy of Dighapatia. The Institution has been named the "Basanta Kumar Agricultural Institute," Rajshahi, of which the course of study will include theoretical and practical training in dairy farming, comprising preparation of dairy products, horticulture, poultry, cigar-making and agricultural farming and will cover a period of four years for Matriculates and those who have not read up to the end of the I. Sc. course, and two years for those who have read up to the end of the I. Sc. course or passed the I. Sc. examination. The scheme will come into operation before long.

There has been an increased demand for admission into the Secondary Agricultural School at Dacca due mainly to the provision of stipends by the district boards for students coming from their respective districts, 14 stipends having been allotted during the year. Accommodation for this increased number is also available owing to the suspension of the scheme for training of teachers at the school which now provides facilities for training of 3 teachers only to replace casualties among trained teachers. The number of schools conducting agricultural classes under the scheme for instruction in agriculture in High English and Middle English Schools during the year was 51, of which 2 were new additions, namely, the Ramkrishna Mission Middle English School, Sarisa, in 24-Parganas, and the St. Gabriel Middle English School, Canning. As many as 3,043 students received instruction in the subject—both theoretical and practical. The working of the schools is regularly inspected and steps are taken to eliminate those which work badly.

The subject of the teaching of nature study in primary schools met with encouraging results during the year, the number of primary schools

with provision for such training having considerably increased in many of the districts. The district board of Mymensingh contributed Rs. 100 as a reward to the teachers in 20 primary schools in the district which showed the best results.

Acknowledgment.—Government in the Ministry of Agriculture have much pleasure in recording their appreciation of the valuable services rendered by Mr. K. McLean in the administration of the Department. They have also noted the names of other departmental officers—superior and subordinate—commended in the report. Thanks of Government are also due to the numerous officials and non-officials who helped the Department in various ways, and to the members of the Provincial Agricultural Research Committee and other Committees and Boards attached to the Department for the services rendered by them.

(*d*) GEOGRAPHY.

(*Class II.*)

No text-book is required for pupils in this class, and instruction should be oral, and on the following lines:—

The subject should be introduced by conversation about the neighbourhood—its roads, waterways, railways, where these come from, where they go to, and what traffic is seen on them.

The children should be shown how to measure the dimension of the school-room, the house and the grounds, the teacher drawing on the blackboard plans which the children will copy.

The children should be given the idea of direction and the cardinal points of the compass. Ideas of hills, valleys, plains, rivers, lakes, islands, etc., are to be gained from pictures and models to be made in clay or wood.

Children should observe the position of the school village in the thana or the district map and calculate distances; observe the position of the district in the map of the province. Stories should be told about journeys to important places such as Calcutta, Darjeeling, etc.

These books are approved for a period of four years from January 1937.

The list of text-books published with this office notification No. 3T.B., dated the 16th June 1930, is hereby cancelled.

The syllabuses for Infant Class, Class I and II in the Revised Curriculum for Primary Schools (and Maktabs), now in force in both parts of this Presidency, shall be adopted, respectively, in the Infant Class, Class I and Class II of Middle Schools and the corresponding Classes of High Schools for both boys and girls. District Boards and District School Boards are requested to choose books from the following list for use in Maktabs under their control. In making this choice, it is hoped that care will be taken to ensure that undue patronage of either individual authors or publishing houses is avoided. Inspecting Officers should not themselves recommend books directly to Primary Schools.

J. M. BOTTOMLEY,

(*Class II.*)

No text-book is required for pupils in this class, and instruction should be oral, and on the following lines:—

The children should be shown how to measure the dimension of the school room, the house and the grounds, the teacher drawing on the blackboard plans which the children will copy.

The children should be given the idea of direction and the cardinal points of the compass. Ideas of hills, valleys, plains, rivers, lakes,

islands, etc., are to be gained from pictures and models to be made in clay or wood.

Children should observe the position of the school village in the thana or the district map and calculate distances; observe the position of the district in the map of the province. Stories should be told about journeys to important places such as Calcutta, Darjeeling, etc.

CIRCULAR No. S/294.

The Registrar of the Calcutta University has issued the following for general information :—

The Vice-Chancellor and Syndicate have withdrawn the privilege of provisional recognition enjoyed by the Raniganj Marwari Sanatan Vidyalaya in the district of Burdwan. They have debarred the Head Master Babu Prafullakumar Sen, B.A., from serving in any recognised High English School as Head Master or Assistant Head Master and the Assistant Head Master Babu Ramsidh Singh from employment in any recognised school under this University. They have further ordered that the students of Class X of the above school should be granted immediate transfer certificates and that the schools in which they will seek admission should scrutinise their cases strictly and satisfy themselves about their *bonafides* before admitting them into their respective schools.

J. CHAKRAVORTI, *Registrar.*

Calcutta University.

Senate House, the 31st July 1936.

NOTIFICATION No. S/292/O.U.

In modification of previous orders on the subject it is hereby notified for general information that students migrating from other Universities or Boards of Secondary Education other than the Dacca Board for purposes of their admission to the Matriculation Examination of this University as regular students in 1939 and subsequent years will ordinarily be required to prosecute a regular course of study in a recognised school or schools for a period of at least two school years previous to the examination at which they intend to appear. They will therefore have to join Class IX of a High School recognised by this University within the month of January and to conform to the usual rules of migration.

Exception may, however, be made by the Syndicate in regard to Bengali and Assamese students residing outside Bengal and Assam who are desirous of taking advantage of the facilities available here. They shall not be admitted into Class X after January without the special permission of the Syndicate, which must in each case be previously obtained. But, as the school session in Assam begins in March, students who desire admission into Class X of a recognised High School in Assam shall not be admitted after March without the special permission of the Syndicate. Exception may also be made in the case of students if their migration to this University is caused by the bonafide transfer of their guardians.

All special cases referred to above will also have to be submitted to the University in the prescribed form together with the requisite fees and documents.

PART VI

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly, and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 31st August, 1936:—

L. A. BILL No. 32 OF 1936.

A Bill further to amend the General Clauses Act, 1897, for a certain purpose.

WHEREAS it is expedient further to amend the General Clauses Act, 1897, for the purpose hereinafter appearing; X of 1897.
It is hereby enacted as follows:—

Short title.

1. This Act may be called the General Clauses (Amendment) Act, 1936.

Insertion of new section 6A in Act X of 1897.

2. After section 6 of the General Clauses Act, 1897, X of 1897. the following section shall be inserted, namely:—

Repeal of Act making textual amendment in Act or Regulation.

"6A. Where any Act of the Governor General in Council or Regulation made after the commencement of this Act repeals any enactment by which the text of any Act of the Governor General in Council or Regulation was amended by the express omission, insertion or substitution of any matter, then, unless a different intention appears, the repeal shall not affect the continuance of any such amendment made by the enactment so repealed and in operation at the time of such repeal."

STATEMENT OF OBJECTS AND REASONS.

Doubt has sometimes been entertained in the past as to the effect of the repeal of an amending Act which has made textual alterations in a previous Act. The view which the Government of India favours is that an amending Act of this nature is spent once it has secured the inclusion in the text of the parent Act of the changes it was intended to bring about, and that the repeal of the amending Act thereafter does not affect the continuance of the amendments made by it. It has not, however, hitherto been the practice to repeal such Acts after their work is accomplished and the Statute-book is encumbered with much matter which could profitably be removed, but which it was undesirable to remove as long as any doubt concerning the effect of such removal could be entertained. The present amendment of the General Clauses Act, 1897, is aimed at establishing beyond doubt the view set forth above, and enabling a large number of Acts which were confined to making textual amendments in previous Acts to be repealed.

Resolution on the Reports of the Sanitary Board and of the Chief Engineer, Public Health Department, Bengal, for the year 1935.

GOVERNMENT OF BENGAL.

Local Self-Government Department.

Public Health.

CALCUTTA, the 18th SEPTEMBER 1936.

RESOLUTION—No. 3647P.H.

Minister-in-charge: The Hon'ble Sir Bijoy Prasad Singh Roy, Kt.

Read the Reports of the Sanitary Board and of the Chief Engineer, Public Health Department, Bengal, for the year 1935.

As in the previous year, the municipalities continued their policy of financing their schemes by means of loans and contributions raised locally and considerable progress was made during the year in the negotiation of new water-supply and drainage schemes.

Sketch projects for schemes estimated to cost Rs. 28,33,230, detailed projects for Rs. 7,93,765 and detailed estimates and plans for miscellaneous works amounting to Rs. 1,65,867 were prepared during the year.

The stoppage of Government grants towards the execution of water-supply, drainage and other sanitary engineering schemes which was necessitated by the adverse financial position was not, however, without its effect on the number of such schemes undertaken during the year.

The capital expenditure on waterworks was Rs. 2,13,789 in 1935 and on sewerage works Rs. 1,17,273 against Rs. 2,72,893 and Rs. 2,26,339 respectively in 1934. This brings the total amount of capital expenditure till the end of the year up to Rs. 1,67,21,186 on waterworks and Rs. 88,39,149 on sewerage works.

2. The department continued to render valuable assistance to the municipalities in the matter of inspection, advice and supervision.

3. The metering of house connections which was enforced in the two municipal towns of Comilla and North Chandpur strikingly demonstrated the need for continued vigilance on the part of the municipalities for the prevention of waste in the supply of water to the householders. Although the new Bengal Municipal Act gives power to the municipalities to enforce metering at the cost of the householders even in the case of old house connections, there is a general reluctance to enforce metering as a means of checking waste of water. Even where connections are metered excess water charges are not promptly realized, with the result that there is often considerable waste of public funds. The Chief Engineer reports, however, that the "decentralised storage" system of distribution, to which reference was made in last year's resolution, has proved a success in the municipalities of Asansol, Jalpaiguri and English Bazar where it was introduced as a method of checking waste of water, and it is proposed to introduce this system of distribution in all new schemes of water-supply. The Dacca Municipality has decided to reorganise a part of its supply area on the decentralised storage system, and the sketch project of water-supply for the new Garden Reach Municipality has been designed on this system.

4. The Sanitary Board met seven times in the year. The Board examined the various schemes before their submission to Government, and generally reviewed the reports of inspection of the departmental officers, suggesting necessary action. Their advice was of particular value in regard to measures for the control of malaria and other mosquito-borne diseases.

5. The Board formed a tuberculosis sub-committee with the Surgeon-General as Chairman, the Director of Public Health as Secretary and Dr. (Mrs.) Mary H. Y. Remfry, as member.

6. The Government of Bengal desire to convey their thanks to the members of the Board for the valuable advice given by them during the year of review.

They also desire to express their appreciation of the services rendered during the year by the officers of the department, and of the ability with which Mr. F. C. Griffin carried out his duties as Chief Engineer.

By order of the Govt. of Bengal

(Ministry of Public Health),

G. S. DUTT,
Secy. to the Govt. of Bengal.
